Main Currents in Sociological Thought Raymond Aron, 2017-07-12 In this second volume of *Main Currents of Sociological Thought* Raymond Aron continues the analysis begun in the first volume of the great doctrines of historical sociology Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim the great French theorist of consensus who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from Durkheim's project for a science of society Pareto's exaggerated critique of humanitarianism and Weber's tragic pessimism Aron's book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of Max Weber the sociologist par excellence in Aron's view Together with volume 1 which treats the work of Montesquieu Comte Marx and Tocqueville it forms the definitive survey of the great social thinkers to date Yet as Daniel J Mahoney and Brian C Anderson explain in their introduction *Main Currents* is more than a survey it is above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history

Vilfredo Pareto's Contributions to Modern Social Theory Christopher Adair-Toteff,2023-10-02 This volume seeks to restore Vilfredo Pareto to his rightful place in the history of social and economic thought bringing together studies by leading scholars to mark the centenary of his death in 1923 Assessing Pareto's many contributions to the social sciences and his unique integration of the disciplines of sociology politics and economics it addresses the relative neglect of Pareto's work and explores both his continuing relevance to social research and the influence of his thought on subsequent developments in sociology and social theory As such it will appeal to scholars across the social sciences with interests in the history of sociology and the importance of Pareto's thought *Main Currents in Sociological Thought: Montesquieu, Auguste Comte, Karl Marx, Alexis de Tocqueville, the sociologists and the Revolution of 1848* Raymond Aron,1965 **Sociological Thought** M. Francis Abraham,John Henry Morgan,1989 Designed as a first line introductory text to the study of sociological thought this book is now considered a classic in the field and is a top seller in the Third World for university courses in sociological theory The perspective is cross cultural The main currents of sociological thought says the authors advanced by the founders and the later masters represent different times various cultural contexts and the many intellectual cross current

representatives of each s time period Rigorously defined and not necessarily appropriately these early thoughts were merely ideas rather than soundly constructed theories for building blocks of theoretical development They provide insights into and perspectives on the structure and functioning of social systems and the conceptual frameworks for their systematic analysis The history of sociology then is the history of social thought This volume provides a carefully constructed look into the emerging social thought of the twentieth century as reflected in the emerging discipline of sociology *European Traditions in the Study of Religion in Africa* Ulrich Berner, Christoph Bochinger, 2004 This volume comprises case studies of five centuries of European encounters with and imaginations of Africa encompassing her triple religious heritage African Traditional Religions Christianity and Islam The introductory chapters outline the challenges and present overviews some of them also analyze the early accounts of European travelers and missionaries The following contributions examine the lasting legacy of the European Enlightenment in employing an ambivalent language of human equality and universalism while in actual fact consigning Africa to an inferior position It has been difficult for western scholars to divorce themselves wholly from the perceptions thus established However there have been quite different approaches This is indicated in the papers discussing the role and impact of influential European academics scholars of religion theologians historians and social scientists during the colonial and postcolonial period Other contributions examine specific institutional centers of African religious studies in Europe The concluding chapters critically assess European approaches and their use for the study of religion in Africa from an African perspective

Nietzsche and Sociology Anas Karzai, 2019-04-18 Nietzsche and Sociology Prophet of Affirmation is about Friedrich Nietzsche s sociological reading of modern industrial society Nietzsche is often identified as a philosopher but his uniquely sociological theories and ideas have been disregarded and unacknowledged in the social sciences This work

examines the reasons why Nietzsche has been ignored in sociological literature despite the evidence that most classical and modern sociological thinkers have been profoundly influenced by him This book argues that the discipline of sociology would benefit by seriously considering the sociological elements in Nietzsche s prolific work as a way of reevaluating not only the tradition of sociology but also the sociology of tradition His major contributions on rethinking traditional sociological theories and concepts in terms of their moral origins make it impossible for the social sciences to continue overlooking Nietzsche as a critical sociological thinker His conception of non economic power has become progressively more salient Given the current juncture of humanity on the brink Nietzsche s affirmative philosophy of life is a breath of fresh air He remains an intellectual force to be reckoned with and may just be the remedy to our present civilizational malaise *French Intellectual Nobility*

Niilo Kauppi,1996-11-26 French thinkers like Roland Barthes Pierre Bourdieu A J Greimas Michel Foucault and Claude Levi Strauss created the structuralist and poststructuralist movements They succeeded Sartrian existentialism and formed a new aristocracy of culture *French Intellectual Nobility* is the first study to examine the conditions for the creation of these movements Through case studies in cultural history sociology semiology and literature the book discusses the processes that enabled the French intellectual nobility to reinvent itself By developing a historical and comparative approach Kauppi analyzes the challenges that an intellectual generation faced and he contributes to a context sensitive analysis of culture and power

Social Theory and Human Reality Pertti Alasuutari,2004-09-23 This book gets to the heart of what the social sciences really know about the elusive and contradictory object of research human reality

Social Class and State Power David M. Hart,Gary Chartier,Ross Miller Kenyon,Roderick T. Long,2017-11-29 This book explores the idea of social class in the liberal tradition It collects classical and contemporary texts illustrating and examining the liberal origins of class analysis often associated with Marxism but actually rooted in the work of liberal theorists Liberal class analysis emphasizes the constitutive connection between state power and class position *Social Class and State Power* documents the rich tradition of liberal class theory its rediscovery in the twentieth century and the possibilities it opens up for research in the new millenium
