The Encyclopedia of Angels Rosemary Guiley, 2004 An encyclopedia describing and giving the history of angels from the time when the earth was created forward using texts from Hebrew Arabic ancient and contemporary works *On My Right Michael, On My Left Gabriel* Mika Ahuvia, 2021-06-08 Angelic beings can be found throughout the Hebrew Bible and by late antiquity the archangels Michael and Gabriel were as familiar as the patriarchs and matriarchs guardian angels were as present as one s shadow and praise of the seraphim was as sacred as the Shema prayer Mika Ahuvia recovers once commonplace beliefs about the divine realm and demonstrates that angels were foundational to ancient Judaism Ancient Jewish practice centered on humans relationships with invisible beings who acted as intermediaries role models and guardians Drawing on non canonical sources incantation bowls amulets mystical texts and liturgical poetry Ahuvia shows that when ancient men and women sought access to divine aid they turned not only to their rabbis or to God alone but often also to the angels On My Right Michael On My Left Gabriel spotlights these overlooked stories interactions and rituals offering a new entry point to the history of Judaism and the wider ancient Mediterranean and Near Eastern world in which it flourished *The Studio* , 1954 *Contributing to Healing* Daniel Perret, 2020 In these extraordinary times of change we can learn to use our thoughts and actions for the benefit of nature and all sentient beings animals human bees birds nature spirits This present book describes how healing works how to proceed and how to bypass inner hindrances I have been

studying and teaching spiritual healing for many years The changes of recent years have moved my focus very naturally from personal development towards including nature healing In my book *Earth Healing* in German and French I explain how this shift came about through the many requests from nature spirits Healing in all its forms from spiritual healing to distant healing or prayer is a simple and natural procedure It is based on the ever present energy of the Universe New nature spirits have recently appeared to encourage humans to become more aware of and to send daily distant healing to our immediate natural surroundings Groups of citizens throughout the world have become active to legally secure the rights of nature for river systems forests etc We need to link local action to global awareness We can all contribute no matter who and where we are

Corpse Magic Michael Taussig, 2025-03-28 *Corpse Magic* examines beliefs about vengeance the slain magically enact on their killers focusing on lethal violence in Colombia and the United States *Corpse Magic* is a response to the global ubiquity of violence In this bracing new work the influential anthropologist Michael Taussig puts killings in Colombia by gangs and guerrillas police and the military and agents of agribusiness in conversation with mass shootings and police killings disproportionately of Black people in the United States In both contexts he examines the effects of violent killing on its victims its perpetrators and those who witness and relive it through media footage Drawing from literature religion philosophy and anthropology Taussig traces the idea that the act of killing infects the killer and spreads outward then connects this concept of contagion to beliefs in Colombia and elsewhere that the souls of the slain possess those of their slayers and that magic can be used to empower or thwart corpses as agents of vengeance In this powerful and imaginative work Taussig asks what kind of power the dead continue to have what kinds of magic can manage that power and what if anything can stop seemingly endless cycles of violence

Orientation in European Romanticism Paul Hamilton, 2022-10-20 Exploring the experiments in individual and national self consciousness conducted during the Romantic period this essential comparative study of European literature philosophy and politics makes original and often surprising connections and contrasts to reveal how personal and social identities were re orientated and disorientated from the French Revolution onwards Reviving a contested moment in the history of aesthetic theory this study shows how the growing awareness of irresolution in Kant's third *Kritik* allowed Romantic writers to put the aesthetic to radical uses not envisaged by its parent philosophy It also recounts how they would go on to force philosophy to revise received notions of authority empowering women and subordinated ethnic groups to re orientate existing hierarchies The sheer range and variety of writers covered is testament both to the breadth of writing that Kant's philosophy so rashly legitimated and to the wider importance of philosophy to the understanding of Romantic literature

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large

Wonder and Exile in the New World Alex

Nava, 2013-06-21 In *Wonder and Exile in the New World* Alex Nava explores the border regions between wonder and exile particularly in relation to the New World. It traces the preoccupation with the concept of wonder in the history of the Americas beginning with the first European encounters, goes on to investigate later representations in the Baroque age and ultimately enters the twentieth century with the emergence of so-called magical realism. In telling the story of wonder in the New World, Nava gives special attention to the part it played in the history of violence and exile, either as a force that supported and reinforced the Conquest or as a voice of resistance and decolonization. Focusing on the work of New World explorers, writers, and poets and their literary descendants, Nava finds that wonder and exile have been two of the most significant metaphors within Latin American cultural, literary, and religious representations. Beginning with the period of the Conquest, especially with Cabeza de Vaca and Las Casas, continuing through the Baroque with Cervantes and Sor Juana Inés de la Cruz, and moving into the twentieth century with Alejo Carpentier and Miguel Ángel Asturias, Nava produces a historical study of Latin American narrative in which religious and theological perspectives figure prominently.
