Magnificent Mitscher:

The Magnificent Mitscher Theodore Taylor, 2022-08-30 First class more than the biography of a great aviator and military leader It also is a detailed and lively history of naval aviation The New York Times Air Adm Marc Mitscher is a legend in military circles for developing an entirely new concept of war at sea His skills as both a carrier tactician and genius for leading men rank him with the best World War II combat commanders However because Mitscher shunned publicity and destroyed his private papers shortly before his death in 1947 his accomplishments are not widely known In this outstanding biography Theodore Taylor traces the aviator s brilliant career from its beginnings and makes clear the major role played by the admiral in developing the Navy s air program providing a lively and detailed history of the progress of naval aviation The likable personality and day by day achievements of Mitscher shine through to lift this above the run of the mill military biography Kirkus Reviews **The Magnificent Mitscher, Etc. [A Biography of Admiral Marc A. Mitscher. With Plates, Including Portraits.]**. Theodore Taylor, 1954 The Battle of Midway Craig L. Symonds, 2013-10-03 A close up look at the battle of Midway Island analyzes this crucial naval victory which marked the turning point for the American fleet in the Pacific theater of World War II Rain of Steel Stephen Moore, 2020-09-01 The last Pacific campaign of World War II was the most violent on record Vice Admiral Marc Mitscher s Task Force 58 carriers had conducted air strikes on mainland Japan and supported the Iwo Jima landings but his aviators were sorely tested once the Okinawa campaign commenced on 1 April 1945 Rain of Steel follows Navy and Marine carrier aviators in the desperate air battles to control the kamikazes directed by Vice Admiral Matome Ugaki The latter would unleash ten different Kikusui aerial suicide operations one including a naval force built around the world s most powerful battleship the 71 000 ton Yamato These battles are related largely through the words and experiences of some of the last living U S fighter aces of World War II More than 1 900 kamikaze sorties and thousands more traditional attack aircraft would be launched against the U S Navy s warships radar picket ships and amphibious vessels during the Okinawa campaign In this time Navy Marine and Army Air Force pilots would claim some 2 326 aerial victories The most successful four man fighter division in U S Navy history would be crowned during the fight against Ugaki s kamikazes The Japanese named the campaign tetsu no ame rain of steel often referred to in English as typhoon of steel Task Force 58 Rod Macdonald, 2023-01-04 The new breed of American fast aircraft carriers could make thirty three knots and each carried almost 100 strike aircraft Brought together as Task Force 58 also known as the Fast Carrier Task Force this awesome armada at times comprised more than 100 ships carrying more than 100 000 men afloat By 1945 more than 1 000 combat aircraft fighters dive and torpedo bombers could be launched in under an hour The fast carriers were a revolution in naval warfare it was a time when naval power moved away from the big guns of the battleship to air power projected at sea Battleships were eventually subordinated to supporting and protecting the fast carriers of which at its peak Task Force 58 had a total of seventeen This book covers the birth of naval aviation the appearance of the first

modern carriers in the 1920s through to the famous surprise six carrier _Kido Butai_ Japanese raid against Pearl Harbor on 8 December 1941 and then the early US successes of 1942 at the Battles of the Coral Sea and Midway The fast carriers allowed America in late 1942 and early 1943 to finally move from bitter defence against the Japanese expansionist onslaught to mounting her own offensive to retake the Pacific Task Force 58 swept west and north from the Solomon Islands to the Gilbert and Marshall Islands neutralising Truk in Micronesia and Palau in the Caroline islands before the vital Mariana Islands operations the Battle of Saipan the first battle of the Philippine Sea and the Great Marianas Turkey Shoot The strikes by Task Force 58 took Allied forces across the Pacific to the controversial Battle of Leyte Gulf and to Iwo Jima and Okinawa Task Force 58 had opened the door to the Japanese home islands themselves allowing US bombers to finally get close enough to launch the devastating nuclear bombing raids on Hiroshima and Nagasaki Task Force 58 participated in virtually all the US Navy s major battles in the Pacific theatre during the last two years of the war Having spent many years investigating naval shipwrecks across the Pacific many the result of the devastating effectiveness of Task Force 58 diver and shipwreck author Rod Macdonald has created the most detailed account to date of the fast carrier strike force the force that brought Japan to its knees and brought the Second World War to its crashing conclusion [Air University Periodical Index](#) ,1955

