The Oxford Handbook of Crime and Criminal Justice Michael Tonry, 2011-09-29 A comprehensive and accesible overview of the operation of the American criminal justice system This handbook s extensive coverage of the criminal justice system in the U S makes it an important reference for students and scholars in criminal justice law and public policy

The Future of Imprisonment Michael Tonry, 2004-04-08 The imprisonment rate in America has grown by a factor of five since 1972 In that time punishment policies have toughened compassion for prisoners has diminished and prisons have gotten worse a stark contrast to the origins of the prison 200 years ago as a humanitarian reform a substitute for capital and corporal punishment and banishment So what went wrong How can prisons be made simultaneously more effective and more humane Who should be sent there in the first place What should happen to them while they are inside When how and under what conditions should they be released The Future of Imprisonment unites some of the leading prisons and penal policy scholars of our time to address these fundamental questions Inspired by the work of Norval Morris the contributors look back to the past twenty five years of penal policy in an effort to look forward to the prison s twenty first century future Their essays examine the effects of current high levels of

imprisonment on urban neighborhoods and the people who live in them They reveal how current policies came to be as they are and explain the theories of punishment that guide imprisonment decisions Finally the contributors argue for the strategic importance of controls on punishment including imprisonment as a limit on government power chart the rise and fall of efforts to improve conditions inside analyze the theory and practice of prison release and evaluate the tricky science of predicting and preventing recidivism A definitive guide to imprisonment policies for the future this volume convincingly demonstrates how we can prevent crime more effectively at lower economic and human cost

Criminal Sentencing as Practical Wisdom Graeme Brown, 2017-06-01 How do judges sentence In particular how important is judicial discretion in sentencing Sentencing guidelines are often said to promote consistency but is consistency in sentencing achievable or even desirable Whilst the passing of a sentence is arguably the most public stage of the criminal justice process there have been few attempts to examine judicial perceptions of and attitudes towards the sentencing process Through interviews with Scottish judges and by presenting a comprehensive review and analysis of recent scholarship on sentencing including a comparative study of UK Irish and Commonwealth sentencing jurisprudence this book explores these issues to present a systematic theory of sentencing Through an integration of the concept of equity as particularised justice the Aristotelian concept of phronesis or practical wisdom the concept of value pluralism and the focus of appellate courts throughout the Commonwealth on sentencing by way of instinctive synthesis it is argued that judicial sentencing methodology is best viewed in terms of a phronetic synthesis of the relevant facts and circumstances of the particular case The author concludes that sentencing is best conceptualised as a form of case orientated concrete and intuitive decision making one that seeks individualisation through judicial recognition of the profoundly contextualised nature of the process

Sentencing Policy and Social Justice Ralph Henham, 2018-02-22 *Sentencing Policy and Social Justice* argues that the promotion of social justice should become a key objective of sentencing policy advancing the argument that the legitimacy of sentencing ultimately depends upon the strength of the relationship between social morality and penal ideology It sheds light on how shared moral values can influence sentencing policy at a time when relationships of community appear increasingly fragmented arguing that sentencing will be better placed to make a positive contribution to social justice if it becomes more sensitive to the commonly accepted moral boundaries that underpin adherence to the rule of law The need to reflect public opinion in sentencing has received significant attention more recently with renewed interest in jury sentencing stakeholder sentencing and the involvement of community views when regulating policy The author however advocates a different approach combining a new theoretical focus with practical suggestions for reform and arguing that the contribution sentencing can make to social justice necessitates a fundamental change in the way shared values about the advantages of punishment are reflected in penal ideology and sentencing policy Using examples from international comparative and domestic contexts to advance the moral and ethical case for challenging the existing theories of sentencing the book develops the author s previous theoretical ideas and outlines how these changes could be given practical shape within the context of sentencing in England and Wales It assesses the consequences for penal governance due to increased state regulation of discretionary sentencing power and examines the prospects for achieving the kind of moral transformation regarded as necessary to reverse such a move To illustrate these issues each chapter focuses on a particularly problematic area for contemporary sentencing policy namely the sentencing of women the sentencing of irregular migrants sentencing for offences of serious public disorder and sentencing for financial crime

