**Child Survival** Nancy Scheper-Hughes,2012-12-06 of older children adults and the family unit as a whole These moral evaluations are in turn influenced by such external contingencies as population demography social and economic factors subsistence strategies household composition and by cultural ideas concerning the nature of infancy and childhood definitions of personhood and beliefs about the soul and its immortality **MOTHER LOVE AND CHILD DEATH** Of all the many factors that endanger the lives of young children by far the most difficult to examine with any degree of dispassionate objectivity is the quality of parenting Historians and social scientists no less than the public at large are influenced by old

cultural myths about childhood innocence and mother love as well as their opposites. The terrible power and significance attributed to maternal behavior in particular is a commonsense perception based on the observation that the human infant, specialized as it is for prematurity and prolonged dependency, simply cannot survive for very long without considerable maternal love and care. The infant's life depends to a very great extent on the good will of others, but most especially of course that of the mother. Consequently it has been the fate of mothers throughout history to appear in strange and distorted forms. They may appear as larger than life or as invisible as all-powerful and destructive or as helpless and angelic. Myths of the maternal instinct compete historically with myths of a universal infanticidal impulse.

**Encyclopedia of Adolescence** Roger J.R. Levesque, 2014-07-08. The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence. Comprehensive in breadth and textbook in depth, the Encyclopedia of Adolescence, with entries presented in easy-to-access A to Z format, serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to Self-Identity and Development in Adolescence. This area covers research relating to identity from early adolescence through emerging adulthood, basic aspects of development, e.g. biological, cognitive, social, and foundational developmental theories. In addition, this area focuses on various types of identity: gender, sexual, civic, moral, political, racial, spiritual, religious, and so forth. The second broad area centers on Adolescents' Social and Personal Relationships. This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual, and romantic, as well as significant nonparental adults. The third area examines Adolescents in Social Institutions. This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures, and youth organizations. Adolescent Mental Health constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions, and behaviors relating to mental health, from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology, DSM normalcy, risk, victimization, disabilities, flow, and positive youth development.

Understanding Experience Roger A. Frie, 2004-06-02 Understanding Experience Psychotherapy and Postmodernism is a collection of innovative interdisciplinary essays that explore the way we experience and interact with each other and the world around us The authors address the postmodern debate in psychotherapy and psychoanalysis through clinical and theoretical discussion and offer a view of the person that is unique and relevant today The clinical work of Binswanger Boss Fromm Fromm Reichmann Laing and Lacan is considered alongside the theories of Buber Heidegger Husserl Merleau Ponty Sartre and others Combining clinical data from psychotherapy and psychoanalysis with insights from European philosophy this book seeks to fill a major gap in the debate over postmodernism and bridges the paradigmatic divide between the behavioural sciences and the human sciences It will be of great interest to clinicians and students of psychotherapy and psychoanalysis who wish to come to terms with postmodernism as well as those interested in the interaction of psychoanalysis philosophy and social theory William Faulkner's The Sound and the Fury Harold Bloom, 2008 Presents critical essays reflecting a variety of schools of criticism for The sound and the fury **Writing Desire** Bertram Cohler, 2007-05-15 Exploring nearly sixty years of memoir and autobiography Writing Desire examines the changing identity of gay men writing within a historical context Distinguished scholar and psychoanalyst Bertram J Cohler has carefully selected a diverse group of ten men including historians activists journalists poets performance artists and bloggers whose life writing evokes the evolution of gay life in twentieth century America By contrasting the personal experience of these disparate writers Cohler illustrates the social transformations that these men helped shape Among Cohler s diverse subjects is Alan Helms whose journey from Indiana to New York s gay society represents the passage of men who came of age in the 1950s and 1960s when homosexuality was considered a hidden disease The liberating effects of Stonewall s aftermath are chronicled in the life of Arnie Kantrowitz the prototypical activist for gay rights in the 1970s and the founder the Gay and

