Policing Welfare Fraud Scarlet Wilcock,2023-12-11 Policing Welfare Fraud charts and interrogates the suite of measures ostensibly designed to combat welfare fraud and non compliance In Australia which serves as the empirical focus of this book these strategies include stringent ID checks pre emptive data surveillance technologies including the infamous and illegal robodebt programme a dedicated fraud hotline and an intelligence led fraud investigation framework Drawing on original documentary and interview data including interviews with fraud investigators this book unpacks the logics that underpin these anti fraud initiatives with a focus on how these initiatives are imbued with logics and practices more readily associated with the criminal justice system The central argument of the book is that the emergence of contemporary welfare compliance regimes represents a form of governing through fraud in which the threat of welfare fraud has effectively necessitated a regime of criminalisation within the welfare state This has been enabled by a broader process of neoliberal welfare reform which has cast suspicion over all welfare use The overall effect of this regime is to restrict access to social security punish welfare recipients and stigmatise welfare use Policing Welfare Fraud also highlights points of contradiction and multiplicity in the enactment of specific welfare compliance initiatives including attempts by welfare officials to moderate or reformulate these strategies on the ground These findings demonstrate that the criminalisation of welfare is neither uniform nor inexorable and that more progressive welfare reform is possible An accessible and compelling read this book will appeal to students and scholars of criminology sociology politics and those interested in the policing of welfare recipients
