Serfdom And Social Control In Russia Petrovskoe A Village In Tambov:

Serfdom and Social Control in Russia Steven Laurence Hoch,1983 Serfdom and Social Control in Russia Stephen L. Hoch,1986 This book includes an excellent analysis of the material and demographic foundations of patriarchal society which will force historians to reevaluate the profitability of the estate economy and the standard of living among Russian serfs This is an important book which should be read by anyone interested in peasant studies and servile systems of production

SERFDOM AND SOCIAL CONTROL IN NINETEENTH CENTURY RUSSIA Steven Laurence Hoch,1984 **Peasants in Russia from Serfdom to Stalin** Boris B. Gorshkov,2018-02-08 The peasantry accounted for the large majority of the Russian population during the Imperialist and Stalinist periods it is for the most part how people lived Peasants in Russia from Serfdom to Stalin provides a comprehensive realistic examination of peasant life in Russia during both these eras and the legacy this left in the post Soviet era The book paints a full picture of peasant involvement in commerce and local political life and through Boris Gorshkov s original ecology paradigm for understanding peasant life offers new perspectives on the Russian peasantry under serfdom and the emancipation Incorporating recent scholarship including Russian and non Russian texts along with classic studies Gorshkov explores the complex interrelationships between the physical environment peasant economic and social practices culture state policies and lord peasant relations He goes on to analyze peasant economic activities including agriculture and livestock social activities and the functioning of peasant social and political institutions within the context of these interrelationships Further reading lists study questions tables maps primary source extracts and images are also included to support and enhance the text wherever possible Peasants in Russia from Serfdom to Stalin is the crucial survey of a key topic in modern Russian history for students and scholars alike **After Oriental Despotism**

Alessandro Stanziani,2014-07-31 The concepts of economic backwardness Asiatic despotism and orientalism have strongly influenced perceptions of modernization democracy and economic growth over the last three centuries This book provides an original view of Russian and Asian history that views both in a global perspective Via this analysis Alessandro Stanziani opens new dimensions in the study of state formation the global slave trade warfare and European and Asian growth After Oriental Despotism questions conventional oppositions between Europe and Asia By revisiting the history of Eurasia in this context the book offers a serious challenge to existing ideas about the aims and goals of economic growth **Iron-making**

Societies Maria Ågren,1998-03-01 The title of this book has a double meaning on the one hand it deals with two very different societies both of which made iron in the early modern period On the other hand iron made these societies the needs of iron production and the resistance to these demands from local peasant communities gave the societies a special kind of cohesion and rationality This volume presents the findings of a joint team of Swedish and Russian scholars examining the social organization of work in early modern iron industry and their respective societies The comparison was carried out against the backdrop of the international discussion on proto industrialization its prerequisites and consequences There has

however been a certain bias in much of that debate the focus being mainly on Western Europe particularly on Britain and on textile trades This book offers an important contribution to the debate in that it widens the perspective by discussing Northern and Eastern Europe and by studying the iron industry More particularly it examines actual production processes the organization of work social conflict questions of ownership and its evolution as well as the diffusion and organization of technical knowledge The comparative approach is consistently applied throughout with each chapter closely integrating the results relating to the two selected geographical areas thus showing ways of solving some of the problems arising from comparative history

Bondage Alessandro Stanziani, 2015-11 For the first time this book provides the global history of labor in Central Eurasia Russia Europe and the Indian Ocean between the sixteenth and the twentieth centuries It contests common views on free and unfree labor and compares the latter to many Western countries where wage conditions resembled those of domestic servants This gave rise to extreme forms of dependency in the colonies not only under slavery but also afterwards in form of indentured labor in the Indian Ocean and obligatory labor in Africa Stanziani shows that unfree labor and forms of economic coercion were perfectly compatible with market development and capitalism proven by the consistent economic growth that took place all over Eurasia between the seventeenth and the nineteenth centuries This growth was labor intensive commercial expansion transformations in agriculture and the first industrial revolution required more labor not less Finally Stanziani demonstrates that this world did not collapse after the French Revolution or the British industrial revolution as is commonly assumed but instead between 1870 and 1914 with the second industrial revolution and the rise of the welfare state
