Mastering Life's Energies Maria Nemeth, PhD,2010-10-04 Everyone has had luminous moments those instances when we experience the beauty and grace of life whether we re looking into the eyes of a newborn or watching the sun set over the ocean But those moments are usually brief and difficult to consciously create Many of us have been successful in attaining personal and professional goals but we re too exhausted to enjoy what we ve accomplished Or we might walk around in a fog feeling vaguely frustrated resigned or cynical and asking all the wrong questions about how to make our lives better In either case we miss the purpose of being alive to wake up and fully become ourselves to allow others to contribute to us and in turn to contribute our gifts to the world fully savoring the journey along the way This fascinating new book gives us specific methods for bringing luminosity into our lives on a consistent basis allowing us to view the world with much younger more vibrant eyes Mastering Life s Energies shows us how to use all the energies of our lives physical vitality creativity time money enjoyment and relationship to realize our goals and dreams and even more important live a luminous life filled with possibility and promise **Flickering Pixels** Shane Hipps,2009-02-09 Flickering pixels are the tiny dots of light that make up the screens of life from TVs to cell phones They are nearly invisible but they change us In this provocative book author Shane Hipps takes readers beneath the surface of things to see how the technologies we use end up using us Not all is dire however as Hipps shows us that hidden things have far less power to shape us when they aren t hidden anymore We are only puppets of our technology if we remain asleep Flickering Pixels will wake us up and nothing will look the same again
