Main Currents Of Marxism The Founders The Golden Age The Breakdown:

Main Currents of Marxism Leszek Kołakowski, 2005 The commanding study of Marxism now in one masterful volume with a new preface and epilogue by the author **Main Currents of Marxism** Leszek Kolakowski, 2007-12-25 Leszek

Kolakowski's masterpiece one of the twentieth century's most important books for the first time in a one volume paperback Renowned philosopher Leszek Kolakowski was one of the first scholars to reveal both the shortcomings and the dangers posed by communist regimes He now presents for the first time in one paperback volume his definitive Main Currents of Marxism A prophetic work according to the Library of Congress that provides the most lucid and comprehensive history of the origins structure and posthumous development of the system of thought that had the greatest impact on the 20th century

Main Currents of Marxism: The golden age Leszek Kołakowski, 1978 *Main Currents of Marxism: The breakdown* Leszek Kołakowski, 1981 The Devil in History Vladimir Tismaneanu, 2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus François Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness Red Plenty Francis Spufford, 2012-02-14 Spufford cunningly maps out a literary genre of his own Freewheeling and fabulous The Times London Strange as it may seem the gray oppressive USSR was founded on a fairy tale It was built on the twentieth century magic called the planned economy which was going to gush forth an abundance of good things that the lands of capitalism could never match And just for a little while in the heady years of the late 1950s the magic seemed to be working Red Plenty is about that moment in history and how it came and how it went away about the brief era when under the rash leadership of Khrushchev the Soviet Union looked forward to a future of rich

communists and envious capitalists when Moscow would out glitter Manhattan and every Lada would be better engineered than a Porsche It s about the scientists who did their genuinely brilliant best to make the dream come true to give the tyranny its happy ending Red Plenty is history it s fiction it s as ambitious as Sputnik as uncompromising as an Aeroflot flight attendant and as different from what you were expecting as a glass of Soviet champagne **An Invitation to Social**

Theory David Inglis,2024-11-05 Social theory is a crucial resource for the social sciences It provides rich insights into how human beings think and act and how contemporary social life is constructed But often the key ideas of social theorists are expressed in highly technical and difficult language that can hide more than it reveals The new edition of this popular book continues to cut to the core of what social theory is about Wide ranging in scope and coverage it is concise in presentation and free from jargon Covering key themes and schools of thought from the classical thinkers up to the present the third edition features a new chapter dedicated to post colonial sociological theory With updated literature and examples throughout the book also includes refreshed pedagogical features to connect theory to readers own life experiences Showing why social theory matters and why it is of far reaching social and political importance the book is ideal for readers seeking a clear crisp mapping of a complex but very rewarding area *Ernst Bloch's Speculative Materialism* Cat Moir,2019-12-09 In Ernst Bloch s *Speculative Materialism* Ontology Epistemology Politics Cat Moir offers a new interpretation of the philosophy of Ernst Bloch The reception of Bloch s work has seen him variously painted as a na ve realist a romantic nature philosopher a totalitarian thinker and an irrationalist whose obscure literary style stands in for a lack of systematic rigour Moir challenges these conceptions of Bloch by reconstructing the ontological epistemological and political dimensions of his speculative materialism Through a close historically contextualised reading of Bloch s major work of ontology *Das Materialismusproblem seine Geschichte und Substanz* The Materialism Problem its History and Substance Moir presents Bloch as one of the twentieth century s most significant critical thinkers **Culture Wars** Roger Chapman,2015-03-17 The

term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today

Shorten, 2012-11-15 *Modernism and Totalitarianism* evaluates a broad range of post 1945 scholarship Totalitarianism as the common ideological trajectory of Nazism and Stalinism is dissected as a synthesis of three modernist intellectual currents which determine its particular inherited character **European Liberty** P. Manent, R. Hausheer, W. Karpinski, W. Kaiser, 2012-12-06 This book has been published to mark the twenty fifth anniversary of the Erasmus Prize and underline the importance of the four laureates who received the Prize in the jubilee year Raymon Aron Isaiah Berlin Leszek Kolakowski and Marguerite Yourcenar can be considered four outstanding representatives of the unique European intellectual tradition that is characterised by its critical sense and respect for freedom of the individual It is for this reason that they have been awarded the Erasmus Prize The essays included in this book are devoted to these four personalities a Frenchman strongly influenced by the German philosophical tradition a Russian who has settled in Oxford a philosopher banned from his native Poland and a Frenchwoman of Belgian origin living in America Each has demonstrated in his or her own way that the ideas on and ideals of European culture and tradition are of lasting value Each recognizes that human values can only flourish in a pluralistic society a society in which *le juste milieu* must constantly be sought The temptation to succumb to monistic dogmatic and intolerant tendencies that continue to threaten our civilisation not only from the outside but also from within must be continually resisted The dignity of man reaches full maturity first and foremost in a society in which man is the moulder and maker of himself and freedom of the individual stands central *The Struggle for Liberty* Ralph Raico, 2025-03-17 Ralph Raico a student of Ludwig von Mises was a historical revisionist in the best sense of the word He cared not for ideological pedigrees or bias he sought the grace of truth wherever it took him In *The Struggle for Liberty* readers will find a wide ranging look at the history of the West which draws upon ideological trends that began in late antiquity and developed in the Middle Ages Raico highlights important characteristics of Western history such as the tension between secular power and church power and how this fostered political decentralization and economic development in the West Raico outlines how the *laissez faire* liberals led the fight against absolutism in the seventeenth century and how they

revolutionized European and American politics in the eighteenth century He goes on to cover in detail the works and insights of the radical liberals in the nineteenth century who won important battles against protectionism socialism imperialism and militarism Modern readers looking to broaden their knowledge of political history beyond the usual often repeated narratives will likely find many refreshing new details here Beginners may also find this book to be a fruitful starting point for studying the history of Western political thought Adapted from ten lectures delivered in 2004 this newly edited text includes hundreds of footnotes allowing historians and other scholars to examine the lectures source material in a way that has not been possible before Ralph Raico Ralph Raico 1936 2016 was professor emeritus in European history at Buffalo State College and a senior fellow of the Mises Institute He was a specialist on the history of liberty the liberal tradition in Europe and the relationship between war and the rise of the state He is the author of *The Place of Religion in the Liberal Philosophy of Constant Tocqueville and Lord Acton* **The Oxford Handbook of Buddhist Ethics** Daniel Cozort,James Mark Shields,2018 A comprehensive overview of the study of Buddhist ethics in the twenty first century *On Justice* Mathias Risse,2020-09-10 Though much attention has been paid to different principles of justice far less has been done reflecting on what the larger concern behind the notion is In this work Mathias Risse proposes that the perennial quest for justice is about ensuring that each individual has an appropriate place in what our uniquely human capacities permit us to build produce and maintain and is appropriately respected for the capacity to hold such a place to begin with Risse begins by investigating the role of political philosophers and exploring how to think about the global context where philosophical inquiry occurs Next he offers a quasi historical narrative about how the notion of distributive justice identifies a genuinely human concern that arises independently of cultural context and has developed into the one we should adopt now Finally he investigates the core terms of this view including stringency moral value ground and duties of justice
