Reconceptualizing Plato's Socrates at the Limit of Education James M. Magrini, 2016-11-25 Bridging the gap between interpretations of Third Way Platonic scholarship and phenomenological ontological scholarship this book argues for a unique ontological hermeneutic interpretation of Plato and Plato's Socrates Reconceptualizing Plato's Socrates at the Limit of Education offers a re-reading of Plato and Plato's Socrates in terms of interpreting the practice of education as care for the soul through the conceptual lenses of phenomenology philosophical hermeneutics and ontological inquiry Magrini contrasts his re-reading with the views of Plato and Plato's Socrates that dominate contemporary education which for the most part emerge through the rigid and reductive categorization of Plato as both a realist and idealist in philosophical foundations texts teacher education programs This view also presents what he terms the questionable Socrates as teacher model which grounds such contemporary educational movements as the Paideia Project which claims to incorporate through a scripted curriculum with Socratic lesson plans the so-called Socratic Method into the Common Core State Standards Curriculum as a technical skill that can be taught and learned as part of the students' critical thinking skills After a careful reading incorporating what might be termed a Third Way of reading Plato and Plato's Socrates following scholars from the Continental tradition Magrini concludes that a so-called Socratic education would be nearly impossible to achieve and enact in the current educational milieu of standardization or neo-Taylorism Social Efficiency However despite this he argues in the affirmative that there is much educators can and must learn from this non-doctrinal re-reading and re-characterization of Plato and Plato's Socrates

The Long Shadow of Antiquity Gregory S. Aldrete, Alicia Aldrete, 2019-02-07 A vivid exploration of the many ways the classical world remains relevant today this is a passionate justification of why we continue to read about and study the lives and works of the ancient Greeks and Romans Challenging the way the phrase 'That's just ancient history' is used to dismiss something as being irrelevant Greg and Alicia Aldrete demonstrate just how much ancient Greece and Rome have influenced and shaped our world today in ways both large and small From the more commonly known influences on politics law literature and timekeeping through to the everyday rituals and routines we take for granted when we exercise dine marry and dress we are rooted in the ancient world Even the political upheaval celebrity obsession and blurring of public and private boundaries that we see in current news betray ancient characteristics now brought to the fore here in a new final chapter If you have ever wondered how far exactly we still walk in the footsteps of the ancients or wanted to understand how study of the classical world can inform and explain our lives today this is the book for you

Antiquity Now Thomas E. Jenkins, 2015-05-14 Written in a lively and accessible style Antiquity Now opens our gaze to the myriad uses and abuses of classical antiquity in contemporary fiction film comics drama television and even internet forums With every chapter focusing on a different aspect of classical reception including sexuality politics gender and ethnicity this book explores the ideological motivations behind contemporary American allusions to the classical world Ultimately this

kaleidoscope of receptions from calls for marriage equality to examinations of gang violence to passionate pleas for peace or war reveals a classical antiquity that reconfigures itself daily as modernity explains itself to itself through ever expanding technologies and media Antiquity Now thus examines the often surprising redeployment of the art and literature of the ancient world a geography charged with especial value in the contemporary imagination *Inaugural Wounds* Robert E. Lougy, 2004 Desire Jacques Lacan suggests is a condition or expression of our wounded nature But because such desire is also unconscious it can be expressed only indirectly for what we consciously desire is hardly ever what we really want Desire makes itself known but disguises its presence appearing for example in unconscious but repetitive and sometimes even self destructive patterns of behavior Informed by the voices of Freud and Lacan regarding the nature of language and desire *Inaugural Wounds* examines the ways in which five major nineteenth century English writers explored the trajectories and shapes of desire Arguing that we need to give to novels the same kind of close scrutiny we give to poetry author Robert Lougy suggests that when we do so we discover that they often astound us by the resonance and range of their language as well as by their ability to take us to strange and haunting places The five narratives examined Charles Dickens's *Martin Chuzzlewit* William Thackeray's *Journey from Cornhill to Grand Cairo* Elizabeth Gaskell's *Ruth* Wilkie Collins's *The Woman in White* and Thomas Hardy's *Jude the Obscure* testify to the mysterious origins of desire Although each of the novels tells its own story in its own way they share a fascination with the nature of desire itself Drawing upon recent work that has challenged historicist approaches toward nineteenth century British literature Professor Lougy uses the insights of psychoanalysis to enable us to more fully appreciate the depth and power of these novels Of great value to Victorian and psychoanalytic scholars *Inaugural Wounds* will be useful for teaching undergraduates as well

The Pedagogical Contract Yun Lee Too, 2010-05-25 The Pedagogical Contract explores the relationship between teacher and student and argues for ways of reconceiving pedagogy It discloses this relationship as one that since antiquity has been regarded as a scene of give and take where the teacher exchanges knowledge for some sort of payment by the student and where pedagogy always runs the risk of becoming a broken contract The book seeks to liberate teaching and learning from this historical scene and the anxieties that it engenders arguing that there are alternative ways of conceiving the economy underlying pedagogical activities Reading ancient material together with contemporary representations of teaching and learning Yun Lee Too shows that apart from being conceived as a scene of self interest in which a professional teacher or sophist is the charlatan who cheats his pupil pedagogy might also purport to be a disinterested process of socialization or a scene in which lack and neediness are redeemed through the realization that they are required precisely to stimulate the desire to learn The author also argues that pedagogy ideally ignores the imperative of the conventional marketplace for relevance utility and productivity inasmuch as teaching and learning most enrich a community when they disregard the immediate material concerns of the community The book will appeal to all those who understand scholarship as having an important social and or political role to play it will also

be of interest to literary scholars literary and cultural theorists philosophers historians legal theorists feminists scholars of education sociologists and political theorists Yun Lee Too is Assistant Professor of Classics Columbia University She is the author of Rethinking Sexual Harassment The Rhetoric of Identity in Socrates Text Power Pedagogy and The Idea of Ancient Literary Criticism forthcoming and coeditor with Niall Livingstone of Pedagogy and Power Rhetorics of Classical Learning
