Mahadev Govind Ranadé, His Life and Career ,1918 Rise of Reason Hulas Singh,2015-09-25 This book offers one of the first critical evaluations and in depth analysis of the intellectual movement in Maharashtra in the 19th century Arguing against the prevalent view that Indian rationality was imported from Europe through the colonial agency it traces the rational roots of the movement to indigenous intellectual traditions and history It also questions the centrality assigned to the Bengal Renaissance as being the representative of the contemporary intellectual movement in the country Strongly grounded in primary research this volume brings forth many new facts and facets into the scholarly discourse on topics such as the idea of Drain and the rise of Indian nationalism so far seen as a predominantly political process divorced from its cultural dimensions It re examines the view that cultural consciousness that preceded political agitation was a separate sphere of

activity and suggests that both were integral stages of anti colonialism in the country The author maintains that rationalism and nationalism were closely connected as a means and end continuum He also provides a new and substantially different understanding of the 19th century intellectuals Mahatma Jotirao Phule and Pandita Ramabai among others Lucid accessible and thought provoking this book will interest scholars and researchers of modern Indian history Indian political thought sociology philosophy and Marathi literature
