

Long Lasting Relationships

Long lasting relationships are made of sugar and spice but not always everything nice. Life is not a bed of roses for any couple in the world. It is not easy to make a relationship last a lifetime. It is all about two people who are determined to make their relationship work with maturity, understanding, commitment and unconditional love. The secret to a strong bond between couples is their ability to endure each other's imperfections and cherish their differences. The most compatible couples have an amazing understanding of each other's levels of patience and tolerance. They face all their problems with great conviction and they just want to be together even though they have seen the absolute worst in each other. It is all about being determined and not to allow even the worst circumstances in life to dull the sparkle of a loving relationship...

Long Time Relationship:

Econometrics of Money and Happiness in India T. Lakshmanasamy, 2023-01-01 This book quantitatively analyses the puzzle between money and happiness in India both at individual and aggregate levels and at cross section time series and panel levels The relevance of the Easterlin Paradox a positive income happiness relationship at a point in time but a lack association between income and life satisfaction at the aggregate level and over time and hence economic growth does not improve the human lot is evaluated Using data for a long period of 24 years over 1990 to 2014 from the World Values Surveys the cross country analysis of the happiness literature is replicated with cross states analysis applying robust econometric techniques The effects of individual absolute income variously defined relative income measures NSDP per capita social comparison social capital and income inequality on individual average and aggregate happiness and life satisfaction levels across states and over time are examined The rigorous econometric results validate the Easterlin Paradox in India in that there is no long run happiness gain from the income growth and the income effects are not the same for all as the middle income groups do not gain in happiness from the rising average income Whatever short run gain in happiness is erased in the long run partially by the declining social capital and rising income inequality **Report of Investigations.**
