Menzies To Keating The Development Of The Australian Prime Ministership:

Menzies to Keating Glyn Davis, 1993 This work explores the relationship of the Prime Minister with the principal forces of the Australian political system since World War II The subject is treated thematically with each contributor discussing the Prime Minister's links with cabinet the bureaucracy the parliament the party the media the electorate and the wider world Two concluding chapters draw together the strands of the analysis one asks to what extent the Australian Prime Minister has become an American president the other draws broader conclusions about the nature of the Australian political system that are reflected in the office of Prime Minister *New Developments in Australian Politics* Brian Galligan, Ian McAllister, John Ravenhill, 1997 An overview of contemporary issues in Australian politics Part I examines the operation of the political system and political culture Part II looks at issues such as republicanism and citizenship Part III examines Australia's recent attempts to reshape defence and foreign policy in response to the post Cold War international environment and Australia's response to the impact of globalisation on the economy Includes references and index Also available in paperback The 14 contributors include Clive Bean Graeme Cheeseman and Glyn Davis Prime Ministerial Power in Canada Patrice Dutil, 2017-06-09 Many Canadians lament that prime ministerial power has become too concentrated since the 1970s This book contradicts this view by demonstrating how prime ministerial power was centralized from the very beginning of Confederation and that the first three important prime ministers Macdonald Laurier and Borden channelled that centralizing impulse to adapt to the circumstances they faced Using a variety of innovative approaches Patrice Dutil focuses on the managerial philosophies of each of the prime ministers as well as their rapport with senior public servants resistance to genuine public sector reform and use of orders in council to further their aims He then compares their managerial habits during times of crisis to those during ordinary times This is the first book to examine the administrative habits of these three prime ministers In it Dutil offers revealing insights into the evolution of prime ministerial power He also shows how this centralizing grip of these early first ministers inevitably shaped the administrations they headed as well as those that followed **Understanding Prime-Ministerial Performance** Paul Strangio, Paul 't Hart, James Walter, 2013-03-28 Prime ministers stand at the apex of government and loom large in the consciousness of the nations they lead This book examines how prime ministers operate and how their performance as public leaders can be understood and evaluated *Australia's Nuclear Policy* Michael Clarke, Stephan Frühling, 2016-03-03 Australia's Nuclear Policy Reconciling Strategic Economic and Normative Interests critically re-evaluates Australia's engagement with nuclear weapons nuclear power and the nuclear fuel cycle since the dawn of the nuclear age The authors develop a holistic conception of nuclear policy that extends across the three distinct but related spheres strategic economic and normative that have arisen from the basic dual use dilemma of nuclear technology Existing scholarship on Australia's nuclear policy has generally grappled with each of these spheres in isolation In a fresh evaluation of the field the authors investigate the broader aims of Australian nuclear policy and detail how

successive Australian governments have engaged with nuclear issues since 1945 Through its holistic approach the book demonstrates the logic of seemingly conflicting policy positions at the heart of Australian nuclear policy including simultaneous reliance on US extended deterrence and the pursuit of nuclear disarmament Such apparent contradictions highlight the complex relationships between different ends and means of nuclear policy How successive Australian governments of different political shades have attempted to reconcile these in their nuclear policy over time is a central part of the history and future of Australia's engagement with the nuclear fuel cycle *The Craft of Governing* R.A.W. Rhodes, 2020-08-02 Bargaining and puzzling power and thought dealing and agonising compromise and commitment These are two sides of political practitioners whether politician public servant or campaigner Understand the interplay and we can just sometimes make sense of the real world we seek to interpret Patrick Weller's observation comes from half a century of contemplating politics in action The question of how government works lies at the heart of political science and it has also been the career focus of this pioneer in the field The Craft of Governing offers a tribute to the contribution of Patrick Weller to Australian political science with chapters from leading political commentators including Michelle Grattan Peter Shergold Bob Jackson and James Walter Contributors consider the role of the prime minister approaches to studying executive government the continuing significance of senior public servants and the nature of leadership in public bureaucracies They also reflect on how insights from the study of domestic public policy can be applied to international organisations challenges faced by Westminster democracies and approaches to political biography The Craft of Governing is an invaluable resource for readers interested in approaches to studying politics and the development of political science as a discipline

Parliamentary Government in Australia Alan J. Ward, 2014-02-15 Alan J Ward combines constitutional history and political science to compare all nine of Australia's political systems federal state and territorial from colonial times to the present Guided by a model of parliamentary government drawn from comparative politics he considers the following key topics the selection of the government the prime minister and cabinet government control of the lower house the primacy of the lower house in bicameral systems the head of state the influence of Australian federalism on parliamentary government and the growth of executive democracy in Australia Ultimately Ward argues that as only one of Australia's nine constitutions accurately describes parliamentary government as practiced in the country it is a democratic imperative that the other eight be rewritten *Australia-China Relations post 1949* Yi Wang, 2016-04-08 This book challenges the common perceptions of Australian dependence upon great power allies in the conduct of its foreign relations through a critical examination of Australia's relations with the People's Republic of China The author focuses on the economic and political dimensions of the policy making process from the founding of the PRC in 1949 to the present era against an analytical framework that takes into account both internal and external factors in the formulation and implementation of Australian foreign policy Informed by political science and international relations the book differs from the conventional literature on Sino Australian relations

which has either focused on pure economic analysis or concentrated on chronicling historical events The author weaves theoretical insights from political science and international relations into the historical analysis while seeking to examine the interplay between political and economic factors over time in shaping policy outcomes The book draws not only on primary and secondary sources but also on information and insights obtained from interviews with a vast array of direct participants in the policy process including almost all the former ambassadors from both China and Australia covering the entire period of the diplomatic relationship As a result the book breaks new ground especially from the Hawke era onwards revealing hitherto overlooked details of interest in the policy process *Administering the Summit* NA NA,2016-04-30 Speaking truth to power demands diplomatic skills This book looks at the way advice which is needed by all executives is provided to the summit of government in twelve advanced industrialized countries Australia Belgium Britain China Denmark France Germany Italy Japan Spain Sweden and the US It examines the increasing pressures for centralization as core executives confront the differentiation and pluralization of government and the interplay of constitutional political and institutional factors Australia Reshaped Geoffrey Brennan,Francis G.
