#### **Long Old Road An Autobiography:**

The Forging of a Black Community Quintard Taylor, 2011-07-01 Through much of the twentieth century black Seattle was synonymous with the Central District a four square mile section near the geographic center of the city Quintard Taylor explores the evolution of this community from its first few residents in the 1870s to a population of nearly forty thousand in 1970 With events such as the massive influx of rural African Americans beginning with World War II and the transformation of African American community leadership in the 1960s from an integrationist to a black power stance Seattle both anticipates and mirrors national trends Thus the book addresses not only a particular city in the Pacific Northwest but also the process of political change in black America The Rise of Chicago's Black Metropolis, 1920-1929 Christopher Robert Reed.2011-04-15 During the Roaring 20s African Americans rapidly transformed their Chicago into a black metropolis In this book Christopher Robert Reed describes the rise of African Americans in Chicago's political economy bringing to life the fleeting vibrancy of this dynamic period of racial consciousness and solidarity Reed shows how African Americans rapidly transformed Chicago and achieved political and economic recognition by building on the massive population growth after the Great Migration from the South the entry of a significant working class into the city's industrial work force and the proliferation of black churches Mapping out the labor issues and the struggle for control of black politics and black business Reed offers an unromanticized view of the entrepreneurial efforts of black migrants reassessing previous accounts such as St Clair Drake and Horace R Cayton s 1945 study Black Metropolis Utilizing a wide range of historical data The Rise of Chicago s Black Metropolis 1920 1929 delineates a web of dynamic social forces to shed light on black businesses and the establishment of a black professional class The exquisitely researched volume draws on fictional and nonfictional accounts of the era black community guides mainstream and community newspapers contemporary scholars and activists and personal Race, Social Science and the Crisis of Manhood, 1890-1970 Malinda Alaine Lindquist, 2012-05-31 Black interviews Social Science and the Crisis of Manhood 1890 1970 describes the young black male crisis why we are largely unfamiliar with the story of the black superman and why this matters to contemporary debates It does so by returning to the work of those original black social scientists to explore the ways in which they understood the challenges of black manhood offered substantive critiques of the nation's race class and gender systems and worked to construct a progression. The careful study of their work reveals the centrality of gender to discussions of race and class and also new possibilities for understanding and discussing black men This book offers a look at pioneering black social scientists as well as a history of the changing perceptions ideals and shifting depictions of black and white manhood over nearly a century **Ghetto** Mitchell Duneier, 2016-04-19 A stunningly detailed and timely account of the idea of the ghetto from its origins in sixteenth century Venice and its revival by the Nazis to the present Khalil Gibran Muhammad The New York Times Book Review In Ghetto Mitchell Duneier shows how the entanglements of race poverty and place in America are connected to the ghettos of Europe

He traces the evolution of the ghetto as both concept and reality through the stories of scholars and activists who attempted to understand the problems of American cities Using new and forgotten sources Duneier introduces Horace Cayton and St Clair Drake graduate students whose conception of the South Side of Chicago established a new paradigm for thinking about Northern racism and poverty in the 1940s He also discusses the psychological links between slum conditions and black powerlessness the controversy over Daniel Patrick Moynihan's report on the black family and how the debate about urban America changed as middle class African Americans started escaping the ghettos In this sweeping and incisive study Duneier offers a clear eyed assessment of the thinkers and doers who have shaped American ideas about urban poverty and the ghetto The result is a valuable new estimation of an age old concept A New York Times Notable Book Winner of the Z calo Public Square Book Prize Long Old Road Horace Cayton, 2017-07-05 From the time that he ran away to sea at sixteen until he graduated from the University of Washington Horace R Cayton was a messman on a freighter an unknowing handyman in an Alaskan brothel a juvenile delinguent and inmate of a reform school a dock worker and steward on a passenger liner and a deputy in the sheriff's office of King County Washington Born in Seattle a city then uniquely free from racial tensions and prejudices Cayton found the privileged secure middle class position of his well to do parents ineffectual against the gradual spread of racism that was sweeping America His disarmingly honest autobiography is the ever absorbing record of an intelligent sensitive and proud man's attempts to find identity in a confusing and conflicting chaos of black and white in a nation that although dedicated to equality somehow managed to deny this ideal by almost every action Although his turbulent life was complicated by the color barrier often resulting in reverses and frustrations that have rendered him close to a breakdown this alone is not what makes Cayton's book such captivating reading Wholly lacking in self pity or special pleading Horace Cayton has written a personal narrative of unfailing interest on any number of scores a book that ranks with the best of American autobiographical writing For it manages to remain highly critical without once resorting to bitterness to be filled with hope though not always hopeful and brims with compassion and bemused and acute insights into a troubled society It is a telling almost poetic tribute to the resiliency of black culture Fifty Key Scholars in Black Social Thought Marie-Claude Jipquep-Akhtar, Nazneen M. Khan, 2024-10-15 Fifty Key Scholars in Black Social Thought is a collaborative volume that uplifts and explores the intellectual activism and scholarly contributions of Black social thinkers It implores readers to integrate the research of Black scholars into their teaching and research and fundamentally to rethink the dominant epistemological claims and philosophical underpinnings of the Western social sciences The volume features 50 chapters written by 55 scholars who explore the diverse contributions of notable Black thinkers both historical and contemporary Four thematic areas organize this work Black epistemology Black geopolitics Black oppression and resistance and Black families and communities Through a close analysis of the fifty thinkers presented here the chapters explore these themes while dismantling the whitewashed disciplinary histories methodologies and content that obscure and or subjugate

