The Band Never Played for Us Ronald G. Goddard, 2017 When his troop transport ship left for Vietnam there were no patriotic farewells It would continue to be so for the marines of Golf Company 2nd Platoon 2nd Battalion 4th Marines as Goddard recounts their experiences in the rice paddies and jungles from DaNang to the DMZ *They Called Them Soldier Boys* Gregory W. Ball, 2013 Winner of two Communicator Awards for Cover overall and Cover design 2013 *They Called Them Soldier Boys* offers an in depth study of soldiers of the Texas National Guard's Seventh Texas Infantry Regiment in World War I through their recruitment training journey to France combat and their return home Gregory W Ball focuses on the fourteen counties in North Northwest and West Texas where officers

recruited the regiment's soldiers in the summer of 1917 and how those counties compared with the rest of the state in terms of political, social and economic attitudes. In September 1917 the Soldier Boys trained at Camp Bowie near Fort Worth, Texas, until the War Department combined the Seventh Texas with the First Oklahoma Infantry to form the 142d Infantry Regiment of the 36th Division. In early October 1918 the 142d Infantry, including more than 600 original members of the Seventh Texas, was assigned to the French Fourth Army in the Champagne region and went into combat for the first time on October 6. Ball explores the combat experiences of those Texas soldiers in detail up through the armistice of November 11, 1918. *On the*

Friends, Foes, and Furs Harry W. Duckworth, 2019-12-26 George Nelson 1786-1859 was a clerk for the North West Company whose unusually detailed and personal writings provide a compelling portrait of the people engaged in the golden age of the Canadian fur trade. *Friends, Foes, and Furs* is a critical edition of Nelson's daily journals supplemented with exciting anecdotes from his *Reminiscences* which were written after his retirement to Lower Canada. An introduction and annotations by Harry Duckworth place Nelson's material securely within the established body of fur trade history. This series of journals gives readers a first person account of Nelson's life and career from his arrival at the age of eighteen in Lake Winnipeg where he was stationed as an apprentice clerk from 1804 to 1813 to his second service from 1818 to 1819 and an 1822 canoe journey through the region. A keen and respectful observer, Nelson recorded in his daily journals not only the minutiae of his work but also details about the lives of voyageurs, the Ojibwe and Swampy Cree communities and others involved in the fur trade. His insights uncover an extraordinary view of the Lake Winnipeg region in the period just prior to European settlement. Making the full extent of George Nelson's journals available for the first time, *Friends, Foes, and Furs* is an intriguing account of one man's adventures in the fur trade in prairie Canada. **German and English** Felix Flügel, 1891 **The First**

Testament John Goldingay, 2018-09-04 Most Bible translations bend the text toward us, making the rough bits more palatable to our modern sensibilities. In this Old Testament translation, John Goldingay sets our expectations off balance by inviting us to hear the strange accent of the Hebrew text unbaptized in pious religiosity. Translating consistently word by word, this unique interpretation allows us to read the sacred text through fresh eyes. *Soft Computing Techniques in Connected Healthcare Systems* Moolchand Sharma, Suman Deswal, Umesh Gupta, Mujahid Tabassum, Isah Lawal, 2023-12-20 This book provides an examination of applications of soft computing techniques related to healthcare systems and can be used as a reference guide for assessing the roles of various techniques. *Soft Computing Techniques in Connected Healthcare Systems*

presents soft computing techniques and applications used in healthcare systems along with the latest advancements The authors examine how connected healthcare is the essence of combining a practical operative procedure of interconnectedness of electronic health records mHealth clinical informatics electronic data exchange practice management solutions and pharmacy management The book focuses on different soft computing techniques such as fuzzy logic ANN and GA which will enhance services in connected health systems such as remote diagnosis and monitoring medication monitoring devices identifying and treating the underlying causes of disorders and diseases improved access to specialists and lower healthcare costs The chapters also examine descriptive predictive and social network techniques and discuss analytical tools and the important role they play in enhancing the services to connected healthcare systems Finally the authors address real time challenges with real world case studies to enhance the comprehension of topics This book is intended for under graduate and graduate students researchers and practicing professionals in the field of connected healthcare It provides an overview for beginners while also addressing professionals in the industry on the importance of soft computing approaches in connected healthcare systems
