of their roles in creating the communities they want **New City Upon a Hill** Joseph Rocco Mitchell, David L. Stebenne, 2007-03-31 Published in anticipation of Columbias fortieth anniversary in 2007 this book showcases the history of one of the nations leading new towns Built from the brilliant plan developed by visionary designer James Rouse Columbias innovative design is the foundation for a unique community that has thrived for decades and flourishes today *The Spectral Within* Elena Miltiadis, 2025-10-01 Latina was founded in 1932 by the Fascist Regime and is often described by its inhabitants through its absences as a place where there is nothing The book examines the role of absence in place making and delves into the lived experience of Latina Through the analytical lens of haunting this work explores its inhabitants efforts to see their city as a meaningful social space as they navigate the city s multiple histories and the absent presence of the contested past *The City That Ate Itself* Brian James Leech, 2018-02-28 Winner of the Mining History Association Clark Spence Award for the Best Book in Mining History 2017 2018 Brian James Leech provides a social and environmental history of Butte Montana s Berkeley Pit an open pit mine which operated from 1955 to 1982 Using oral history interviews and archival finds *The City That Ate Itself* explores the lived experience of open pit copper mining at Butte s infamous Berkeley Pit Because an open pit mine has to expand outward in order for workers to extract ore its effects dramatically changed the lives of workers and residents Although the Berkeley Pit gave consumers easier access to copper its impact on workers and community members was more mixed if not detrimental The pit s creeping boundaries became even more of a problem As open pit mining nibbled away at ethnic communities neighbors faced new industrial hazards widespread relocation and disrupted social ties Residents variously responded to the pit with celebration protest negotiation and resignation Even after its closure the pit still looms over Butte Now a large toxic lake at the center of a federal environmental cleanup the Berkeley Pit continues to affect Butte s search for a postindustrial future *Suburban Alchemy* Nicholas Dagen Bloom, 2001 In *Suburban Alchemy* 1960s New Towns and the Transformation of the American Dream Nicholas Dagen Bloom examines the new town movement of the 1960s which sought to transform the physical and social environments of American suburbs by showing that idealism could be profitable Bloom offers case studies of three of the movement s more famous examples Reston Virginia Columbia Maryland and Irvine California to flesh out his historical account In each case innovative planners mixed land uses and housing types refined architectural graphic and landscape design offered well defined village and town centers and pioneered institutional planning As Bloom demonstrates these efforts did not uniformly succeed and attempts to reshape community life through design notably faltered However despite frequent disappointments and compromises the residents have kept the new town ideals alive for over four decades and produced a vital form of suburban community that is far more complicated and interesting than the early vision promoted by the town planners Lively chapters illustrate efforts in local politics civic spirit social and racial integration feminist innovations and cultural sponsorship *Suburban Alchemy* should be of interest to scholars of U S urban history planning history and community development as well as the general reader

Frey,2003-01-21 A quick glance at the headlines reveals a world plagued by violence hatred unrest disease and death a world without hope A look into our hearts yields similar results loneliness anger sorrow and depression are companions many of us would rather not carry What happened to the abundant life Jesus promised us William Frey suggests that root of the problem is a loss of memory In our haste to study and know the Bible we have failed to experience the story of the Bible and thus we have forgotten who we are The Dance of Hope helps readers regain the Bible story as it reveals the fullness of our identity as God s creation recovers a biblically founded hope for the future and equips the Christian community to be bearers of authentic hope to the world When believers view the Bible story through what William Frey calls a creation lens they discover a promised future of glory that can fill them with hope for today Also included is a study guide that leads readers through times of prayer reflection personal assessment and Scripture study teaching them to view the world through hopeful eyes

Connecting the Dots Peggy Wireman,2017-09-08 Despite its size and social diversity the United States is one nation and what happens in one city or neighborhood ultimately affects all Americans Connecting the Dots addresses the complex relationships between family and community and between community and other players affecting family and community life including the private sector government nonprofit groups and religious organizations Contrary to much rhetoric Wireman argues that America does not suffer from a loss of family values but from a shift in business practices and public commitments The American dream of work hard buy a home and give your children a better life is no longer realistic for millions of workers both white collar and blue collar At an individual level millions of Americans face significant challenges as they go about trying to meet the everyday responsibilities of earning an income feeding their families maintaining their health finding housing handling everyday household chores and caring for their children Besides identifying top down structures laws and attitudes that create a supportive context for family life the book includes bottom up anecdotal examples to ground its policy oriented discussion It also provides statistical data needed to develop realistic solutions Wireman examines diversity as well since how America handles racial and ethnic differences remains crucial to its future She discusses ways in which communities have created social capital community cohesion and local organizational ability Wireman provides a framework for policymakers local community leaders and neighborhood activists to use in analyzing their situations and selecting the best approach she also describes what various players can and must do to uphold the American dream Connecting the Dots will be of keen interest to sociologists political scientists economists and social workers
