Egyptian Magic Sir Ernest Alfred Thompson Wallis Budge, 2020-09-28 Egyptian magic dates from the time when the predynastic and prehistoric dwellers in Egypt believed that the earth and the underworld and the air and the sky were peopled with countless beings visible and invisible which were held to be friendly or unfriendly to man according as the

operations of nature which they were supposed to direct were favourable or unfavourable to him In nature and attributes these beings were thought by primitive man to closely resemble himself and to possess all human passions and emotions and weaknesses and defects and the chief object of magic was to give man the pre eminence over such beings The favour of the beings who were placable and friendly to man might be obtained by means of gifts and offerings but the cessation of hostilities on the part of those that were implacable and unfriendly could only be obtained by wheedling and cajolery and flattery or by making use of an amulet or secret name or magical formula or figure or picture which had the effect of bringing to the aid of the mortal who possessed it the power of a being that was mightier than the foe who threatened to do evil to him The magic of most early nations aimed at causing the transference of power from a supernatural being to man whereby he was to be enabled to obtain superhuman results and to become for a time as mighty as the original possessor of the power but the object of Egyptian magic was to endow man with the means of compelling both friendly and hostile powers nay at a later time even God Himself to do what he wished whether they were willing or not The belief in magic the word being used in its best sense is older in Egypt than the belief in God and it is certain that a very large number of the Egyptian religious ceremonies which were performed in later times as an integral part of a highly spiritual worship had their origin in superstitious customs which date from a period when God under any name or in any form was unconceived in the minds of the Egyptians Indeed it is probable that even the use of the sign which represents an axe and which stands the hieroglyphic character both for God and god indicates that this weapon and tool was employed in the performance of some ceremony connected with religious magic in prehistoric or at any rate in predynastic times when it in some mysterious way symbolized the presence of a supreme Power But be this as it may it is quite certain that magic and religion developed and flourished side by side in Egypt throughout all periods of her history and that any investigation which we may make of the one necessarily includes an examination of the other

Madame Blavatsky on Egyptian Magic, Good and Bad Helena Petrovna Blavatsky, 2018-05-26 Initiation teaches us to live a better life and to die with better hope. The Mysteries were known to unveil the operations of nature and lead to the contemplation of celestial powers. Magic was considered a Divine Science which led to a participation in the attributes of the Divinity itself. But it was Black Magic that led finally to the abolition of the Mysteries and not Christianity as is often erroneously thought.

Magical Hymns from Roman Egypt Ljuba Merlina Bortolani, 2016-10-10 This interdisciplinary study investigates the divine personas in the so-called magical hymns of the Greek magical papyri, which in a corpus usually seen as a significant expression of religious syncretism with strong Egyptian influence were long considered to be the most authentically Greek contribution. Fifteen hymns receive a line-by-line commentary focusing on religious concepts, ritual practice, language, and style. The overarching aim is to categorise the nature of divinity according to its Greek or Egyptian elements, examining earlier Greek and Egyptian sources and religious magical traditions in order to find textual or conceptual
