Mughal-Indian Relations During Sixteenth Century:

Mughal-Indian Relations Karim Najafi Barzegar, 2000 Time, History and the Religious Imaginary in South Asia Anne Murphy, 2012-03-12 Religious imaginary is a way of conceiving and structuring the world within the conceptual and imaginative traditions of the religious. Using religious imaginary as a reference, this book analyses temporal ideologies and expressions of historicity in South Asia in the early modern pre colonial and early colonial period. Chapters explore the multiple understandings of time and the past that informed the historical imagination in various kinds of literary representations including historiographical and literary texts, hagiography and religious canonical literature. The book addresses the contributing forces and comparative implications of the formation of religious and communitarian sensibilities as expressed through the imagination of the past and suggests how these relate to each other within and across traditions in South Asia. By bringing diverse materials together, this book presents new commonalities and distinctions that inform a larger understanding of how religion and other cultural formations impinge on the concept of temporality and the representation of it as history. Studies on Persianate Societies: Volume 1 (2003/1382), 2025-01-27 Studies on Persianate Societies is an interdisciplinary publication that offers original research on the culture and civilisation of the geographical area where Persian has historically been the dominant language or a major cultural force encompassing Iran, Afghanistan and Tajikistan as well as the Caucasus, Central Asia, the Indian Subcontinent and parts of the former Ottoman Empire. It also offers regular surveys of relevant books published in Iran, India and Pakistan, Russia and the Commonwealth of Independent States. This publication is the predecessor of the Journal of Persianate Studies. **Roots of North Indian Shi'ism in Iran and Iraq: Religion and State in Awadh, 1722-1859** Juan R. I. Cole, 2024-11-28 In this pioneering study of the Twelver Shi'i branch of Islam prevalent in Iraq and Iran, Juan R. I. Cole traces the influence of Shi'i rule on the development of religious communalism and conflict in the north Indian State of Awadh (Oudh) as well as the relationship of the Shi'i clergy to the state and the clerical reaction to British imperialism and capitalism. Based on research in rare manuscripts and in archives, the book reveals that the Shi'i clergy advocated policies that caused resentment among Sunnis and Hindus, thereby promoting religious communalism and setting the stage for modern communal conflict. The Shi'i learned men took government posts in support of Awadh's Shi'i nawabs and shahs. Awadh state support in turn helped transform Shiism from a persecuted sect to a dominant, if still minority, religious establishment. Sociologically, the book draws attention to the specific role of the state in defining sect and church. It also argues the importance of class divisions within the Shi'i community, showing that the dominant clerical ideology was often not accepted by the laboring strata. Cole's study supports the view that Muslim communalism in northern India had genuine historical roots and was not simply an elite strategy of modern Muslim politicians. Contrary to the arguments of some writers and to the image projected by Iran's current ayatollahs, he argues that most Shi'i clergy did not play a role of opposition to the state in premodern societies.
