Babchuk, Robert K. Hitchcock, 2024-11-30 Ecotourism defined as responsible travel to natural areas that conserves the environment and improves the well being of local people has become one of the fastest growing industries in the world The impacts of ecotourism on people in virtually every part of the planet are particularly true for Indigenous people Indigenous people are found in over half of the world's countries and their cultures customs traditions identities and natural resource management systems are of great interest to scientists tourists and travelers Many Indigenous peoples reside in conservation hotspots and places with high biological biodiversity As shown in this book ecotourism has both promises and pitfalls for Indigenous peoples who seek to enhance their livelihoods while conserving the habitats in which they reside and the sacredness of their traditions Drawing on cases from South America North America Africa and Asia Ecotourism Impacts on Indigenous Peoples examines the social economic political and environmental impacts of ecotourism A common plea of Indigenous people is that they have greater control over incoming ecotourists and receive more equitable social economic and cultural benefits from what they recognize as a highly complex industry with significant environmental economic and political effects **Pueblo Peoples on the Pajarito Plateau** David E. Stuart, 2011-02-16 This lively overview of the archaeology of northern New Mexico's Pajarito Plateau argues that Bandelier National Monument and the Pajarito Plateau became the Southwest's most densely populated and important upland ecological preserve when the great regional society centered on Chaco Canyon collapsed in the twelfth century Some of Chaco's survivors moved southeast to the then thinly populated Pajarito Plateau

where they were able to survive by fundamentally refashioning their society David E Stuart an anthropologist archaeologist known for his stimulating overviews of prehistoric settlement and subsistence data argues here that this re creation of ancestral Puebloan society required a fundamental rebalancing of the Chacoan model Where Chaco was based on growth grandeur and stratification the socioeconomic structure of Bandelier was characterized by efficiency moderation and practicality Although Stuart s focus is on the archaeology of Bandelier and the surrounding area his attention to events that predate those sites by several centuries and at substantial distances from the modern monument is instructive Beginning with Paleo Indian hunter gatherers and ending with the large villages and great craftsmen of the mid sixteenth century Stuart presents Bandelier as a society that in crisis relearned from its pre Chacoan predecessors how to survive through creative efficiencies Illustrated with previously unpublished maps supported by the most recent survey data this book is indispensable for anyone interested in southwestern archaeology **Canyon Gardens** V. B. Price,Baker H.
