Semiconductor Device Measurements:

Semiconductor Device Measurements, 1968 **Pulsed I(V) Measurement of Semiconductor Devices with Applications** Peter H. Ladbroke, 2004-01-01 At RF and microwave frequencies the large signal characteristics of a semiconductor device are different from those measured at dc and similarly are different from the RF and microwave properties deduced from small signal measurements Pulsed I V measurements yield exactly the large signal characteristics a device will exhibit or follow in non linear RF microwave and fast switching circuit applications and is a powerful technique that is complementary to the other longer established measurement methods It is extremely quick requiring no calibration and may be used with RF probers for assessing devices on wafer The technique applies to MESFETs PHEMTs MOSFETs HBTs and BJTs in the Si SiGe SiC GaAs GaN and other material systems Its uses are many including process technology development process control device design package design reliability assessment Safe Operating Area SOA determination and circuit design **Semiconductor Device Measurements** John Mulvey, 1969 Physics of Semiconductor Devices V. K. Jain, Abhishek Verma, 2013-11-27 The purpose of this workshop is to spread the vast amount of information available on semiconductor physics to every possible field throughout the scientific community As a result the latest findings research and discoveries can be quickly disseminated This workshop provides all participating research groups with an excellent platform for interaction and collaboration with other members of their respective scientific community This workshop s technical sessions include various current and significant topics for applications and scientific developments including Optoelectronics VLSI ULSI Technology Photovoltaics MEMS Sensors Device Modeling and Simulation High Frequency Power Devices Nanotechnology and Emerging Areas Organic Electronics Displays and Lighting Many eminent scientists from various national and international organizations are actively participating with their latest research works and also equally supporting this mega event by joining the various organizing committees Semiconductor device measurements Tektronix inc.