Air University Library Index to Military Periodicals ,1955 **Nimitz at War** Craig L. Symonds,2022 From one of our most distinguished naval historians the first wartime biography in a half century of the man who guided America to victory in the Pacific in World War TwoThe most cataclysmic and consequential war in history produced more than its share of fascinating characters and great leaders Some have hardened into legend others fallen below the radar Somewhere in between sits Chester W Nimitz Commander in Chief of both the Pacific Fleet and the Pacific Ocean Area from 1941 to 1945 Nimitz demanded and received less attention than his Army counterpart Douglas MacArthur whose self promotion was prodigious He seemed less colorful than some of his subordinates such as Admiral Bill Bull Halsey and General Holland Howlin Mad Smith Yet Nimitz s was the guiding hand of Allied forces in the Pacific War and the central figure in the victory against Japan Craig L Symonds s full length portrait of Nimitz from the precarious early months following Pearl Harbor when Nimitz assumed command of the Pacific Fleet to the surrender ceremony in Tokyo Bay is the first in more than fifty years Using Nimitz s headquarters the eye of the hurricane as the vantage point Symonds covers the major campaigns from Guadalcanal to Okinawa He captures Nimitz s calm discipline homespun wisdom and uncanny sense of when to project authority and when to pull back illuminating how this helped him direct one of the largest and most complex campaigns in military history fought against an implacable foe The pressures Nimitz faced were crushing involving tactical and strategic decision making visualizing success while mindful of the welfare of those who served under him soldiers sailors and Marines He had to corral assertive subordinates and keep them focused on the larger objectives and maintain a strong working relationship with his own superiors including the equally formidable Admiral Ernest J King and President Franklin D

Roosevelt In addition Nimitz had to deal with the public spectacle of war managing the expectations of a nation both expecting victory and longing for the carnage to end In retrospect it seems impossible to imagine anyone else could have accomplished all this As Symonds absorbing dynamic and authoritative portrait reveals it took leadership asked of and exhibited by few others Behind Nimitz s unflappable professionalism and reservoirs of charm were a resolve and audacity that became evident when most needed

Leadership Embodied, 2nd Edition Joseph J Thomas,2013-10-15

Leadership is a most demanding undertaking How do some people make it seem so simple so natural and instinctive In the age old debate as to whether leaders are born or made Thomas contends that the answer is both Great leaders throughout history were born with certain capabilities Preparation honed those capabilities Then that ability and preparation were combined with a will to lead When circumstances demanded the great leaders of history pulled these attributes together to create results that drove the course of history While leaders are present in every aspect of human undertaking we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings war and the preparations for war Wartime leaders are leaders writ with a darker pen Wartime challenges are because of the life and death nature of the affair more monumental and exacting In the selection of individuals to illustrate each point we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat Further we chose American leaders with a distinct and obvious bias towards the navy and Marine Corps Multiple reasons led us to our approach for Leadership Embodied First a biography is perhaps the most effective method for imparting leadership lessons

Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring. Second, our biographical examples are familiar to most or at least they should be. Finally, all of these historical selections have dramatically shaped today's institutions, practices, and customs within the naval services. These are not marginal figures with marginal influence. The individuals included and their respective leadership attributes should be required reading for any student of leadership. Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer. This book does not promise to be a panacea. There is no short cut. Leadership does not follow a prescribed path. We study examples to inspire us to become better, to be strong when it is easy to give in, and to know others have gone before us and faced insurmountable odds. Leadership, as an ill-defined social science, crosses boundaries with several disciplines, including sociology, psychology, philosophy, and history. We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events. Our hope for this book is that these case studies illustrate the basic elements in themselves, the very essence of leadership. It is through inherent talent, arduous preparation, and practical experience that we become capable leaders. The reader brings the first to the table; then we offer a small token in the second pursuit, and circumstances enable the third.

