*The Oxford Handbook of Social Work in Health and Aging* Daniel B. Kaplan, Barbara Berkman, 2016 This Second Edition of the Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment as well as advances in the knowledge base which guides social work service delivery in health and aging This includes recent enhancements in the theories of gerontology innovations in clinical interventions and major developments in the social policies that structure and finance health care and senior services In addition the policy reforms of the 2010 Patient Protection and Affordable Care Act set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families In this volume the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice followed by detailed recommendations of best practices for an array of physical and mental health conditions The volume's unprecedented attention to diversity health care trends and implications for practice research policy make the publication a major event in the field of gerontological social work This is a Must Read for all social work social work educators practitioners and students interested in older adults and their families

*Loving Later Life* Frits de Lange, 2015-04-27 Is loving later life possible In our youth obsessed culture nobody enjoys growing old We normally fear our own aging and generally do not love old people they remind us that death is inescapable the body frail and social status transitory In *Loving Later Life* Frits de Lange shows how

an ethics of love can acknowledge and overcome this fear of aging and change our attitude toward the elderly De Lange reframes the biblical love command this way We must care for the aging other as we care for our own aging selves We can encourage positive self love by embracing life as we age taking good care of our own aging bodies staying good friends with ourselves and valuing the last season of life When we cultivate this kind of self love we are released from our aversion to growing old and set free to care about others who are aging our parents our relatives and others in their final season of life

**The Praeger Handbook of Mental Health and the Aging Community** Doreen Maller, Kathy Langsam, 2017-11-27 A comprehensive book written by experienced practitioners this single volume work describes clinical competencies specific challenges and applications in providing services to the elderly and their caregivers More people are living past age 65 than ever before in the United States largely due to medical care advances and increased attention to preventive care The number of people aged 65 and older has increased from 35 million in 2000 to 40 million in 2010 and the elderly population is expected to reach 72 million by 2030 Additionally the American Psychological Association estimates at least 20 percent of all people aged 65 and older have a diagnosable mental disorder There is a clear need to provide additional training support to those in the field of elder care as well as those who are friends or family members of older adults Written by a team of experts each specializing in an aspect of elder care The Praeger Handbook of Mental Health and the Aging Community is a single volume text that addresses the training needs of mental health care providers serving the aging population It offers holistic and integrated models of care after presenting an in depth explanation of the brain body social and emotional changes across aging that can trigger psychological disorders The chapters pay attention to issues of diversity and culture in America s aging population present an integrated care model to serve all of the needs of mentally ill elders include numerous case studies to demonstrate how approaches can be utilized and discuss topics such as disability poverty and the legal and ethical ramifications of elder care Delivering Home-based Services Susan F. Allen, Elizabeth M. Tracy, 2009 Service providers are increasingly called upon to serve clients at home a setting even a seasoned professional can find difficult to negotiate From monitoring the health of older populations to managing paroled offenders preventing child abuse and reunifying families home based services require models that ensure positive outcomes and address the ethical dilemmas that might arise in such sensitive contexts The contributors to this volume are national experts in diverse fields of social work practice policy and research Treating the home as an ecological setting that guides human development and family interaction they present rationales for and overviews of evidence based models across an array of populations and fields of practice Part 1 provides historical background and contemporary applications for home based services highlighting ethical administrative and supervision issues and summarizing the social policies that shape service delivery Part 2 addresses home based practice in such fields as child and adult mental health school social work and hospice care detailing the particular population being treated the policy and agency context theories and empirical data and practice guidelines Part 3 the editors

present a unifying framework and suggest future directions for home based social work      *Advances in Experimental Social Psychology*, 2011-08-03 *Advances in Experimental Social Psychology* continues to be one of the most sought after and most often cited series in this field. King, Anita De Longis, 2020-07-27 The second Canadian edition of *Health Psychology: Biopsychosocial Interactions* integrates multidisciplinary research and theory to help students understand the complex connections between psychology and health. This comprehensive yet accessible textbook covers the biopsychosocial factors that impact human health and wellness, placing particular emphasis on the distinctive characteristics of the Canadian health care system, the issues and challenges unique to Canadian culture, and the most recent Canadian research in the field of health psychology. Clear student friendly chapters examine topics such as coping with stress and illness, lifestyles for enhancing health and preventing illness, managing pain and discomfort, getting medical treatment and living with chronic illness. This fully revised second edition features the latest available data and research from across Canada and around the world. New and expanded chapters explore psychosocial factors in aging and dying, legalized marijuana use in Canada, the link between inflammation and depression, Canadian psychosocial models of pain, recent Medical Assistance in Dying (MAiD) legislation, weight control, eating disorders, and exercise, and much more. Throughout the text, updated illustrative examples, cross cultural references, and real world cases reinforce key points and strengthen student comprehension, retention, and interest      *Sex and Sexuality* M. Michele Burnette, Richard McNulty, 2006-05-30 An unprecedented source of information about sex and sexuality at the start of the 21st century, these volumes include research, current events, and new developments in subjects ranging from hypersexuality, sex for the aged, and sex therapy to orgasmic disorders, sexual fetishism, and sadism. Controversial subjects such as pornography, nude dancing, and prostitution are explored, as are dysfunctions from lack of sexual desire to gender identity disorder. Pedophilia and other crimes are also addressed. The remarkable team of contributing authors includes psychologists, sociologists, psychiatrists,

medical doctors and public health officials They provide fresh insights on sex in America today on sexual development in childhood midlife and the senior years and on the influence of media and the family in the social construction of sex and sexuality The books also offer insights into the psychology of sexual arousal and the effects medication can have on sexual function and they shed light on such little heralded studies as those on sex and race and sex and religion

**Handbook of Social Work in Health and Aging** Barbara Berkman, 2006-02-09 The *Handbook of Social Work in Health and Aging* is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume's 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today

**Respect and Care for the Elderly** Kyu-t'ak Söng, 2007 Dr Kyu taik Sung's research on filial piety spans three decades Many of his past writings have focused on East Asian elders and this new text carries that theme forward as well One main objective of this volume is to introduce to the West the caring attitudes and behaviors of East Asian people toward elderly persons Findings are based on qualitative and quantitative data obtained from

a series of empirical studies conducted in the East and West These studies are grounded in the traditional East Asian values of family care reciprocity and humaneness Despite the fact that filial piety has influenced peoples for generations the concept of filial piety remains too general and abstract to provide clear guidelines for practice and research Of the various expressions of filial piety elder respect is the most stressed and prominent Elder respect remains as an essential element in uplifting elders statuses integrating them more fully into the family and society and providing them with proper and humane care and services Articles in this volume explore specific categories and measures indicating behavioral and attitudinal expressions of elder respect in these changing times Readers in the East and West who are interested in cultural differences and similarities between the two cultures will find this text very useful in understanding elder care and support Stress, Psychosocial Resources, and Depression Among the Oldest-old Hae-Sook Jeon,2005 Environmental Influences on Aging in Place Dina G.
