**Semper Fi in the Sky** Gerald Astor, 2005-11-29 Here one of America's most popular military historians re-creates using their own moving and powerful voices the true stories of the U.S. Marine pilots who flew the Allies to victory in World War II. These riveting accounts recreate conflicts ranging from the Marines' gallant defense of Wake Island where Captain Henry Baron Elrod destroyed two enemy planes before joining the fight on the ground earning a posthumous Medal of Honor in the last ditch attempt to stave off the Japanese to the Battle of Midway and Guadalcanal. Running the gamut from Second Lieutenant Alvin Jensen's single-handed destruction of twenty-four grounded Japanese aircraft on Kahili to Lieutenant John W. Leaper's sawing off a Kamikaze's tail with his propeller over Okinawa, these thrilling oral histories of the Pacific war's air battles bring them to life in all their terror and triumph. **Semper Fi in the Sky** Gerald Astor, 2005 [Semper Fi in the Sky](#)

The US Marine Corps has a long heritage of aviation excellence, a reputation that was largely built on the impact and performance of the flying leathernecks in the bitter fighting in the Pacific during World War II. As the US island-hopping campaign against Japan gathered pace, US Marine Corps fighter squadrons operating legendary Grumman and Vought aircraft became instrumental in the success of amphibious assaults and in breaking fierce enemy resistance, engaging Japanese attack aircraft in the skies and ground-based targets while supporting and protecting US ground forces. The flying legends Marion Carl, Greg Pappy Boyington, Joe Foss and others were all World War II Marine fighter pilots taking to the skies in Corsairs, Wildcats, Venturas and Hellcats. Aviation historian Barrett Tillman's comprehensive account *US Marine Corps Fighter Squadrons of World War II* pays homage to these individuals and their mounts and is packed with historic and organizational details of the squadrons who took to the skies above the Pacific. **Marine Corps Magic** Retired) Sgt. Gary Haun (USMC, Retired) Haun (USMC, 2013-03 Sgt. Gary Haun, USMC Retired, lost his eyesight while servicing on active duty with the Marine Corps. However, he did not lose the values and principles that are the characteristics of a United States Marine. In *Marine Corps Magic*, Sgt. Haun explains how the Corps taught him the values and principles that have helped him in his life. More importantly, he tells how these values can help anyone who is facing adversity or who is interested in self

improvement Marine Corps Magic covers many different areas of the Corps and will leave the reader no doubts about why the Marine Corps is called The World's Finest Fighting Force      **Wake Island Wildcat** William L. Ramsey, 2024-08-20

When the Japanese attacked Wake Island in December 1941 the same day as the attack on Pearl Harbor Marine pilot Henry T Elrod took to the skies in his F4F Wildcat fighter to defend the American military base on the tiny Pacific atoll battling swarms of enemy planes and ships with rare courage and skill for the next two weeks Captain Elrod who had attended Yale and spent his freshman year playing football at the University of Georgia had arrived mere days before as part of a fighter squadron of twelve pilots On December 10 and 11 Elrod had two of the most remarkable days of the war for any pilot in any theater he took on a group of twenty two Japanese planes shooting down two and then bombed and strafed the destroyer Kisaragi sinking the vessel with all hands and becoming the first American pilot to sink a warship with small caliber bombs delivered by a fighter plane in World War II Then once American aircraft were too damaged to fly the pilots joined the ground defense against Japanese invasion forces Elrod assumed command of one sector of the beach and led the repulse of repeated enemy assaults until he was killed on the last day of the battle just before the American surrender Though unsuccessful the against the odds battle for Wake Island buoyed American morale during a dark period of World War II Elrod who became known as Hammerin Hank was a key figure in the defense For his gallantry he was posthumously promoted to major and awarded the Medal of Honor A US Navy frigate and a street at Marine Base Quantico were named for him and a piece of his plane is on display at the National Air and Space Museum Drawing on research in military archives and materials from Elrod's family William L Ramsey tells Hammerin Hank's full story which is not only the history of the battle for Wake Island but also the experiences that led him to become a Marine fighter pilot with drama and verve      Princeton Alumni Weekly, 2004      *Biplanes at War* Wray R. Johnson, 2019-04-16

