**Look Who's Watching, Revised Edition** Fen Osler Hampson, Eric Jardine, 2017-11-08 The Internet ecosystem is held together by a surprisingly intangible glue trust To meet its full potential users need to trust that the Internet works reliably and efficiently when providing them with the information they are seeking while also being secure private and safe When trust in the Internet wanes the network's stock of digital social capital falls and users begin to alter their online behaviour These often subtle changes in behaviour tend to be collectively highly maladaptive hindering the economic developmental and innovative potential of the globe spanning network of networks Look Who's Watching Surveillance Treachery and Trust Online confirms in vivid detail that the trust placed by users in the Internet is increasingly misplaced Edward Snowden's revelations that the United States National Security Agency and other government agencies are spying on Internet users the proliferation of cybercrime and the growing commodification of user data and regulatory changes which threaten to fragment the system are all rapidly eroding the confidence users have in the Internet ecosystem Based on a combination of illustrative anecdotal evidence and analysis of new survey data Look Who's Watching clearly demonstrates why trust matters how it is being eroded and how with care and deliberate policy action the essential glue of the Internet can be restored *Look*

**Who You Are. Live Like It Matters.** Tim Tebow, 2017-05-16 American sports icon Tim Tebow shares how he faces pressure

head on and the wisdom he's learned not from what the world says but from what God says in His Word. The world does not define you. Nobody said your life would be easy. And the older you get, the more difficult it seems to become. Deep down, you may know your value as a person isn't defined by wearing cool name brand clothes, scoring points for a sports team, or even by having a huge number of social media followers. And you're right. Your identity resides in something in fact. Someone much greater than anything this world can offer. The only identity worth having is found in Jesus Christ. Tim Tebow will guide you through thirty-six weeks of lessons, each based on a key Scripture, to discover who you are by learning more about whose you are. You'll have the opportunity to write down your thoughts, feelings, and ideas on topics such as Building godly character, Maintaining great relationships, Standing out from the crowd, Doing things that matter in the big picture, Get ready to live bigger than ever before with your faith, and identity secure in a God who loves you beyond measure.

Entertainment and Society Shay Sayre, Cynthia King, 2010-04-05. The second edition of this innovative textbook introduces students to the ways that society shapes our many forms of entertainment and in turn how entertainment shapes society. Entertainment and Society examines a broad range of types of entertainment that we enjoy in our daily lives, covering new areas like sports, video games, gambling, theme parks, travel, and shopping, as well as traditional entertainment media such as film, television, and print. A primary emphasis is placed on the impact of technological and cultural convergence on innovation and the influence of contemporary entertainment. The authors begin with a general overview of the study of entertainment, introducing readers to various ways of understanding leisure and play, and then go on to trace a brief history of the development of entertainment from its live forms through mediated technology. Subsequent chapters review a broad range of theories and research and provide focused discussions of the relationship between entertainment and key societal factors, including economics and commerce, culture, law, politics, ethics, advocacy, and technology. The authors conclude by highlighting innovations and emerging trends in live and mediated entertainment and exploring their implications for the future. The new edition features updated examples and pedagogical features throughout, including text boxes, case studies, student activities, questions for discussion, and suggestions for further reading.

Shannon Jackson *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art known in the US as social practice. Claire Bishop follows the trajectory of twentieth century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada, the Situationist International, Happenings in Eastern Europe, Argentina, and Paris in the 1970s, the Community Arts Movement, and the Artists Placement Group. It concludes with a discussion of long term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Pawel Althamer, and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects but also provides an alternative to the ethical rather than artistic criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics and for more compelling, troubling, and bolder forms of participatory art and criticism.
