Honeck,2025-01-10 Since the birth of their nation Americans have acted on the belief that theirs was a land of youth a place destined to offer a fresh start to an aging world No Country for Old Age tells this story from the founding period to our present moment but not without exposing its darker side rejuvenation has often bred grand expectations that end in division and despair Mischa Honeck reveals how Americans of diverse backgrounds have sought not only to feel and look younger but also to breathe new life into their communities Whether marching under the banners of science public health sexual liberation physical fitness nation building or world peace these youth seekers have tended to paint their ventures in utopian colors However from the founders to today s Silicon Valley elites anti aging ventures have repeatedly magnified social inequalities often projecting visions of society that have been unmistakably classist racist misogynist and ageist Today we are experiencing rejuvenation s Janus faced legacy As transhumanists rhapsodize about cyber enhancing human bodies ghastly pandemics old age poverty and shrinking life expectancies are poised to become the new normal for many twenty first century Americans **Redesigning the Medicare Contract** Edward F. Lawlor,2003-12-06 Recent debates on Medicare

reform focus on prescription drug coverage expanding managed care choices or technical issues of payment policy Despite all the heat generated by these issues Edward F Lawlor s new book Redesigning the Medicare Contract demonstrates that fundamental questions of purpose and policy design for Medicare have been largely ignored Challenging conventional ideas Lawlor suggests that we look at Medicare as a contract between the federal government the program s beneficiaries and health care providers Medicare reform then would involve rewriting this contract so that it more successfully serves the interests of both beneficiaries and taxpayers To do this Lawlor argues that we must improve the agency of the program the informational organizational and incentive elements that assure Medicare program carries out beneficiary and taxpayer interests in providing the most appropriate high quality care possible The book includes a chapter devoted solely to concepts and applications that give definition to this brand of agency theory Lawlor s innovative agency approach is matched with lucid explanation of the more comprehensive groundwork in the history and politics of the Medicare program Lawlor s important and timely book reframes the Medicare debate in a productive manner and effectively analyzes alternatives for

reform Lawlor argues that effective policy design for Medicare requires greater appreciation of the vulnerability of beneficiaries the complexity of the program itself its wide geographical variations in services and financing and the realistic possibilities for government and private sector roles Tackling difficult problems like end of life and high tech care and offering sensible solutions Redesigning the Medicare Contract will interest political scientists economists policy analysts and health care professionals alike     *Bibliography of Agriculture* ,1991     *Social Work in the Health Field* Lois A Cowles,2012-10-12 This book provides an introduction to social work practice in the field of health care It addresses both physical and mental health examines various settings such as primary care home care hospice and nursing and also provides histories of social work practice in traditional industry segments