Unlike the relative uniformity of conventional warfare the peculiarities of small wars prevent a clear definition of rules and roles for military forces to follow During the small wars era aviation was still in its infancy and the US military had only recently begun battling in the skies The US Marine Corps recognized that flexibility and ingenuity would be critical to the successful conduct of small wars and thus employed the new technology of aviation In *Biplanes at War* US Marine Corps Aviation in the Small Wars Era 1915-1934 author Wray R Johnson provides a riveting history of the marines use of aviation between the world wars a time in which young soldiers were volunteering to fly in combat when flying itself was a dangerous feat Starting with Haiti in 1915 *Biplanes at War* follows the marines aviation experiences in Haiti the Dominican Republic China and Nicaragua chronicling how marines used aircraft to provide supporting fires e.g. dive bombing to ground troops in close contact with irregular opponents evacuate the sick and wounded transport people and cargo e.g. to assist humanitarian operations and even support elections in furtherance of democracy After years of expanding the capabilities of airplanes far beyond what was deemed possible the small wars era ended and the US Marines Corps transitioned into an amphibious assault force The legacy of the marines ability to adapt and

innovate during the small wars era endures and provides a useful case study Biplanes at War sheds light on how the marines pioneered roles and missions that have become commonplace for air forces today an accomplishment that has largely gone unrecognized in mainstream histories of aviation and air power **Fly Boy Heroes** James H. Hallas,2022-04-01 On the morning of December 7 1941 Chief Aviation Ordnanceman John W Finn though suffering multiple wounds continued to man his machine gun against waves of Japanese aircraft attacking the Kaneohe Bay Naval Station during the infamous Pearl Harbor raid Just over three years later as World War II struggled into its final months a B 29 radioman named Red Erwin lingered near death after suffering horrific burns to save his air crew in the skies off Japan They were the first and last of thirty U S Navy Army and Marine Corps aviation personnel awarded the Medal of Honor for their actions against the Japanese during World War II They included pilots and crewmen manning fighters and dive bombers and flying boats and bombers One was a general Another was a sergeant Some shot down large numbers of enemy aircraft in aerial combat Others sacrificed themselves for their friends or risked everything for complete strangers Who were these now largely forgotten men Where did they come from What inspired them to rise above and beyond What if anything made them different Virtually all had one thing in common they always wanted to fly They came from a generation that revered the aces of World War I like Eddie Rickenbacker the civilian flyer Charles Lindbergh and the lost aviator Amelia Earhart and then they blazed their own trail during World War II **Bourbon and Bullets** John C. Tramazzo,2021-07 John C Tramazzo highlights the relationship between bourbon and military service to show the rich and dramatic connection in American history

**Parameters** ,2006 *Wings of Gold* Gerald Astor,2007-12-18 From critically acclaimed military historian Gerald Astor comes *Wings of Gold* the first account of how the airplane transformed the U S Navy and paved the way to victory in the Pacific in World War II Astor tracks that fateful journey from its humble beginnings in 1910 when Eugene Ely flew the very first plane off the deck of a U S Navy ship to the unprecedented air combat missions that helped defeat the Japanese Few naval aviators in World War II realized that when they earned their wings of gold they were about to become test pilots for a whole new kind of combat In their own words these courageous fliers describe the life and death air battles that defined the revolution in naval strategy that rose from the ashes of Pearl Harbor when fighter pilots watched in horror as Japanese carrier launched aircraft bombed their planes and airfields into smoking rubble While following the pilots firsthand reports of air strikes and blazing dogfights across the islands and atolls of the Pacific Astor explores the ways the U S Navy began its momentous transformation before the war Later the critical role of aircraft carriers in the stunning U S victory at Midway sounded the death knell for conventional naval warfare yet the public the press the Army and even the president s advisors refused to recognize the new reality In fact only a few in the Navy understood that a new era had begun that would change the face of war forever The young Americans who fought the deadly duels against Imperial Japanese forces high over the Pacific gave everything they had to the war effort and many made the supreme sacrifice *Wings of Gold* pays tribute to their

courage daring and selfless dedication Vividly told thoroughly researched and filled with stirring accounts of the Pacific War's greatest air battles *Wings of Gold* is an important addition to the annals of World War II aerial combat

