Los Metodos De La Historia:

Lecturas de metodología histórico-educativa. Hacia una historia de las mentalidades Manuel López Torrijo, 1995
Teoría del discurso historiográfico Bartolomé Escandell Bonet, 1992 **La polémica sobre el método histórico (1900-1908)** Francisco Sevillano Calero, 2018-02-01 El propósito de esta edición es dar a conocer los principales textos de la controversia sobre el método de las ciencias sociales que aconteció en Alemania a partir de 1883 conocida como la disputa del método o Methodenstreit y en Francia desde 1903 hasta 1908 en torno al estatus científico de la historia. Estos episodios sirven como ejemplos para responder a la pregunta de cómo avanza epistemológicamente el conocimiento científico particularmente en torno a la problemática de la causalidad en historia. Esta cuestión centra las controversias entre sociólogos durkheimianos e historiadores en Francia por las observaciones que François Simiand hiciera a los planteamientos de Charles Seignobos sobre los fundamentos del método histórico en relación con las ciencias sociales. La presente edición que recoge las principales intervenciones en aquella disputa académica ofrece un cuerpo expositivo y argumentativo de la problemática de la naturaleza de la ciencia, el valor de la explicación causal, el objeto de la historia y la importancia de las relaciones metodológicas con las ciencias sociales emergentes, sobre todo la sociología y la economía que estuvieron en el origen de la nouvelle histoire francesa llamada a ejercer una gran influencia internacional a través de la llamada escuela de los Annales. Los nueve artículos de K. Lamprecht, H. Rickert, P. Lacombe, H. Berr, F. Simiand y C. Seignobos que aquí se presentan traducidos del francés permanecen inéditos en español en su práctica totalidad.

New Organic Architecture David Pearson, 2001 New Organic Architecture is a manifesto for building in a way that is both aesthetically pleasing and kinder to the environment. It illuminates key themes of organic architecture: their sources of inspiration, the roots and concepts behind the style, and the environmental challenges to be met. The organic approach to architecture has an illustrious history from Celtic design, Art Nouveau, Arts and Crafts to the work of Antoni Gaudí and Frank

Lloyd Wright Today there is a response to a new age of information and ecology architects are seeking to change the relationship between buildings and the natural environment In the first part of his book David Pearson provides a history and assessment of organic architecture The second part comprises statements from thirty architects from around the world whose work is based on natural or curvilinear forms rather than the straight line geometrics of modernism Each statement is accompanied by full color illustrations of one or several of the architects built projects

La Historia Moderna de la Enseñanza Secundaria. Contenidos, métodos y representaciones Francisco García González, Cosme J. Gómez Carrasco, Ramón Cózar Gutiérrez, Pedro Martínez Gómez, 2020-09-04 La Edad Moderna es un período fundamental para la comprensión del mundo y de la sociedad actual Sin embargo en España existe una gran distancia entre los libros de texto y las propuestas curriculares ofrecidas en los centros de educación secundaria y el ritmo que sigue la investigación y la innovación en este campo Conscientes de esta situación esta obra colectiva gira en torno a tres ejes vertebradores En primer lugar se abordan los contenidos en segundo lugar los métodos de enseñanza y en tercer lugar las imágenes y las representaciones muchas veces estereotipadas existentes sobre esta época en nuestro presente Los tres bloques recogen numerosas aportaciones tanto desde planteamientos teóricos y de investigación renovados como de propuestas didácticas claras y útiles con las que se pretende contribuir a avanzar en la enseñanza de la Edad Moderna en la Educación Secundaria **Bulletin**, 1904

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
