living with HIV and the entire Rwandan population Recognizing HRH capabilities as a foundational challenge for the health system and the response to HIV the Government of Rwanda worked with PEPFAR and other partners to develop a program to strengthen institutional capacity in health professional education and thereby increase the production of high quality health workers The Program was fully managed by the Government of Rwanda and was designed to run from 2011 through 2019 PEPFAR initiated funding in 2012 In 2015 PEPFAR adopted a new strategy focused on high burden geographic areas and key populations resulting in a reconfiguration of its HIV portfolio in Rwanda and a decision to cease funding the Program which was determined no longer core to its programming strategy The last disbursement for the Program from PEPFAR was in 2017 Evaluation of PEPFAR s Contribution 2012 2017 to Rwanda s Human Resources for Health Program describes PEPFAR supported HRH activities in Rwanda in relation to programmatic priorities outputs and outcomes and examines to the extent feasible the impact on HRH and HIV related outcomes The HRH Program more than tripled the country s physician specialist workforce and produced major increases in the numbers and qualifications of nurses and midwives Partnerships between U S institutions and the University of Rwanda introduced new programs upgraded curricula and improved the quality of teaching and training for health professionals Growing the number skills and competencies of health workers contributed to direct and indirect improvements in the quality of HIV care Based on the successes and challenges of the HRH program the report recommends that future investments in health professional education be designed within a more comprehensive approach to human resources for health and institutional capacity building which would strengthen the health system to meet both HIV specific and more general health needs The recommendations offer an aspirational framework to reimagine how partnerships are formed how investments are made and how the effects of those investments are documented     Evaluating Interreligious Peacebuilding and Dialogue Mohammed Abu-Nimer,Renáta Katalin Nelson,2021-09-20 In the emerging fields of religious and interreligious peacebuilding the question of monitoring and evaluation is a challenging yet necessary process The need to develop comprehensive yet fitting evaluation models for religious and interreligious peacebuilding is not only important for donor interests but also critical as a means of documenting and learning for peacebuilders themselves Theories and best practices in monitoring and evaluation have become prevalent in many fields yet the amount of literature on evaluating intercultural and especially religious and interreligious projects remains scant in comparison This volume offers a unique contribution that not only looks at several of the challenges and implications faced by religious and interreligious peacebuilders but also provides concrete examples of new models and tools for monitoring and evaluating religious and interreligious peacebuilding projects In doing so this volume serves as a tool and point of reference for individuals and organizations developing and implementing interreligious dialogue and peacebuilding projects     *Proceedings of the National Coordinating Conference for Administrators of Part D and FY 1973 Part C Programs and Projects* ,1975
