Don Juan, Mescalito and Modern Magic Nevill Drury, 2023-07-28 First published in 1978, *Don Juan, Mescalito and Modern Magic* begins with an analysis of the Castaneda material from the viewpoint of its inherently magical content. The author examines the symbiotic gestures, the magical actions and the mind altering techniques employed by the brujo Don Juan, and then goes on to draw comparisons with two other schools of thought: the psychedelic development of the 1960s and the Western Magical Tradition. The essential aim throughout is to show that there is a basically Western shamanism which uses Western symbols and is easily accessible. The shamanistic practices of the Hermetic Order of the Golden Dawn are examined in this context. Considerable emphasis is also placed on mythological aspects associated with out of the body experiences and their relevance to both the Don Juan, Mescalito imagery and the Qabalistic and Tarot symbols found in Western Magic. This book will be of interest to students of religion, history and literature.

Qabalah John Bonner, 2025-09-12 While it began as a mystical interpretation of Jewish scriptural texts, today Qabalah is much more. As John Bonner writes in his introduction, Qabalah is a metaphysical philosophy or rather a theosophy that sets out to answer a series of vital questions regarding the nature of God, His creation and the place of man in His divine plan. It is a living, growing system of personal development. In addition, much of contemporary Western magick is founded on the work of the Hermetic

Order of the Golden Dawn which based its ritual and teachings firmly in Qabalah This scholarly introduction explores the mysteries of Qabalah through the symbolism of the Tree of Life and its four distinct elements the three Pillars of Manifestation the ten Holy Sephiroth the Paths that run to and from the Sephiroth and the Veils For each Sephirah Bonner provides detailed information on magical astrological and tarot correspondences as well as how different religious traditions relate to the concepts contained in each

The Tree of Life Israel Regardie, Chic Cicero, Sandra Tabatha Cicero, 2000 Israel Regardie wrote *The Tree of Life* a book many consider his magnum opus in 1932 It has continued to sell for decades And no wonder Up until the time this book was published very little information about true high magic was available to the public In this book Regardie reveals the secrets of real magic He begins with an explanation of what magic is and just as importantly what magic is not He explains that it is a spiritual study and practice which along with forms of yoga forms the two branches of the tree that is mysticism Magic is not being a medium or a psychic Then he explains the tools of the magician what they mean and how to use them He explains the techniques of evocation and invocation skrying and astral travel He shows how the Qabalah unites everything He even gives a description of the secrets of sexual magick All of this is in a clear lucid writing style This book is simply a must for anyone who is or aspires to be a real magician Although Chic and Sandra Tabatha Cicero were friends of Regardie and are Senior Adepts of the Hermetic Order of the Golden Dawn what changes could they have made to this classic book Well they did change the spelling from British style to American And they did change his transliterations of Hebrew into the more popular style he used in his later books But nothing vital was changed or removed Everything else they added was complementary to the text that was there And what incredible additions they are Extensive annotations throughout every chapter over 100 illustrations more descriptive contents pages a glossary a bibliography and an index They ve even added a biographical note on Regardie and the importance of this book to him and to the occult world This book contains some of the finest occult writing that has ever been produced And with the new material by the Ciceros it becomes a must have for any magician
