Eating Right in the Renaissance Ken Albala,2002-02-01 Eating right has been an obsession for longer than we think Renaissance Europe had its own flourishing tradition of dietary advice Then as now an industry of experts churned out diet books for an eager and concerned public Providing a cornucopia of information on food and an intriguing account of the differences between the nutritional logic of the past and our own time this inviting book examines the wide ranging dietary

literature of the Renaissance Ken Albala ultimately reveals the working of the Renaissance mind from a unique perspective we come to understand a people through their ideas on food Eating Right in the Renaissance takes us through an array of historical sources in a narrative that is witty and spiced with fascinating details Why did early Renaissance writers recommend the herbs parsley arugula anise and mint to fortify sexual prowess Why was there such a strong outcry against melons and cucumbers even though people continued to eat them in large quantities Why was wine considered a necessary nutrient As he explores these and other questions Albala explains the history behind Renaissance dietary theories the connections among food exercise and sex the changing relationship between medicine and cuisine and much more Whereas modern nutritionists may promise a slimmer waistline more stamina or freedom from disease Renaissance food writers had entirely different ideas about the value of eating right As he uncovers these ideas from the past Ken Albala puts our own dietary obsessions in an entirely new light in this elegantly written and often surprising new chapter on the history of food

Screening Torture Michael Flynn, Fabiola Fernandez Salek, 2012-09-18 Before 9 11 films addressing torture outside of the horror slasher genre depicted the practice in a variety of forms In most cases torture was cast as the act of a desperate and depraved individual and the viewer was more likely to identify with the victim rather than the torturer Since the terrorist attacks of September 11 2001 scenes of brutality and torture in mainstream comedies dramatic narratives and action films appear for little other reason than to titillate and delight In these films torture is devoid of any redeeming qualities represented as an exercise in brutal senselessness carried out by authoritarian regimes and institutions This volume follows the shift in the representation of torture over the past decade specifically in documentary action and political films It traces and compares the development of this trend in films from the United States Europe China Latin America South Africa and the Middle East Featuring essays by sociologists psychologists historians journalists and specialists in film and cultural studies the collection approaches the representation of torture in film and television from multiple angles and disciplines connecting its aesthetics and practices to the dynamic of state terror and political domination