the significance of Black social thought In addition to offering insightful and timely analysis each chapter offers suggested readings for readers who would like to dive deeper into the work of Black social thinkers This volume offers an accessible starting point for exploring the work of Black scholars past and present and their contributions to sociology and the social sciences more broadly It is useful to students academics practitioners and the lay public who are curious about Black social Aristocrats of Color Willard B. Gatewood, 2000-05-01 Every American city had a small self aware and active black elite who felt it was their duty to set the standard for the less fortunate members of their race and to lead their communities by example Professor Gatewood's study examines this class of African Americans by looking at the genealogies and occupations of specific families and individuals throughout the United States and their roles in their various communities from publisher description The Oxford Handbook of African American Citizenship, 1865-Present Henry Louis Gates, Jr., 2012-05-24 Collection of essays tracing the historical evolution of African American experiences from the dawn of Reconstruction onward through the perspectives of sociology political science law economics education and psychology As a whole the book is a systematic study of the gap between promise and performance of African Americans since 1865 Over the course of thirty four chapters contributors present a portrait of the particular hurdles faced by African Americans and the distinctive contributions African Americans have made to the development of U S institutions and culture From publisher description The Souls of Black Folk Dolan Hubbard, 2007 Published in 1903 The Souls of Black Folk by W E B Du Bois was an immediate achievement More than a hundred years later the influence of Du Bois's critique of the political social and economic encumbrances imposed upon blacks in Reconstruction and post Reconstruction America can still be felt The Souls of Black Folk One Hundred Years Later is the first collection of essays to examine Du Bois s work from a variety of academic perspectives including aesthetics art history communications music political science psychology history and the classics Scholars teachers and students of American studies and African American studies will find this collection an essential overview of a book that changed the course of American intellectual history In Search of the Black Fantastic Richard Iton, 2010 Prior to the 1960s when African Americans had little access to formal political power black popular culture was commonly seen as a means of forging community and effecting political change But as Richard Iton shows despite the changes politics black artists have continued to play a significant role in the making of critical social spaces Abandoning the Black Hero John C. Charles, 2012-12-15 Abandoning the Black Hero is the first book to examine the postwar African American white life novel novels with white protagonists written by African Americans These fascinating works have been understudied despite having been written by such defining figures in the tradition as Richard Wright Zora Neale Hurston James Baldwin Ann Petry and Chester Himes as well as lesser known but formerly best selling authors Willard Motley and Frank Yerby John C Charles argues that these fictions have been overlooked because they deviate from two critical suppositions that black literature is always about black life and that when it represents whiteness it must attack white

supremacy The authors are however quite sympathetic in the treatment of their white protagonists which Charles contends should be read not as a failure of racial pride but instead as a strategy for claiming creative freedom expansive moral authority and critical agency In an era when Negro writers were expected to protest their sympathetic treatment of white suffering grants these authors a degree of racial privacy previously unavailable to them White writers after all have the privilege of racial privacy because they are never pressured to write only about white life Charles reveals that the freedom to abandon the Negro problem encouraged these authors to explore a range of new genres and themes generating a strikingly diverse body of novels that significantly revise our understanding of mid twentieth century black writing Patron of Ossory. A Memoir of His Life and Times John Hogan, 1876 **The Contexts of Social Mobility** Anselm L. From Harlem to Paris Michel Fabre, 1991 This academic study uses accounts from more than 60 African American writers Countee Cullen James Baldwin Chester Himes et al to explain why they were more readily accepted socially in Paris than in America Fabre The Unfinished Quest of Richard Wright shows that French black American affinity started in pre Civil War New Orleans and not as the title suggests in Harlem when illegitimate mulattos with inheritances from French slave owners sent their children to Paris to be educated The book concludes that acceptance and appreciation of black Americans were based largely of French distaste both for white Americans whom the French found egotistical and for black Africans with whom the French had a bitter mutual colonial history Biographical Memoir of John Montagu W. A. A Memoir of the Late William Hodge, Sen William Hodge, 1885 African American Studies Jeanette Newman.1855 Davidson, 2010-10-19 This book presents the diverse expansive nature of African American Studies and its characteristic interdisciplinarity It is intended for use with undergraduate beginning graduate students in African American Studies American Studies and Ethnic Studies Section I focuses on the historical development of the field and the diverse theoretical perspectives utilized in African American Studies Section II examines African American Studies commitment to community service and social activism and includes exclusive interviews with acclaimed actor activist Danny Glover and renowned scholar Manning Marable Section III presents international perspectives Section IV includes selected areas of scholarship Oral History as an important research methodology African American Philosophy African Aesthetics song and dance perspectives on Womanism Black Feminism and Africana Womanism with a focus on literature and African American Religion The book concludes with African American Studies strengths and Biographical Memoir of John Montagu. With a sketch of some of the public affairs connected with the Colony of the Cape of Good Hope, during his administration as Colonial Secretary William Abiah NEWMAN (Dean of Cape Town.),1855 Harvard Guide to American History Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others **Social Theory** Roberta Garner, Black Hawk Hancock, 2014-04-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social

theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other The third edition incorporates significant changes more readings reflecting a wide diversity of theorists a completely revamped chapter on gender new chapters on race and culture and unique material on the transitional giants who have helped to transform classical theory into contemporary theory As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a fresh take on social theory that foregrounds a plurality of perspectives and reflects contemporary trends in the field while still managing to be a teachable and affordable text
