*Sensing the World* David Le Breton, 2017      *Sensing the Perfect Tomato* Denise Wilson, 2019-04-19 Fresh Juice Paste Canned Stewed Diced Pureed Sun Dried Salsa Sauce Ketchup Rare is the cuisine that does not make use of the tomato in some way shape or form and the resulting culinary popularity of the tomato has led to its proliferation in fields and farms around the world While some may still argue whether the tomato is a fruit or a vegetable few would argue that tomato crops are highly lucrative attractive to farmers in both developing and developed countries and on large and small farms alike In fact for those crops with significant global volume and market share tomatoes are the highest valued among those crops that lack an affiliation to mind altering drugs But the tomato can be a persnickety critter The tomato doesn't like it too hot too chilly too wet too dry or too fertile Many don't ripen at the same time Most are easily bruised And the selective breeding that has yielded a larger more attractive and deep red tomato has also mercilessly drained much of the taste and flavor from a once sweet and delectable fruit Enter the world of sensors and modern sensing technology The Internet of Things IOT when using well chosen well networked and well aggregated sensors has shown tremendous potential to support precision agriculture providing a more detailed picture of crops than was previously possible using conventional crop monitoring techniques But the stringent resources and tight profit margins that are a fact of life among many tomato growing operations large and small mean that sensor technologies must be chosen and used carefully There is no doubt that each sensor must earn its keep in producing the perfect tomato With that in mind this book explores key opportunities to marry the potential of sensors that are networked within the IOT to the needs of tomato production in ways that are economically fruitful technologically robust and sustainable overall      **Sensing the World** Jennifer Boothroyd, 2024 A carnival ride has flashing lights and music The food smells yummy too But how do we know what's happening around us We use our senses Simple text breaks down the science of senses while kid friendly examples and fun photos make learning about sensing the world come to life It just makes sense      *Sensing the World* Philip Morgan, 2011 Discusses the different senses of the human body and how each work together and on their own Provided by publisher      **The World's Work**, 1923      **The Commercial Space Act of 1997, Parts I-III** United States.