Sentencing in International Criminal Law Silvia D'Ascoli, 2011-04-01 This book deals with sentencing in international criminal law focusing on the approach of the UN ad hoc Tribunals for the

former Yugoslavia ICTY and Rwanda ICTR In contrast to sentencing in domestic jurisdictions and in spite of its growing importance sentencing law is a part of international criminal law that is still under construction and is unregulated in many aspects International sentencing law and practice is not yet defined by exact norms and principles and as yet there is no body of international principles concerning the determination of sentence notwithstanding the huge volume of sentencing research and the extensive modern debate about sentencing principles Moreover international judges receive very little guidance in sentencing matters this contributes to inconsistencies and may increase the risk that similar cases will be sentenced in different ways One purpose of this book is to investigate and evaluate the process of international sentencing especially as interpreted by the ICTY and the ICTR and to suggest a more comprehensive and coherent system of guiding principles which will foster the development of a law of sentencing for international criminal justice The book discusses the law and jurisprudence of the ad hoc Tribunals and also presents an empirical analysis of influential factors and other data from ICTY and ICTR sentencing practice thus offering quantitative support for the doctrinal analysis This publication is one of the first to be entirely devoted to the process of sentencing in international criminal justice The book will thus be of great interest to practitioners academics and students of the subject European Penology? Tom Daems, Dirk van Zyl Smit, Sonja

Snacken, 2013-05-17 Is there something distinctive about penology in Europe Do Europeans think about punishment and penal policy in a different way to people in other parts of the globe If so why is this the case and how does it work in practice This book addresses some major and pressing issues that have been emerging in recent years in the interdisciplinary field of European penology that is a space where legal scholarship criminology sociology and political science meet or should meet in order to make sense of punishment in Europe The chapters in European Penology have been written by leading scholars in the field and focus in particular on the interaction of European academic penology and national practice with European policies as developed by the Council of Europe and increasingly by the European Union **The Death Penalty** Roger

Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman

and degrading. Widely relied upon and fully updated to reflect the current state of affairs worldwide, this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal. *Crime and Justice, Volume 51* Michael Tonry, Sandra Bucerius, 2023-01-04. Volume 51 is a thematic volume on Prisons and Prisoners. Since 1979 the Crime and Justice series has presented a review of the latest international research providing expertise to enhance the work of sociologists, psychologists, criminal lawyers, justice scholars, and political scientists. The series explores a full range of issues concerning crime, its causes, and its cures. In both the review and the occasional thematic volumes, Crime and Justice offers an interdisciplinary approach to address core issues in criminology. Volume 51 of Crime and Justice is the first to reprise a predecessor, Prisons, Volume 26, 1999, edited by series editor Michael Tonry and the late Joan Petersilia. In Prisons and Prisoners, editors Michael Tonry and Sandra Bucerius revisit the subject for several reasons. In 1999, most scholarly research concerned developments in Britain and the United States and was published in English. Much of that was sociological, focused on inmate subcultures, or psychological, focused on how prisoners coped with and adapted to prison life. Some, principally by economists and statisticians, sought to measure the crime preventive effects of imprisonment generally and the deterrent effects of punishments of greater and lesser severity. In 2022, serious scholarly research on prisoners, prisons, and the effects of imprisonment has been published and is underway in many countries. That greater cosmopolitanism is reflected in the pages of this volume. Several essays concern developments in places other than Britain and the United States. Several are primarily comparative and cover developments in many countries. Those primarily concerned with American research draw on work done elsewhere. The subjects of prison research have also changed. Work on inmate subcultures and coping and adaptation has largely fallen by the wayside. Little is being done on imprisonment's crime preventive effects, largely because they are at best modest and often perverse. An essay in Volume 50 of Crime and Justice, examining the 116 studies then published on the effects of imprisonment on subsequent offending, concluded that serving a prison term makes ex-prisoners, on average, more, not less, likely to reoffend. In 1999, little research had been done on the effects of imprisonment on prisoners' families, children, or communities, or even, except for recidivism, on ex-prisoners' later lives, family life, employment, housing, physical and mental health, or achievement of a conventional law-abiding life. The first comprehensive survey of what was then known was published in the earlier Crime and Justice Prisons volume. An enormous literature has since emerged, as essays in this volume demonstrate. Comparatively little work had been done by 1999 on the distinctive prison experiences of women and members of non-White minority groups. That too has changed, as several of the essays make clear. What is not clear is the future of imprisonment. Through more contemporary and global lenses, the essays featured in this volume not only reframe where we are in 2022 but offer informed insights into where we might be heading.

