began to travel the world to track down surplus crashed or derelict Dakotas He ventured deeper and deeper into remote mountains jungles savannas and the seas where the planes are found usually as ghostly wrecks but sometimes still in full commercial operation In hunting the mythical Dakota he often encountered intimidating or dicey situations in countries plagued by wars or revolts others by arms and narcotics trafficking warlords and conmen The stories of these expeditions take the reader to some of the remotest spots in the world but once there one is often greeted by the comfort of what was once the West's apex in transportation however now haunted by the courageous airmen of the past
