Main Currents Mass Communications Edition Phillip H. Agee, Edwin Emery, Warren K. Ault, 1997-01-10 *Makers of the Media Mind* Wm. David Sloan, 2014-07-10 *Makers of the Media Mind* is a collection of analytical essays focusing on the most important and original ideas contributed to the field of mass communication by journalism educators. Divided into six sections representing the most prominent areas of specialization in the field, this text serves two significant purposes: first, it acquaints readers with the lives of preeminent journalism educators; second, it provides concise discussions and evaluations of the most compelling ideas those educators have to offer. The editor and contributors to this text contend that ideas cannot be appreciated fully without an understanding of the creators of those same ideas. They hope that this volume's coverage of creators as well as concepts will demonstrate that journalism education has played a critical role in the making of the media mind.

Makers of the Media Mind William David Sloan, 1990. First Published in 1990. Routledge is an imprint of Taylor Francis, an information company. *Maincurrents in Mass Communications* *Main Currents in Mass Communications Perspectives on Mass Communications* Edwin Emery, 1986. *Media Law and Ethics,, Third Edition* Roy L. Moore, Michael D. Murray, 2007-11-27. Extensively updated and expanded chapters provide more detailed explanations of the legal system, the judicial process, and the relationship between media ethics and media law. New cases in this developing area of the law that has attracted renewed attention from the U.S. Supreme Court, the new Telecommunications Act, and the Communications Decency Act are discussed, along with telecommunications and the Internet, new developments in access to courts, records, and meetings, such as recent court decisions and statutory changes, and more information about trademark and trade secret laws and recent changes in copyright laws, as well as major court decisions on intellectual property. The book has also been updated to include new developments in obscenity and indecency laws, such as the Communications Decency Act and the U.S. Supreme Court decision in *Reno vs. ACLU*. In addition, the instructor's manual includes a listing of electronic sources of information about media law, sample exams, and a sample syllabus.

Media and Environment Libby Lester, 2010-12-13 Drawing on a range of international examples Libby Lester invites readers to develop a nuanced understanding of changing media practices and dynamics by connecting local national and global environmental issues journalistic practices and news sources public relations and protests and the symbolic and strategic circulation of meanings in the public sphere *The Ivory Tower of Babel* David Demers, 2011 Mainstream social science has come under fierce criticism in recent decades for failing to have more impact on public policy Critics say the social sciences are incapable of generating knowledge that can solve social problems Others contend that partisan politics and university administrations are the problem Politicians are more concerned about special interests than scientific research and administrators care more about scholarly publications than solving social problems Are the social sciences failing to live up to their promises Have they outlived their usefulness Have they become an Ivory Tower of Babel Like the Babylonians who built the infamous Tower of Babel social scientists for the past two centuries have been building a tower of sorts only this time it is composed of knowledge rather than bricks The primary goal of these scholars anthropologists communication scholars economists political scientists sociologists and social psychologists has been to solve problems of social integration The Babylonian tower was designed in part to unite people to one geographical area Similarly social scientists see their tower of knowledge as a means for solving social problems such as poverty crime drug abuse inequality unemployment abuse of power that alienate people and groups from modern society The Babylonians failed because of divine intervention according to the Bible The social scientists aren't finished building their tower But according to critics the results so far look less like a tower of knowledge for solving social problems than an Ivory Tower of Babel one in which social scientists routinely dispute each other's theories and data and even uncontested or well supported findings rarely influence public policy Disputes over the nature of truth and knowledge are so commonplace in the social sciences that many scholars believe a social science which uses methods from the natural sciences is incapable of generating knowledge that can solve social problems This book examines the history and philosophy of the social sciences and theoretical and empirical research on the impact of social science Suggestions are offered at the end for enhancing the impact of the social sciences A number of scientific articles and books have been written about the impact or lack thereof of the social sciences on public policy but none has been written specifically to appeal to both academics and a broader market composed of the general public and students in both undergraduate and graduate level courses The author takes the reader on a journey inside one of the best kept secrets in higher education that much if not most of the research conducted in the social sciences has very little impact on public policy or on solving social problems Are taxpayers getting their money's worth **Making America** Luther S.

