encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Dieffenbacher, 2013-02-01. AVA Academia's Course Reader titles are designed to support visual arts students throughout the lifetime of an undergraduate degree. Packed with examples from students and professionals and fully illustrated with clear diagrams and inspiring imagery, they offer an essential exploration of the subject. Students often struggle to develop their own style and approach to design. While the design process is fundamental to the way all fashion designers work, there is no right or wrong method; each emerging designer must find their own authentic process. *Fashion Thinking* establishes key approaches to design and enables this process of discovery. Nine student projects form the core of the book, representing a diverse range of strategies at each key stage of the design cycle. By following each throughout their various stages of development, these examples offer a unique and inspiring insight into the thinking behind a final collection. *New York Magazine*, 1980-12-08. *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.
