Old Trolleybuses:

Old Trolleybuses David Kaye, 2011-04-19 Interest in old trolleybuses increased when it became obvious in the early 1960s that their days were numbered. More recently this interest has been boosted by the prospect of a new generation of trolleybuses serving the public in Britain in the twenty first century. Meanwhile hundreds of hours of loving care have been spent on restoring those trolleys which have survived over the years. They may be admired as static exhibits in Belfast, Cardiff, Dublin, Glasgow and London but rides can still be enjoyed on them at Carlton Colville, Suffolk and Sandtoft, North Lincolnshire. *Old Trolleybuses* traces the fascinating history of the trolleybus from the first experiments in this mode of electric transport carried out over one hundred years ago to the retirement of the trolleybus system in recent decades. [A-Z of British Trolleybuses](#) Stephen Lockwood, 2017-05-09 In the last century the trolleybus developed into a successful provider of public transport in many towns and cities around Britain. It is often described as being part tram and part motorbus. The trolleybus was a fast vehicle whose acceleration from rest was far superior to that of any motorbus. Added to this it was quiet and fume free and consumed home produced electricity generated using coal. During the last twenty years there have been many books about trolleybuses published but hardly any of these has tackled the subject from the vehicle manufacturers angle instead concentrating on individual trolleybus systems. This volume is therefore a summary of the British trolleybus describing each manufacturer and its products and then showing what happened to these vehicles throughout their life. It contains an alphabetical listing of all the manufacturers detailing company history and trolleybus types produced including production totals. A second alphabetical company by company listing gives full details of every trolleybus built for British use including data such as chassis number and any subsequent significant changes. As far as possible it is all presented in a non technical way. *Trolleybuses in Portugal* David Harvey, 2019-10-15 With a wealth of terrific previously unpublished photographs telling the story of trolleybuses in Portugal. [Walsall Trolleybuses 1931-1970](#) David Harvey, 2009-10-15 The history of Walsall's trolleybus system from its opening in 1931 to its closure in October 1970. *British Trolleybus Systems* Peter Waller, 2022-12-29 Although there had been experiments with the use of a new form of transport the trackless tram better known as the trolleybus during the first decade of the 20th century it was in June 1911 that Bradford and Leeds became the country's pioneering operators of trolleybuses. Some of the earliest operators were in Lancashire, northern England and Scotland indeed Scotland can lay claim to having both the first system in Britain to close Dundee in 1914 and the last to open Glasgow in 1949. This volume one of four that examines the history of all trolleybus operators in the British Isles focuses on Lancashire, Northern England, Scotland and Northern Ireland. [Belfast Trolleybuses](#) David Harvey, 2010-02-15 The history of Belfast's trolleybus system told through a fascinating collection of photographs. *Construction Costs and Operating Characteristics of Vintage Trolleys* Marta Jewell, 1992. **Trolleybus Twilight** Jim Blake, 2017-04-30 In this new photographic album from Pen Sword transport historian and photographer Jim Blake presents a fascinating selection of

R. Cummings, 1999 Until hard surface all weather thoroughfares were constructed and private automobiles became numerous residents of York County depended on trolleys for local transportation Many people commuted regularly to and from work on the electric cars which also carried children to school from September through June In the winter when streets roads and highways were buried under deep drifts powerful snowplows swiftly cleared the street railway tracks after severe storms so the trolleys could get through Maine's York County boasted more than 100 miles of trolley lines from 1907 through 1922 The World War I years were difficult for street railways throughout the United States Soon after the conflict ended automobiles began rolling off the assembly lines at progressively more attractive prices As the nation entered the aRoaring Twenties a more and more residents of York County acquired motorcars and no longer needed the trolleys that had served them so faithfully through the years *York County Trolleys* takes us on a visual journey from Kittery to Old Orchard Beach from Old Orchard to Portland and inland to Eliot South Berwick and Sanford **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Green Finance and Investment Promoting Clean Urban Public Transportation and Green Investment in Kazakhstan** OECD, 2017-10-24 This report discusses the main results of a project on how to reduce air pollution from urban public transport in Kazakhstan by providing an analysis for designing a green public investment programme in this sector *Urban Transit* Vukan R. Mengers,2017-09-04 Starting with the first horse drawn trolleys introduced by the San Diego Streetcar Company in 1886 San Diego s history included the growth and decline of several trolley systems After electricity arrived San Diego was the site of early experimentation for electric trolleys on the West Coast and home to a short lived cable car system In the 1890s sugar baron John D Spreckels purchased these failed lines and consolidated them into the San Diego Electric Railway This railway expanded rapidly leading to the development of new trolley suburbs at the turn of the century including North Park Normal Heights and Mission Beach Ridership waned with the Depression and the introduction of autobuses and though it temporarily rose during the war years this decline led to the dismantling of the trolley system in April 1949
