Main Street, U.S.A., in Early Photographs Cynthia Read-Miller, 1988 Over 100 vintage photos of busy American commercial districts ca 1890 1915 from Albuquerque and El Paso to Little Rock and Baltimore Published in association with Henry Ford Museum and Greenfield Village *Encyclopedia of Nineteenth-Century Photography* John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide Downtown America Alison Isenberg, 2009-05-15 Downtown America was once the vibrant urban center romanticized in the Petula Clark song a place where the lights were brighter where people went to spend their money and forget their worries But in the second half of the twentieth century downtown became a shadow of its former self succumbing to economic competition and commercial decline And the death of Main Streets across the country came to be seen as sadly inexorable like the passing of an aged loved one Downtown America cuts beneath the archetypal story of downtown s rise and fall and offers a dynamic new story of urban development in the United States Moving beyond conventional narratives Alison Isenberg shows that downtown s trajectory was not dictated by inevitable free market forces or natural life and death cycles Instead it was the product of human actors the contested creation of retailers developers government leaders architects and planners as well as political activists consumers civic clubs real estate appraisers even postcard artists Throughout the twentieth century conflicts over downtown s mundane conditions what it should look like and who should walk its streets pointed to fundamental disagreements over American values Isenberg reveals how the innovative efforts of these participants infused Main Street with its resonant symbolism while still accounting for pervasive uncertainty and fears of decline Readers of this work will find anything but a story of inevitability Even some of the downtown s darkest moments the Great Depression s collapse in land values the rioting and looting of the 1960s or abandonment and vacancy during the 1970s illuminate how core cultural values have animated and intertwined with economic investment to reinvent the physical form and social experiences of urban commerce Downtown America its empty stores revitalized marketplaces and romanticized past will never look quite the same again A book that does away with our most clichéd approaches to urban

studies Downtown America will appeal to readers interested in the history of the United States and the mythology surrounding its most cherished institutions A Choice Outstanding Academic Title Winner of the 2005 Ellis W Hawley Prize from the Organization of American Historians Winner of the 2005 Lewis Mumford Prize for Best Book in American Planning History Winner of the 2005 Historic Preservation Book Prize from the University of Mary Washington Center for Historic Preservation Named 2005 Honor Book from the New Jersey Council for the Humanities

**The Shaping of America: A Geographical Perspective on 500 Years of History** D. W. Meinig, 1986-01-01 Volume one examines how an immense diversity of ethnic and religious groups ultimately created a set of distinct regional societies Volume two emphasizes the flux uncertainty and unpredictability of the expansion into continental America showing how a multitude of individuals confronted complex and problematic issues

**Imperial Islands** Joseph R. Hartman, 2021-11-30 When the USS Maine mysteriously exploded in Havana's harbor on February 15 1898 the United States joined local rebel forces to avenge the Maine and liberate Cuba from the Spanish empire Remember the Maine To Hell with Spain So went the popular slogan Little did the Cubans know that the United States was not going to give them freedom in less than a year the American flag replaced the Spanish flag over the various island colonies of Cuba Guam Puerto Rico and the Philippines Spurred by military successes and dreams of an island empire the US annexed Hawaii that same year even establishing island colonies throughout Micronesia and the Antilles With the new governmental orders of creating new art architecture monuments and infrastructure from the United States the island cultures of the Caribbean and Pacific were now caught in a strategic scope of a growing imperial power These spatial and visual objects created a visible confrontation between local indigenous African Asian Spanish and US imperial expressions These material and visual histories often go unacknowledged but serve as uncomplicated proof for the visible confrontation between the US and the new island territories The essays in this volume contribute to an important art historical visual cultural architectural and materialist critique of a growing body of scholarship on the US Empire and the War of 1898 Imperial Islands seeks to reimagine the history and cultural politics of art architecture and visual experience in the US insular context The authors of this volume propose a new direction of visual culture and spatial experience through nuanced terrains for writing envisioning and revising US American Caribbean and Pacific histories These original essays address the role of art and architecture in expressions of state power racialized and gendered representations of the United States and its island colonies and forms of resistance to US cultural presence Featuring interdisciplinary approaches Imperial Islands offers readers a new way of learning the ongoing significance of vision and experience in the US empire today particularly for Caribbean Latinx Pilipinx and Pacific Island communities

the Great Depression through the early postwar years any postcard sent in America was more than likely a linen card  
Colorized in vivid often exaggerated hues and printed on card stock embossed with a linen like texture linen postcards  
celebrated the American scene with views of majestic landscapes modern cityscapes roadside attractions and other notable  
features These colorful images portrayed the United States as shimmering with promise quite unlike the black and white  
worlds of documentary photography or Life magazine Linen postcards were enormously popular with close to a billion  
printed and sold Postcard America offers the first comprehensive study of these cards and their cultural significance Drawing  
on the production files of Curt Teich Co of Chicago the originator of linen postcards Jeffrey L Meikle reveals how  
photographic views were transformed into colorized postcard images often by means of manipulation adding and deleting  
details or collaging bits and pieces from several photos He presents two extensive portfolios of postcards landscapes and  
cityscapes that comprise a representative iconography of linen postcard views For each image Meikle explains the postcard s  
subject describes aspects of its production and places it in social and cultural contexts In the concluding chapter he shifts  
from historical interpretation to a contemporary viewpoint considering nostalgia as a motive for collectors and others who  
are fascinated today by these striking images      *Moving Picture World and View Photographer* ,1916      **Card**
