Thomas, 1996-01-30 A comprehensive guide to multicultural literature for children this valuable resource features more than 1 600 titles including fiction folktales poetry and song books that focus on diverse cultural groups The selected titles published between the 1970s and 1990s are suitable for use with preschoolers through sixth graders and are likely to be found on the shelves of school and public libraries Topics are timely with an emphasis on books that reflect the needs and interests of today s children Each detailed entry includes bibliographic information Use level is also included as are cultural designation subjects and a summary The invaluable Subject Access section incorporates use level culture information      *Targeted Killings* Claire Finkelstein, Jens David Ohlin, Andrew Altman, 2012-03-01 The war on terror is remaking conventional warfare The protracted battle against a non state organization the demise of the confinement

of hostilities to an identifiable battlefield the extensive involvement of civilian combatants and the development of new and more precise military technologies have all conspired to require a rethinking of the law and morality of war Just war theory as traditionally articulated seems ill suited to justify many of the practices of the war on terror The raid against Osama Bin Laden s Pakistani compound was the highest profile example of this strategy but the issues raised by this technique cast a far broader net every week the U S military and CIA launch remotely piloted drones to track suspected terrorists in hopes of launching a missile strike against them In addition to the public condemnation that these attacks have generated in some countries the legal and moral basis for the use of this technique is problematic Is the U S government correct that nations attacked by terrorists have the right to respond in self defense by targeting specific terrorists for summary killing Is there a limit to who can legitimately be placed on the list There is also widespread disagreement about whether suspected terrorists should be considered combatants subject to the risk of lawful killing under the laws of war or civilians protected by international humanitarian law Complicating the moral and legal calculus is the fact that innocent bystanders are often killed or injured in these attacks This book addresses these issues Featuring chapters by an unrivalled set of experts it discusses all aspects of targeted killing making it unmissable reading for anyone interested in the implications of this practice *This Land Is Our Land* Agnes Regan Perkins, Alethea K.
