Boggs, 2019-11-15 More than a history of Western movies The American West on Film intertwines film history the history of the American West and American social history into one unique volume The American West on Film chronicles 12 Hollywood motion pictures that are set in the post Civil War American West including The Ox Bow Incident Red River High Noon The Searchers The Magnificent Seven Little Big Man and Tombstone Each film overview summarizes the movie's plot details how the film came to be made the critical and box office reactions upon its release and the history of the time period or actual event This is followed by a comparison and contrast of the filmmakers version of history with the facts as well as an analysis of the film's significance then and now Relying on contemporary accounts and historical analysis as well as perspectives from filmmakers historians and critics the author describes what it took to get each movie made and how close to the historical truth the movie actually got Readers will come
