Charles W. Sydnor, Jr., 2020-06-16 Charles Sydnor relates the political and military experience of the SS Totenkopfdivision to the institutional development of the SS and the ideological objectives of Nazi Germany *As political soldiers we face Moscow's hordes: Dutch volunteers in the Waffen-SS* Evertjan van Roekel, 2022-01-04 During the Second World War approximately 25 000 Dutchmen served within the ranks of the military branch of the German SS the Waffen SS They volunteered to fight to secure the victory of Nazi Germany These Dutch volunteers fought mainly on the Eastern Front and to a lesser extent within their own national borders After the war the Allied victors regarded them as part of a criminal organization and jointly responsible for the atrocious transgressions of the Nazi regime In the Netherlands these men were reviled branded as traitors and became pariahs in their own country Those who had devoted themselves to the Nazi regime caused so much grief to the Netherlands that they had to be held accountable Despite their military achievements their reputation was damaged forever The Netherlands supplied the largest contingent of SS soldiers from the occupied North western European territories Who were these people What led them to enlist and what were the consequences of their choice An important part of this study involves the autobiographical texts of nineteen Dutch volunteers in the Waffen SS These ego documents recount their own immediate experiences and are mainly fragments from diaries but there are also letters individual notes and memoirs The ego documents are placed within the larger historical context to provide an answer to the question of whether these men were only ideologically motivated and unconditional Nazi sympathizers and for this their criminal records are also researched Among other topics the book discusses their choice to enlist their experiences at the front and their involvement in genocide providing a new perspective on the Eastern Front The Axis Forces 12

Massimiliano Aferio, 2019-12-18 In this issue we wanted to commemorate the 80th anniversary of both the German invasion of Poland and the Soviet invasion of Finland two events that marked the beginning of World War II In fact analyzing the contents of this new issue we initially find an article on the use of Totenkopf units in Poland in September 1939 a second article on the Soviet invasion of Finland Then we find the biography of Karl Heinz Boska by Peter Mooney the history of the Italian smoke generating units on the Baltic the use of the SS units during the battle of Kursk in July 1943 the first part of a long and detailed article on the biographies of the Kr ger brothers and finally an article dedicated to the Close Combat Clasp *Der Pimpf*, 1943 *The Waffen-SS at Kharkov* Massimiliano Aferio, 2025-01-31 In 1943 German forces launched a counteroffensive reclaiming Kharkov during a crucial Eastern Front crisis At the beginning of 1943 the German armed forces were in crisis on the southern front in Russia The Soviets had launched a series of offensives from November 1942 that pushed the Germans back hundreds of kilometers The Germans had no more significant reserves available and enormous breaches had opened between defensive lines In early January 1943 the Soviets attacked again with the aim of reconquering the industrial city of Kharkov and destroying the remaining German and Axis troops in southern Ukraine including the 4 Panzerarmee 1 Panzerarmee Armeeabteilung Hollidt and Armeeabteilung Fretter Pico After the encirclement of 6 Armee at

Stalingrad and the destruction of the Axis forces there the loss of these four armies would certainly have led to German defeat on the Eastern Front Believing victory was near Stalin and his generals decided to launch their new offensives even before the garrison of Stalingrad surrendered The main effort fell on Army Group Don newly formed and with little forces available Facing a massive offensive Commander Erich von Manstein was ordered to hold the city at any cost risking the destruction of two divisions of the Waffen SS and the Grossdeutschland army division SS Panzer Corps commander Paul Hausser disobeyed Hitler's order and ordered the retreat from Kharkov saving the two SS divisions This meant that Manstein had at his disposal forces needed to launch his counteroffensive The subsequent battles for Kharkov saw the three divisions of the Waffen SS Leibstandarte Adolf Hitler Das Reich and Totenkopf fighting together for the first time In the first phase of the offensive the SS Das Reich and Totenkopf marched 100 kilometers south of Kharkov blocking the Soviet army from capturing the bridges over the Dnieper River while the Leibstandarte successfully defended the corps supply base in Krasnograd After protecting the bridges over the Dnepr the Das Reich and Totenkopf units headed north and regained control of the vital railway network south of Kharkov The Soviet 3rd Tank Army was forced to abandon its attack against Krasnograd to regroup south of Kharkov and protect the city from Hausser's divisions At that point the Leibstandarte joined the other divisions of the corps SS to eliminate Soviet forces and recapture Kharkov With its reconquest Southern Ukraine returned firmly under German control This is a fully illustrated account of the decisive victory attained by the SS Panzer Corps divisions at a time of serious crisis for the Axis forces

*He 162 Volksjäger Units* Robert

Forsyth, 2016-11-17 With the Third Reich on the brink of defeat Hitler's instructions to his designers were clear He wanted a Volksjäger a People's Fighter that was quick to produce and used minimal quantities of strategic materials Heinkel rose to the challenge with the He 162 a fighter constructed of wood and metal that was designed built and flown in the staggeringly short time of ten weeks Professional pilots were in short supply and so the Luftwaffe was ordered to man the He 162 with hastily trained members of the Hitler Youth a flawed plan that fortunately never came to fruition Detailed aircraft profiles and never before seen photographs perfectly complement the analysis of the revolutionary Heinkel He 162 as author Robert Forsyth traces its entire history from the early design and production through to its limited combat experience
