*Americanizing Latino Politics, Latinoizing American Politics* Rodolfo O. de la Garza, Alan Yang, 2019-11-20 Using the most extensive and currently available survey opinion data this book empirically supports the argument that Latinos have emerged as a convergent panethnic political group beyond the individual national origin identities dating to the time of the 1990 Latino National Political Survey when Mexican Americans Puerto Ricans and

Cuban Americans were treated conceptually as politically distinct groups. Replete with data and supplemented by an extensive online resource, this book offers scholars, students, and sophisticated general readers evidence and inspiration for understanding the dynamics of Latino politics in the U.S. today. Continental Divides: International Migration in the Americas Katharine M. Donato, Jonathan Hiskey, Jorge Durand, Douglas S. Massey, 2010-08-10. Since Mexico-U.S. migration represents the largest sustained migratory flow between two nations worldwide, much of the theoretical and empirical work on migration has focused on this single case. In the last few decades, however, migration has emerged as a critical issue across all nations in Latin America and the Caribbean, with the region seeing its position changed from a net migrant-receiving region to one that now stands as one of the foremost sending areas of the world. In this latest volume of the ANNALS, leading migration scholars seek to redress the imbalance offered when only studying a single case, with the first systematic assessment of Latin American migration patterns using ongoing research on the Mexican case as a basis for comparison. Each chapter examines specific propositions or findings derived from the Mexican case that have not yet been tested for other Latin American or Caribbean nations. Using a common framework of data, methods, and theories, they offer a new perspective on the causes and consequences of migration in the Western Hemisphere. **Latino Politics En Ciencia Politica** Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014-04-25. More than 53 million Latinos now constitute the largest, fastest-growing and most diverse minority group in the United States, and the nation's political future may well be shaped by Latinos' continuing political incorporation. In the 2012 election, Latinos proved to be a critical voting bloc in both Presidential and Congressional races; this demographic will only become more important in future American elections. Using new evidence from the largest ever scientific survey addressed exclusively to Latino/Hispanic respondents, *Latino Politics en Ciencia Politica* explores political diversity within the Latino community, considering how intra-community differences influence political behavior and policy preferences. The editors and contributors, all noted scholars of race and politics, examine key issues of Latino politics in the contemporary United States: Latino identities, *latinidad*, transnationalism, acculturation, political community, and racial consciousness. The book contextualizes today's research within the history of Latino political studies, from the field's beginnings to the present, explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science. *Latino Politics en Ciencia Politica* is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes. *Diasporic Ruptures*, 2007-01-01. *Diasporic Ruptures: Globality, Migrancy, and Expressions of Identity* lies at the intersections of various processes emerging from globalization, border crossings, transnationalism, identity formations. Carefully selected and placed in two volumes, the essays here represent works of both well-seasoned scholars as well as emerging writers, academics, and intellectuals. The volumes critically examine various manifestations of the trend now commonly known as globalization, manifestations that many diasporic communities, immigrants, and people from all walks of life experience. They also illuminate recent political, social,

economic and technological developments that are taking place in a rapidly changing world Volume One offers sophisticated insights into the nature of contemporary formations of diasporic life internationalism and hybrid identities The volume asks bold questions around what it means to live in constantly shifting boundaries of nationality identity and citizenship The type of methodological discursive and experiential awareness promoted by this work helps us understand how millions of people face the challenge of living in a globalizing world it also fosters a consciousness of how globalization itself functions differently in different environments Volume Two see Volume 7 in Transgressions Cultural Studies and Education addresses additional and more nuanced questions around culture race sexuality migration displacement and resistance It also explores certain epistemological and methodological fallacies regarding conventional articulations of nation state nationalism and the local global nexus The volume seeks to answer questions such as What are the meanings and connotations of displacement in a rapidly globalizing world What are some dilemmas and challenges around notions of cultural hybridity linguistic diversity and a sense of belonging What is the meaning of home in diaspora and the meaning of diaspora at home Together the volumes raise many topics that will be of immense interest to scholars across disciplines and general readers While celebrating the increasing acknowledgment of difference and diversity in recent times this work reminds us of the ongoing ramifications of dominant structures of inequality relations of power and issues of inclusion and exclusion This work offers different ways of thinking writing and talking about globalization and the processes that emerge from it **Debating Brain**
