Thorn, 2016-07-22 In *From Left to Right* Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement **From Freedom Fighters to Terrorists** Paige Whaley

**Bridging the Gender Gap** Lynn Roseberry, Johan Roos, 2014-07-24 Despite decades of efforts to promote gender equality most leadership positions in business politics education and even NGOs are occupied by men and most people still work in occupations dominated by one sex This book argues that gender imbalances in leadership and occupations are not simply a moral issue or an economic issue but a governance issue Gender imbalances persist in large part because the very people with the authority and influence to do something about them know very little about gender and how it works in their organizations and in society at large Gender imbalanced governance is an expression of entrenched ideas about masculinity and femininity that lead to poor decision making Improving the quality of governance requires action to counteract the main justifications for the status quo Based on interviews and conversations with leaders and managers in Europe and the United States the book presents seven

of the most common explanations for persistent gender imbalances and shows how they are based on common stereotypes and myths about men's and women's abilities and preferences This book provides a guided tour of current research about gender from a multi disciplinary perspective It challenges commonly held assumptions and offers alternative explanations and corresponding principles to guide individual decisions action and behaviour toward achieving gender balance Global Social Work in a Political Context Ferguson, Iain, Ioakimidis, Vasilios, Michael Lavalette, 2018-01-10 How is social work shaped by global issues and international problems and how should it address them Taking a radical perspective this book reveals what we can learn from different approaches from across the globe Post-9/11 American Presidential Rhetoric Colleen Elizabeth Kelley, 2008-01-01 Post 9 11 American Presidential Rhetoric examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework for analyzing emergent fascist public discourse and its potential for producing additional substantial antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9 11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies The Routledge Companion to Terrorism Studies Max Abrahms, 2024-11-05 Although the literature on terrorism is vast there are many holes in it This book helps to fill these lacunae with entries from top terrorism scholars and counterterrorism practitioners in the world Grouped thematically by terrorist actors conflict zones major attacks terrorist behaviors militant group dynamics terrorist consequences and counterterrorism approaches the entries cover a range of topics fundamental to understanding the contemporary terrorism threat and approaches to combating it Truly global in scope the book is an ideal reference for anyone interested in these topics from a variety of disciplinary perspectives Providing incisive analysis on timely topics related to terrorism and counterterrorism this volume will be essential reading for students scholars and practitioners in security studies **The Disentanglement of Populations** J. Reinisch, E. Feldman, 2024-03-15 Judaism in the twenty first century has seen the rise of the messianic Third Temple movement as religious activists based in Israel have worked to realize biblical prophecies including the restoration of a Jewish theocracy

and the construction of the third and final Temple on Jerusalem's Temple Mount Through groundbreaking ethnographic research *Messianic Zionism in the Digital Age* details how Third Temple visions have gained considerable momentum and political support in Israel and abroad The role of technology in this movement's globalization has been critical Feldman skillfully highlights the ways in which the internet and social media have contributed to the movement's growth beyond the streets of Jerusalem into communities of former Christians around the world who now identify as the Children of Noah Bnei Noah She charts a path for future research while documenting the intimate effects of political theologies in motion and the birth of a new transnational Judaic faith

Hoover, Nadia Kaneva, 2009-06-09 The turn of the twenty first century has seen an ever increasing profile for religion contrary to long standing predictions of its decline Instead the West has experienced what some call a realignment of religion where it persists in conjunction with other institutions and structures Outside the West religion is an ever more prominent force in social and political movements of both reform and retrenchment Across these contexts no issue in religion is of as much concern as fundamentalism or rather the fundamentalisms within various traditions which are seen to be fomenting religious social ethnic and political tension and conflict The contributions to this volume represent the first effort to look at fundamentalisms and the media together and address the resulting relations and interactions from critical perspectives of history technology geography and practice The result lays important groundwork for scholarship on these new and increasingly important phenomena
