Semper Secure Electronic Marketplace For Europe:

SEMPER - Secure Electronic Marketplace for Europe Gerard Lacoste, Birgit Pfitzmann, Michael Steiner, Michael Waidner, 2004-05-24 This monograph constitutes a major contribution to the development of secure electronic commerce The book is based on the European R this part is accessible to everybody seriously interested in the topic and does not require a technical background except some basic familiarity with the Internet The second part presents fundamentally new scientific and engineering results and sets the scene for future R D activities in securing electronic commerce **Trust in Electronic**

Commerce: The Role of Trust from a Legal, an Organizational, and a Technical Point of View J. E. J. Prins, P. M. A. Ribbers, Henk C. A. Van Tilborg, 2002-07-03 Electronic commerce is here to stay No matter how big the dot com crisis was or how far the e entrepreneurs shares fell in the market the fact remains that there is still confidence in electronic trading At least it would appear that investors are confident in e companies again However not only trust of venture capitalists is of importance consumers also have to have faith in on line business After all without consumers there is no e business Interacting lawyers technicians and economists are needed to create a trustworthy electronic commerce environment To achieve this environment thorough and inter disciplinary research is required and that is exactly what this book is about Researchers of the project Enabling Electronic Commerce from the Dutch universities of Tilburg and Eindhoven have chosen a number of e topics to elaborate on trust from their point of view This volume makes clear that the various disciplines can and will play a role in developing conditions for trust and thus contribute to a successful electronic market Intellectual Property in Electronic Environments , Mobile Communications J.L. Encarnacao, Jan M. Rabaey, 2013-03-19 Mobile computing is one of the biggest issues of computer technology science and industry today This book looks at the requirements of developing mobile computing systems and the challenges they pose to computer designers It examines the requirements of mobile computing hardware infrastructure and communications services Information security and the data protection aspects of design are considered together with telecommunications facilities for linking up to the worldwide computer infrastructure The book also considers the mobility of computer users versus the portability of the equipment The text also examines current applications of mobile computing in the public sector and future innovative applications
