Body and Gender Roberta Sassatelli, Rossella Ghigi, 2023-12-11 Even though we often think of bodies as natural and given or else as freely plastic objects bodies are both constructed and fundamental to our sense of self This book investigates the body as an essential vector of inequality shaped by institutions interaction and culture and how in turn it contributes to partly modify them Sassatelli and Ghigi show how the process of embodiment is at the same time naturalized and contested particularly evident in the case of gender Drawing on classical sociological research about modernity and contemporary studies that emphasize intersectionality the book looks at how the gendered body has been conceptualized with special attention to body politics the power of appearance and the representation of embodied identity It also considers the interplay between body sex and sexuality and the way gendered bodies intersect with other dimensions of social inequality such as race age class and disability This exploration of the rich field of sociological inquiry into the gendered body will be an invaluable read for all seeking to understand gender sexuality and embodiment in contemporary society

invading the market complicating matters of physical appearance with questions of race and power Based on a wide variety of documentary and archival evidence Walker concludes that African American beauty standards were shaped within black society as much as they were formed in reaction to let alone imposed by the majority culture Style and Status challenges the notion that the civil rights and black power movements of the 1950s through the 1970s represents the first period in which African Americans wielded considerable influence over standards of appearance and beauty Walker explores how beauty culture affected black women s racial and feminine identities the role of black owned businesses in African American communities differences between black owned and white owned manufacturers of beauty products and the concept of racial progress in the post World War II era Through the story of the development of black beauty culture Walker examines the interplay of race class and gender in twentieth century America
