Loran A Groundwave Pulse Propagation J. Ralph Johler, 1971 *Catalog of Technical Reports* Business and Defense Services Administration, 1953 **Summary Technical Report of NDRC** United States. Office of Scientific Research and Development. National Defense Research Committee, 1946 **Evolution of Naval Radio-electronics and Contributions of the Naval Research Laboratory** Louis A. Gebhard, 1979 NASA Thesaurus ,1994 **Microfilm Index** United States. Office of Scientific Research and Development. National Defense Research Committee, 1946 This volume is an index of the technical laboratory and field reports and other reference material which appears in the bibliographies for the Summary Technical Report of NDRC microfilmed **Scientific and Technical Aerospace Reports** ,1994 Radiation Laboratory Series ,1964 **B-29 Superfortress** Graham M. Simons, 2012-09-19 A well written history of a history changing aircraft the bomber that carried the two atomic bombs that destroyed Hiroshima and Nagasaki in WWII Aeromilitaria The Boeing B 29 Superfortress was a four engined heavy bomber flown primarily by the United States in World War Two and the Korean War The name Superfortress was derived from that of its well known predecessor the B 17 Flying Fortress The B 29 was the progenitor of a series of Boeing built bombers reconnaissance aircraft trainers and tankers including the variant B 50 Superfortress The B 29 was one of the largest aircraft to see service during World War Two A very advanced bomber for its time it included features such as pressurized cabins an electronic fire control system and remote controlled machine gun turrets Though it was designed as a high altitude daytime bomber in practice it actually flew more low altitude nighttime incendiary bombing missions It was the primary aircraft in the American firebombing campaign against Japan in the final months of World War Two Unlike many other World War Two era bombers the B 29 remained in service long after the war ended with a few even being employed as flying television transmitters The type was finally retired in the early 1960s with 3 960 aircraft in all built Without doubt there is a clear strong requirement to put the record straight using primary source documentation to record the undoubted achievements alongside and in context with the shortcomings to the type s design and operation that have otherwise received scant attention The book covers all variants and is profusely illustrated **First Strike!** Robert C. Aldridge, 1983 A former design engineer for Lockheed presents a comprehensive survey of U S and Soviet nuclear forces and strategic doctrines that exposes the U S military s dangerous bid for first strike capability and describes corporate imperatives for perpetuating the arms race and circumventing arms control **Journal** ,1949 **Pioneering Progress** William B. Bonvillian, 2024-10-29 An expert exploration of the foundations of America s science and technology policies and the dynamics of its innovation system Why study science and technology policy What role does innovation play and how do we foster it Economics tells us technological innovation drives economic growth and societal well being but technology is always a double edged sword great technological advances offer both opportunities and threats In *Pioneering Progress* William Bonvillian explains the complex science and technology innovation system and discusses the challenges of

emerging industrial policies Drawing on in depth case studies on critical areas such as energy computing advanced manufacturing and health with an emphasis on the needed public policy and the federal government R D role in those systems Bonvillian reviews the foundations of economic growth theory innovation systems theory and innovation organization theory Bonvillian a highly respected expert who has worked as a deputy assistant secretary of transportation in the federal government and a senior advisor in Congress reviews a new theory of direct and indirect economic factors in the innovation system He describes the innovation based competitive and advanced manufacturing challenges now facing the US economy reviews comparative efforts in other nations studies the varied models for how federal science and technology mission agencies are organized and explores the growth of public private partnership and industrial policy models as a way for science mission agencies to pursue mission agendas Pioneering Progress places particular emphasis on the organization and role of medical science and energy innovation agencies and how we can address the gaps in the health energy and advanced production innovation economic models **Technical Publications for Air Force Technical Libraries**, 1948
