Mukamba Tree:

The Mukamba Tree June Farquhar, 1974-01-01 Riches of the Forest Citlalli López Binnqüist, Patricia Shanley, 2004-01-01 **The Incorporated Wife** Hilary Callan, Shirley Ardener, 2022-08-24 Originally published in 1984 this book touches the private lives and professional responsibilities of men and women as it illustrates the comic as well as serious effects of the incorporation of wives into some important State and commercial institutions Beyond their domestic functions wives have in particular ways been valuable props to many a husband s career and many an employer s and the nation s interests For example the Army civil administrations at home and overseas and the police have without questioning depended on the services of wives given silently willingly or unwillingly Yet the nature of the relationship of these incorporated wives to the objectives of such institutions has until recently been largely unregistered in practice unrecorded in social and historical accounts and unstudied by analysts This book provides a wealth of ethnographic material Personal anecdotes and scholarly interpretations throw light on the conceptual systems underlying the workings and cultures of institutions as well as the construction of identities Many will find their experiences echoed here The issues raised are important not only for individual men and women for whom such incorporation may provide advantages as well as constraints but because of the bearing they have on our understanding of marriage especially since we cannot be sure this will continue in its present mode or as the dominant form of conjugal union As more married women assume greater responsibilities at work will their husbands give the same support to their wives and those who employ them as they themselves received Further it seems likely that wives may become less willing than in the past to render their services unacknowledged indeed this trend is already apparent We may ask then who will fill the gaps and how will institutions change The historical and contemporary studies here provide some base data and some theoretical approaches necessary for any who may wish to consider what will become increasingly acute practical questions Green Colonialism in Zimbabwe, 1890-1980 , *The People's Right to the Novel* Eleni Coundouriotis, 2014-09-15 This study offers a literary history of the war novel in Africa Coundouriotis argues that this genre aimed more specifically at African readers than the continent s better known bildungsroman tradition nevertheless makes an important intervention in global understandings of human rights The African war novel lies at the convergence of two sensibilities it encounters in European traditions the naturalist aesthetic and the discourse of humanitarianism whether in the form of sentimentalism or of human rights law Both these sensibilities are present in culturally hybrid forms in the African war novel reflecting its syncretism as a narrative practice engaged with the colonial and postcolonial history of the continent The war novel Coundouriotis argues stakes claims to collective rights that contrast with the individualism of the bildungsroman tradition The genre is a form of people s history that participates in a political struggle for the rights of the dispossessed *Under African Skies* Charles R. Larson, 2025-06-25 Spanning a wide geographical range this collection features many of the now prominent first generation of African writers and draws

attention to a new generation of writers Powerful intriguing and essentially non Western these stories will be welcome by an audience truly ready for multicultural voices **Necroclimatism in a Spectral World (Dis)order?** Artwell

Nhemachena,Munyaradzi Mawere,2019-06-25 Highlighting the problematiques of working with a narrow version of greenhouse effects or global warming this book posits the theory of necroclimatism that encompasses broader versions of greenhouse effects and global warming Conceiving cultures societies moral sensibilities epistemologies politics economies legal systems and religions of the formerly colonised peoples as greenhoused and entrapped in the heat of global apartheid and neo colonialism the book refuses to be confined to the pufferies of physical conceptualisations of greenhousing and global warming Underlining the supposed disposability and dispensability of colonised peoples the notion of necroclimatism explicates ways in which some people suffer various forms of death which have increasingly become a feature of global apartheid and neo colonialism that are cast in spectral sacrificial logics Deemed to constitute disposable bodies disposable cultures disposable politics disposable societies disposable epistemologies disposable religions disposable laws and disposable economies the sacrificed are in the age of climate catastrophism once again reminded that they have duties to die to become extinct in order to save the global spaceship that is sinking due to climate change and global warming This book therefore argues that in a sacrificial world dis order binaries between humans and animals good and evil moral and immoral the dead and the living necessarily vanish in the nefarious logic of what marks the era of climate catastrophism and the attendant necroclimatism The book further argues that a sacrificial world dis order is necessarily a posthumanist and postanthropocentric world dis order which should be never granted space in African worlds and even beyond The book thus raises fundamental questions for African anticipatory regimes and for this reason it is handy for scholars in political science sociology social anthropology development studies environmental studies agricultural studies legal studies food science geography religious studies and decolonial fields of studies Chindau-English and English-Chindau Vocabulary American Board Mission. Rhodesian Branch,1915 *Chitonga Vocabulary of the Zambesi Valley* A. W. Griffin,1915 *Alternative Voices* Oliver Freiburger,Magnus Ehtler,Afe Adogame,2013-07-17 When scholarship presents the histories belief systems and ritual patterns of specific religious groups it often privileges victorious and lite fractions of those communities to the detriment and neglect of alternative dissonant and resurgent voices The contributions in this volume which include case studies on various religious and academic contexts illustrate the importance of listening to those alternative voices for the study of religion