No Longer Newsworthy Christopher R. Martin,2019-05-15 Until the recent political shift pushed workers back into the media spotlight the mainstream media had largely ignored this significant part of American society in favor of the moneyed upscale consumer for more than four decades Christopher R Martin now reveals why and how the media lost sight of the American working class and the effects of it doing so The damning indictment of the mainstream media that flows through No Longer Newsworthy is a wakeup call about the critical role of the media in telling news stories about labor unions workers and working class readers As Martin charts the decline of labor reporting from the late 1960s onwards he reveals the shift in news coverage as the mainstream media abandoned labor in favor of consumer and business interests When newspapers especially wrote off working class readers as useless for their business model the American worker became invisible In No Longer Newsworthy Martin covers this shift in focus the loss of political voice for the working class and the emergence of a more conservative media in the form of Christian television talk radio Fox News and conservative websites Now with our fractured society and news media Martin offers the mainstream media recommendations for how to push back against right wing media and once again embrace the working class as critical to its audience and its democratic function

ethics as well as revised subject and case indices In addition to a separate chapter devoted exclusively to media ethics by Michael Farrell a new chapter on international and foreign law by Dr Kyu Ho Youm has also been added Resources on the companion website include updated PowerPoint presentations and a sample syllabus for instructors and a glossary chapter review questions chapter quizzes and all seven of the book s original appendices for students An excellent integration of both law and ethics this is the ideal text for undergraduate and graduate courses in media law and ethics *Monthly Catalog of United States Government Publications* ,1987 *Reading Marx in the Information Age* Christian Fuchs,2015-10-23

Renowned Marxist scholar and critical media theorist Christian Fuchs provides a thorough chapter by chapter introduction to Capital Volume 1 that assists readers in making sense of Karl Marx s most important and groundbreaking work in the information age exploring Marx s key concepts through the lens of media and communication studies via contemporary phenomena like the Internet digital labour social media the media industries and digital class struggles Through a range of international current day examples Fuchs emphasises the continued importance of Marx and his work in a time when transnational media companies like Amazon Google and Facebook play an increasingly important role in global capitalism Discussion questions and exercises at the end of each chapter help readers to further apply Marx s work to a modern day context Pressing the Police and Policing the Press Scott Memmel,2024-06-28 In the second half of 2020 and continuing into 2021 protests against racial injustice spread across the United States after the death of George Floyd while in the custody of Minneapolis Police Department officers Members of the press covered these demonstrations documenting what transpired and conveying the important messages involved In so doing the news media held law enforcement accountable through critical reporting on the actions of the police with police officers responding in part by intimidating journalists in the field using force and arrest this in the name of keeping the peace and protecting the public from further harm What transpired during this troubled time cast a bright light on the contemporary relationship between the press and police in the United States The relationship between these two fundamental institutions is however a long and complicated one dating back to colonial British North America In the mid 19th century 1830s 1850s both the press and the police began to take their modern forms and since then have continued to develop routinely interacting with each other as journalists and police officers often found themselves responding to the same crimes and events At times members of both institutions managed to co exist or even cooperate and made efforts to help one another while at other times they butted heads to the point of conflict the professional boundaries between journalists and police officers seemingly blurred As both the press and the police have fallen under deep scrutiny in more modern times the present moment marks what is perhaps an opportune time to focus on the political economic social and technological problems they face In Pressing the Police and Policing the Press Scott Memmel offers the first book length study of the history and legal landscape of the press police relationship Each chapter focuses on interactions between the press and the police during a particular era introducing relevant societal context and

how both institutions evolved and responded to that context Memmel concludes his study with recommendations on how going forward the press and the police might work together to tackle some of the similar issues they face and better serve the public *Communication Yearbook* 7 Robert N.