First Blue Robert K. Wilcox, 2024-03-26

Robert K. Wilcox's First Blue presents the remarkable story of a true hero of American aviation during World War II. The U.S. Navy's Blue Angels are the most famous flight demonstration team in the world. While millions of aviation enthusiasts see their shows every year, the story of the man who formed the squadron has never been told. He is Roy Marlin Butch Voris, a World War II Ace and one of only two aviators ever to command the Blue Angels twice. First Blue details the epic journey of an unassuming man whose strong character and desire to fly launched him into a life of drama, heroism, and accomplishment unique in his field. Because he wanted to serve his country during World War II, a young Butch Voris found himself flying fighter planes as part of the pitifully prepared and outmanned front in the early stages of the Pacific theater. He was nearly killed there but went on to be a leader in one of the most fearsome naval air squadrons in the Pacific. As a pilot, Butch is unquestionably in the same class as more recognized aviator heroes such as Chuck Yeager and Pappy Boyington. While his World War II experience alone could comprise a book, Butch may be best known for his efforts in the creation of the naval air demonstration team, the Blue Angels. After the war, Voris was personally chosen by Admiral Nimitz to start the Blue Angels and to lead them first in prop planes and later in jets. The story of his efforts is as exciting as it is inspirational, and it's told here in meticulous detail and with great humor. Today, the Blue Angels still follow traditions established by Butch. Butch's involvement in military flight didn't end with the Blue Angels; he became a major player in the development of the F-14 Tomcat and NASA's Lunar Explorer Module for Grumman. Butch dedicated his life to his work, and here finally is the remarkable, untold account of this true American aviation pioneer and hero, a man whose life had unparalleled influence on naval aviation and whose legacy continues to inspire millions of Americans each year.

Encyclopedia of World War II Alan

Axelrod,2007 A reference to the ideological military political biographical and social topics surrounding World War II which is often considered the pivotal event of the twentieth century A Leader Born Alton Keith Gilbert,2006-08-19 This biography of one of World War II s great military leaders is a rich tribute to a staunch American naval hero WWII Quarterly John S Slew McCain was an old school sailor Wiry profane a cusser and a gambler he reminded more than one observer of Popeye He was also a pioneer in the hard hitting naval tactics that brought Imperial Japan to its knees McCain graduated from Annapolis in 1906 and served aboard an armored cruiser in World War I Perceiving the future of naval warfare he earned his aviation wings in 1936 and by 1939 McCain was commander of the aircraft carrier USS Ranger He was thus well placed to play a leading role in America s cut and thrust war with the Japanese across the broad expanses of the Pacific In 1942 he was made commander of all land based aircraft during the campaign for Guadalcanal Though he took his share of blame for the disaster at Savo Island he counterattacked with every means at his disposal to the point of commandeering the planes of the crippled carriers Enterprise and Saratoga to reinforce US strength on Henderson Field By the time the US returned to the Philippines McCain was leading a fast carrier task force under William Bull Halsey When asked what he thought about his carrier commander Halsey replied Not much more than my right arm McCain s carrier group would destroy thousands of enemy planes and hundreds of ships with aggressive swarming tactics Four days after Japan officially surrendered McCain died in his bed His name has lived on however through his son who became commander of US naval forces in the Pacific and his grandson John S McCain III carrier pilot Vietnam POW and United States Senator Drawing upon a wealth of primary sources including information provided by the McCain family as well as an expert grasp of the titanic battles waged by the US armed forces in the Pacific Alton Keith Gilbert has provided the fullest account of the Admiral John McCain s life yet written *Naval Aviation News* ,1993 *Carriers in Combat* Chester G. Hearn,2007-06-11 Engaging combat narratives from World War II Korea Vietnam the Falklands War Desert Storm Bosnia Kosovo Afghanistan and the current Iraq War Razor sharp analysis of the roles of ships aircraft commanders tactics and strategy Aircraft carriers surged into prominence during World War II mainly in the Pacific where the U S and Japan fought history s greatest carrier battles like the Coral Sea and Midway Since then although there have been no engagements between carrier groups carriers have played an important role in world events serving as distant launching pads for attacks on targets around the globe From the first improvised wooden platforms to today s nuclear powered supercarriers Hearn explores how combat experiences have driven the development and use of carriers in the world s navies **Two Navies Divided** Brian Lavery,2023-11-30 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the

survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces

The Fast Carriers Clark G Reynolds, 2013-09-15 This classic study is considered essential reading for its analysis of fast aircraft carrier development in WWII It provides a fascinating record not only of the U S Navy's metamorphosis from a battleship oriented to a carrier centered fleet but also of the heated debates that took place over the changing naval strategy With an insider's grasp of the famous individuals involved award winning naval historian Clark G Reynolds takes readers from the war rooms of Washington to the flight decks of the Pacific He vividly describes the battles over the concept of fast carriers between the air admirals and battleship admirals and offers little known details gleaned from personal interviews and private diaries

World War II at Sea Craig L. Symonds, 2018 Craig L. Symonds World War II at Sea offers a definitive naval history of the Second World War presenting the chronology of the naval war from The London Conference of 1930 to the surrender in Tokyo Bay in 1945 on a global scale for the first time

The Eagle and the Rising Sun Alan Schom, 2004 On Saturday August 2 1941 the Washington Post reported that President Franklin D Roosevelt would depart the next day for a fishing vacation aboard his yacht Potomac By the morning of August 5 the Potomac was sailing toward the fishing waters off Cape Cod but the president was not on board Having quietly disembarked in the middle of the night the president now joined by his top military advisors was headed for Newfoundland where the U S and British governments would meet in a secret summit to coordinate their military efforts although the

United States had yet to declare war on Germany The British were appalled at the state of American preparedness one British colonel remarking They have a long way to go before they can play any decisive part in the war But ready or not the United States would be catapulted into World War II within a matter of months Alan Schom s superb histories and biographies have been lauded for their dramatic sweep their focus on extraordinary personalities and their refreshingly iconoclastic perspective Schom begins this magisterial account of World War II in the Pacific by demonstrating an ironic paradox on one hand the American government and people were as inadequately prepared for war as any major power ever has been on the other the Japanese high command plunged headlong into the Pacific campaign despite clear evidence from their own analysts that Japan had too little oil and too feeble an economy to prevail against the United States It was a war that should not have been fought Schom recounts a tense saga of diplomatic maneuvering strategic blunders and pivotal successes played out in the halls of the White House Downing Street and the Imperial Palace as well as on the seas and shores of the Pacific Key figures in the war come vividly to life in a series of brilliant biographical sketches Emperor Hirohito a devotee of Western pursuits such as golf and jazz who hungered to expand Japan s global reach the destructively egotistical General Douglas MacArthur whose splendid achievements in World War I stood in stark contrast to his incompetent leadership in the Philippines Rear Admiral Kelly Turner whose realism and tactical savvy played a crucial role in turning the tide of the war and the cool headed Admiral Tanaka Raizo who repeatedly slipped through the Allied net transporting troops and supplies to and from Guadalcanal The Eagle and the Rising Sun embraces the broad strategic concerns of the war and the telling details and turning points of individual engagements As Rear Admiral Thomas Marfiak Ret CEO and publisher of the U S Naval Institute writes in the Foreword From time to time we are privileged to be given extraordinary insights into the history of our age Alan Schom has given us a tapestry into which he has woven figures of immense proportions yet he has not lost sight of their humanity He writes in the grand tradition of Barbara Tuchman s The Guns of August Book jacket If Mahan Ran the Great Pacific War John A. Adams,2008-07-15 Alfred Thayer Mahan s The Influence of Sea Power upon History 1660 1783 was one of the most influential books on military strategy in the first half of the 20th century A core text in the naval war colleges of the United States Britain and Japan Mahan s book shaped doctrine for the conduct of war at sea Adams uses Mahan s ideas to discuss the great Pacific sea battles of World War II and to consider how well they withstood the test of actual combat Reexamining the conduct of war in the Pacific from a single analytic viewpoint leads to some surprising conclusions about the Japanese attack on Pearl Harbor the Doolittle Raid the Battle of the Coral Sea the recapture of the Philippines and the submarine war Naval historians and armchair strategists alike will find much food for thought in these engrossing pages
