The Language of War Monuments David Machin, Gill Abousnnouga, 2013-10-10 This book analyses war monuments by developing a multimodal social semiotic approach to understand how they communicate as three dimensional objects The book provides a practical tool kit approach to how critical multimodal social semiotics should be done through visual textual and material analysis It ties this material analysis into the social and political contexts of production Using examples across the 20th and 21st century the book s chapters offer a way of analysing the way that monument designers have used specific semiotic choices in terms of things like iconography objects shape form angularity height materials and surface realisation to place representations of war in public places across Britain This social semiotic approach to the study of war monuments serves three innovative purposes First it provides a contribution to the work on the ideological representations of war in Media and Cultural Studies and in Critical Discourse Analysis applied specifically to more banal realisations of discourse Second it responds to calls by historians for innovative ways to study war commemoration by providing an approach that offers both specific analysis of the objects and attends to matters of design Thirdly following in the relatively recent tradition of multimodal analysis the arguments draw on the ideas of Kress and van Leeuwen 1996 2001 adapting and extending their theories and models to the analysis of British commemorative war monuments in order to develop a multimodal framework for the analysis of three dimensional objects **Kanone II** Edmund LeRoy, 2016-06-14 1917 is drawing to a close Two battle hardened armies lie exhausted in the snow covered trenches of the Ste Helene Salient The crimson skies above them are empty Heroes have fallen Others are broken in spirit An uneasy calm has descended upon this part of the Western Front But it cannot last Far behind the front line two formidable women are driven together one by her search for vengeance the other by her obsessive determination to achieve the impossible But vengeance and obsession are dangerous companions and when they join forces the consequences are catastrophic Oberkanone is the second part of the Kanone trilogy Once again Homer s epic the Iliad is transported from the windswept plains of Troy to the frozen killing fields of France Once again the timeless tale of tragedy unfolds a tale that speaks of man s indomitable pride and his insatiable lust for glory **Managing Family**