**The Oxford Companion to Spirits and Cocktails** David Wondrich, Noah Rothbaum, 2021-10-20 The Oxford Companion to Spirits and Cocktails presents an in depth exploration of the world of spirits and cocktails in a ground breaking synthesis The Companion covers drinks processes and techniques around the world as well as those in the US and Europe It provides clear explanations of the different ways that spirits are produced including fermentation distillation and ageing alongside a wealth of new detail on the emergence of cocktails and cocktail bars including entries on key cocktails and influential mixologists and cocktail bars

*Photo Recon Became Fighter Duty* Steven K. Dixon, 2016-05-12 Trained as a photo reconnaissance unit Marine Observation Squadron 251 ended up serving as a fighter squadron for the duration of World War II shooting down 32 Japanese aircraft The squadron earned several awards for outstanding performance including the Presidential Unit Citation This book is the first to cover the World War II history of VMFA 251 one of the Marine Corps longest serving squadrons The author traces their operations from the unit's activation on December 1 1941 through Guadalcanal the reduction of Rabaul and their missions over the Philippines in 1945

**The United States Marine Corps** John C. Fredriksen, 2011-04-08 This comprehensive survey profiles one of history's greatest fighting forces on land sea and air The United States Marine Corps A Chronology 1775 to the Present touches upon all aspects of the Continental and U S Marine Corps since their inception All major battles in all major wars are covered along with innumerable smaller clashes and deployments abroad The evolution of amphibious doctrine so essential to Marine Corps activity in the 20th and 21st centuries is likewise covered in detail along with the rise of Marine Corps aviation Through a diary of daily occurrences proffered in the context of greater historical events this chronology captures the entire sweep of U S Marine Corps history It follows the Corps from the American Revolution to the halls of Montezuma and the shores of Tripoli through World Wars I and II and up to Operation IRAQI FREEDOM and Operation ENDURING FREEDOM in Afghanistan Entries delineate battlefield events but also significant political and administrative changes that have affected the Marines Notable events in the careers of generals and other individuals are included as well

**Pogiebait's War** Jack H. McCall, 2023-02-03 Jack H. McCall Sr was a born storyteller an inveterate practical joker and a proud Tennessean whose flaws included a considerable taste for candy or pogiebait in Marine parlance Like so many other able bodied young people in on the eve of World War II he decided to enlist in the wake of the Japanese attack on Pearl Harbor Much more than a family memoir or nostalgic wartime reminiscence this painstakingly researched biography presents a rich engaging study of the U S Marine Corps particularly McCall's understudied unit the Ninth Defense Battalion the Fighting Ninth The author provides a window into the day to day service of a Marine during World War II with important coverage of fighting in the Pacific Theater McCall also depicts life in

wartime Franklin Tennessee and offers a poignant and personal tribute to his father McCall dramatizes some of the classic themes of the war memoir genre war is hell but memories fade but he sets riveting descriptions of decisive action against rarely seen views of mundane work and daily life supported with maps photographs and fresh interpretations Another distinction of this work is its attention to the action on Guam a very unpleasant late war mopping up that has received relatively little scholarly attention In his portrait of the bitter island hopping war in the Pacific the author shows how both U S and Japanese soldiers were often eager innocents drawn to the cauldron of conflict and indoctrinated and trained by their respective governments Reflecting on the action late in life Jack as well as several other Ninth veterans came to a begrudging respect for the enemy     Uniquely Okinawan Courtney A. Short, 2020-03-03 Uniquely Okinawan explores how American soldiers sailors and Marines considered race ethnicity and identity in the planning and execution of the wartime occupation of Okinawa during and immediately after the Battle of Okinawa 1945 46     Leatherneck Legends Richard Camp Dick Camp, 2006