Lesbian Alliance against Defamation The artistic works of Tim Miller and Mark Doty evoke loss and shock during of the early stages of the AIDS epidemic in the 1980s Cohler rounds out this collective group portrait by looking at the newest generation of writers in the Internet age via the blog of BrYaN who did the previously unthinkable he outed himself to millions of people A compelling mix of social history and personal biography Writing Desire distills the experience of three generations of gay America Finalist LGBT Studies Lambda Literary Foundation *Dealing with Resistance in Psychotherapy* Althea J. Horner,2005-07-14 Resistance is an unfortunate term for the manifestation of defense mechanisms in the treatment situation Use of the word to a psychoanalytically unsophisticated patient may evoke undesired consequences because to a patient it implies deliberate intent and thus blame From the patient s unconscious or at time conscious point of view these defenses protect the individual from a variety of intrapsychic or interpersonal dangers As long as these defenses are in play the process of exploration and discovery comes to a halt They must be understood and carefully analyzed for they are at the heart of the treatment impasse This book is written for the professional psychotherapist who may be puzzled why work with a particular patient or client is going nowhere It brings to the therapist s attention a wide variety of these defenses these resistances so that they can be addressed and resolved Insight and Imagination Howard F. Stein,2007-06-15 Insight and Imagination explores the primacy of the self in organizational research consulting and management leadership Contesting the radical dichotomy between objective and subjective understanding and the devaluation of the latter Professor Howard F Stein argues that the imagination of the observer informed by his or her unconscious can lead to a greater understanding of the psychological reality of the workplace and in turn to better informed problem solving Insight emerges from the disciplined use of the imagination rather than its repudiation The book brings countertransference to center stage as a tool for understanding the emotional experience of organizational life and for formulating interventions One often neglected use of the imagination is the capacity to not have to know beforehand what one needs to learn what poet John Keats called negative capability Insight and Imagination proposes the use of the humanities as a means of expanding and deepening one s access to the inner life of organizations The author draws from the art created by others and from his own poetry written and often used during an organizational consultation Among the specific contexts discussed in this book are the experience of organizational downsizing helping organizations to grieve after change and loss recognizing red herrings in organizational decision making the language of organizational change recognizing hidden agendas in meetings and reflective practice in organizational life *A Psychology of Hope* Kalman J. Kaplan,Matthew B. Schwartz,2008-10-07 Combines the disciplines of history and psychology to explain the suicidal element in Western culture and how to treat it **Lost Childhoods** Gregory J. Jurkovic,2014-06-17 Parentification the assumption of responsibility for the welfare of family members by children and adolescents is increasing as a result of various forces both inside and outside of the family Evidence suggests that pathological parentification of children has serious consequences for them and for succeeding generations as do other forms

of maltreatment This work is an exploration of the forces at work in families with parentified children and the treatment strategies that hold the promise of interrupting a cycle of destructive behaviour The author begins by guiding the reader from conceptualization to possible causes and manifestations of parentification facilitating a clear understanding of how and why this scenario is common The second part of the book builds on this foundation to introduce methods of assessment treatment and prevention This part of the text includes insights into the professional ethical and personal challenges faced by therapists who themselves have a history of pathological parentification *Schizophrenia Bulletin*, 1974 The Behavioral and Social Sciences and the Practice of Medicine George U. Balis, Leon Wurmser, Ellen McDaniel, 2013-10-22 The Behavioral and Social Sciences and the Practice of Medicine The Psychiatric Foundations of Medicine compiles the contributions of all disciplines that are relevant to the behavioral psychological social and humanistic aspects of medicine including the contributions of clinical psychiatry that constitute an integral part of the healing art and science of medicine This book consists of seven parts Parts I and II deal with the cross sectional dimensions of the infraorganismic organismic and supraorganismic organization of behavior The biological substrates of behavior emotions cognitive functions and psychodynamic views of personality are also elaborated The contributions of behavioral and social science to the practice of medicine are presented in Parts III to VII This publication is specifically written for medical students and physicians