Confronting Crime Michael Tonry, 2013-10-11. From Labour's promise to be tough on crime, tough on the causes of crime, through to the White Paper and new criminal justice legislation controlling crime and reforming the criminal justice

system has been one of the government's key priorities. This book provides a detailed review of the thinking behind these new plans and legislation looking at policies and proposals in the field of punishment particularly those embodied in the Halliday Review of the Sentencing Framework 2001, the government White Paper Justice for All 2002 and the 2002 Criminal Justice Bill. The contributors to the book subject to scrutiny the evidence for the evidence-based policy making that is often claimed as a distinctive new feature to these processes examining approaches to drug-dependent offenders, dangerous sex offenders, nuisance offenders, procedural and evidential protections in the courts, sentencing guidelines, sentencing management, racism in sentencing, custody plus, custody minus and reducing the prison population.

Institutionalizing Restorative Justice Ivo Aertsen, Tom Daems, Luc Robert, 2013-06-17 Exploring the key issues and debates surrounding the question of the incorporation and institutionalization of restorative justice, this book builds bridges between those concerned with the practical and the more theoretical aspects of penal development.

Money and the Governance of Punishment Patricia Cabana, 2017-06-26 Money is the most frequently means used in the legal system to punish and regulate. Monetary penalties outnumber all other sanctions delivered by criminal justice in many jurisdictions, imprisonment included. More people pay fines than go to prison and in some jurisdictions many of those in prison are there because of failure to pay their fines. Therefore it is surprising how little has been written in the Anglophone academic world about the nature of money sanctions and their specific characteristics as legal sanctions. In many ways legal innovations related to money sanctions have been poorly understood. This book argues that they are a direct consequence of the changing meaning of money. Considering the meaninglessness of modern money, the book aims to examine the history of changing conceptions in how fines have been conceived and used. Using a set of interpretative techniques sensitive to how money and freedom are perceived, the genealogy of the penal fine is presented as a story of constant reformulation in response to shifting political pressures and changes in intellectual developments that influenced ideological commitments of legislators and practitioners. This book is multi-disciplinary and will appeal to those engaged with criminology, sociology and philosophy of punishment, socio-legal studies and criminal law.

Prisons and Prison Systems Mitchel P. Roth, 2005-11-30 Prisons have undoubtedly changed over the years as have penal practices in general, though more so in some countries than others. Prisons and prison systems have long been an overlooked part of criminal justice research and as a result limited material is available on many institutions. This comprehensive encyclopedia provides a historical overview of institutions and systems around the world as well as penal theories, prisoner culture and life and notable prisoners and personnel. Readers will find a plethora of information including material on such famous prisons as the Tower of London and Alcatraz as well as on such topics as boot camps and parole. Other entries include Devil's Island, supermaximum prisons, Nelson Mandela, Pennsylvania system and Amnesty International. Numerous appendixes list famous prisoners, prison museums, prison slang and more.
