

Gender Mainstreaming in Early Childhood Education

Elli Scambor, Men's Counselling Centre Graz / Jens Krabel, Dissens e.V. Berlin

The following paper is a proposal for how a process of change towards gender equality in early childhood education can be implemented in five steps: Formulation of main objectives/ Gender Analysis /Formulation of subordinated targets /Implementation of measures / Evaluation. These Steps should not be perceived as completed process, rather as an open spiral, where evaluation is followed by analysis and the development of new objectives and/or subordinated targets.

I. Main Objectives

The strategy Gender Mainstreaming implies a clear gender equality main objective, but it has to be concretised for a certain field of interest. The project partners of Gender Loops have developed the following main objectives for gender equality in early childhood education:

- Enlarge gender identities of children, educators, parents, students and teachers.
- Improve the equal allocation of resources (executive positions, money, time, attention) among children, educators, parents, students and teachers
- Improve the gender competence (gender knowledge) and gender sensibility among children, educators, parents, students and teachers
- Increase the proportion of men participating in the training for educators and as educators, respectively.

II. Analysis

In a second step, the structure of institutionalised early childhood education should be analysed. Therefore the 3-R Method of gender analysis, developed by the Swedish scientist Gertrud Aström, will give evidence to gender specific disparities.

The Exceptional Child Glynnis Edwards Cowdery,K. Eileen Allen,2011-01-01 THE EXCEPTIONAL CHILD INCLUSION IN EARLY CHILDHOOD EDUCATION International Edition is the most comprehensive and applied text available on early childhood special education The text covers foundational issues facing teachers parents and paraprofessionals working in inclusive early childhood settings It begins with definitions and explanations of key topics such as inclusion federal legislation related to young children with disabilities and different kinds of disabilities that early childhood educators may encounter in their programs Then it covers various applied issues and strategies related to early childhood inclusion such as how to teach effectively and how to manage problematic behaviors The Developmental Behavioral approach and the importance of classroom arrangement are stressed throughout Current research related to early childhood education and inclusion is also cited The authors explain how to effectively work with a diverse group of children that may contain more than one child with significant challenges and how to design optimal learning at the individual and group levels In addition the authors address how to give parents and caregivers a role in the special education process while encouraging children to gain independence

and facilitating their self care **Inclusion in Early Childhood Programs** K Eileen Allen,Rachel Langford,Glynnis Edwards Cowdery,Karen Nolan,Bernice Cipparrone,Carol L. Paasche,2019 **Educating Young Children With and Without Exceptionalities** Tachelle Banks,Festus E. Obiakor,Jessica Graves,Anthony F. Rotatori,2019-02-01 Early childhood education ECE has always been intertwined with the use of developmentally appropriate practice DAP To support excellence in ECE it is critical how the knowledge about individual children and child development principles combined with the knowledge of effective early learning practices Effective early childhood education involves an interdisciplinary collaborative process that is influenced by many factors We present these aforementioned realities in Educating Young Children With and Without Exceptionalities New Perspectives In addition we argue that general and special educators need to focus on applying new knowledge to better address critical issues that advance the field of educator preparation and improve educational outcomes for young children Early childhood research confirms the need for intensive intervention and remedial education we need to avoid approaches that are too little or too late Also proven to yield positive results for children are practices familiar to early childhood educators These practices include relationship based teaching and learning partnering with families adapting teaching for children from different backgrounds and for individual children active meaningful and connected learning and smaller class sizes Evidence of the benefits of these practices suggests that they should be extended more widely into the elementary grades **Adapting Early Childhood Curricula for Children in Inclusive Settings** Ruth E. Cook,Annette Tessier,M. Diane Klein,1996 This comprehensive book takes a non categorical approach to preparing future early childhood teachers to help infants and young children with disabilities meet their challenges and develop to their fullest potential The result is a versatile and compelling resource of field experience Coverage is organized around four themes how all young children learn children in the context of their family traditional developmental domains and the need to take a synthesized view of the whole child Dozens of developmentally appropriate activity based strategies for adapting curriculum to suit both children and their families are provided in every chapter For future early childhood education teachers who will work with exceptional children and need to focus on special needs rather than special labels
