Mazzarella, 2007 Textbook Hidden Agendas Lydia Miljan, Barry Cooper, 2011-11-01 Few books in Canada empirically and systematically examine the role journalists play in the news making process While there are several books that look at how journalists do their jobs and others that examine the political process none until now have analyzed the opinions of journalists and how the news is reported Focusing primarily on the political orientation of journalists Miljan and Cooper investigate the link between what journalists believe about politics and how they report political issues Using data gathered from interviews with over 800 Canadians and some 270 journalists the authors compare how the attitudes of journalists differ from those of the general population and how the journalists opinions influence the daily news By examining the way they respond to questions on the economy social issues and national unity and comparing these responses with how the stories were reported in Canadian news outlets the book arrives at the controversial conclusion that journalists moreso than the owners of the media are the architects of the news engineering not only its drama but also its ideological thrust A must read for anyone interested in politics and the media this book should be read by journalists politicians academics and all Canadians who are concerned about the hidden agendas of journalists Zizek and the Media Paul A. Taylor, 2013-09-04 Slavoj Zizek reaches the parts of the media that other theorists cannot With sources ranging from Thomas Aquinas to Quentin Tarantino and Desperate Housewives to Dostoyevsky Zizek mixes high theory with low culture more engagingly than any other thinker alive today His prolific output includes such media friendly content as a TV series The Pervert s Guide to Cinema a documentary movie Zizek and a wealth of YouTube clips A celebrity academic he walks the media talk Zizek and the Media provides a systematic and approachable introduction to the main concepts and themes of Zizek s work and their

particular implications for the study of the media The book Describes the radical nature of Zizek s media politics Uses Zizekian insights to expose the profound intellectual limitations of conventional approaches to the media Explores the psychoanalytical and philosophical roots of Zizek s work Provides the reader with Zizekian tools to uncover the hidden ideologies of everyday media content Explains the ultimate seriousness that underlies his numerous jokes As likely to discuss Homer s Springfield as Ithaca Zizek is shown to be the ideal guide for today s mediascape *Journalism* Tony Harcup,2004 Journalism offers a wide ranging introduction to journalism which combines the experience and advice of practising journalists with insights gained by its academic study The Routledge Companion to Media and Activism Graham Meikle,2018-03-09 The Routledge Companion to Media and Activism is a wide ranging collection of 42 original and authoritative essays by leading contributors from a variety of academic disciplines Introducing and exploring central debates about the diverse relationships between both media and protest and communication and social change the book offers readers a reliable and informed guide to understanding how media and activism influence one another The expert contributors examine the tactics and strategies of protest movements and how activists organize themselves and each other they investigate the dilemmas of media coverage and the creation of alternative media spaces and platforms and they emphasize the importance of creativity and art in social change Bringing together case studies and contributors from six continents the collection is organized around themes that address past present and future developments from around the world The Routledge Companion to Media and Activism is an essential reference and guide for those who want to understand this vital area *The National Union Catalog, Pre-1956 Imprints* ,1976 *The Television Genre Book* Glen Creeber,2023-11-30 In this new edition of The Television Genre Book leading international scholars have come together to offer an accessible and comprehensive update to the debates issues and concerns of the field As television continues to evolve rapidly this new edition reflects the ways in which TV has transformed in recent years particularly with the emergence of online streaming services such as Netflix Disney HBO Max and Amazon Prime It also includes a new chapter on sports TV and expanded coverage of horror political thrillers Nordic noir historical documentary and docu drama With analyses of popular shows like Stranger Things Killing Eve The Crown Chernobyl Black Mirror Fleabag Breaking Bad and RuPaul s Drag Race this book offers a comprehensive understanding of television genre for scholars and students alike *Now* Vincent Lavoie,2003-01-01 While the crisis that took place in photojournalism during the 1960 s brought about a significant shift in the practices discourses and institutional structures of press photography it also affected the practices of artists specifically with regard to work devoted to revitalizing the depiction of events The art world attempted to revitalize the historical genre by undertaking its critical rereading in the spirit of restoring a tradition diminished by the mass media The problem may be expressed in these terms How can history be depicted bearing in mind that the media mainly photojournalism and the electronic press have claimed a monopoly of the genre unto themselves At issue is the sizeable problem of mass media

omnipotence as an obligatory referential universe for historiographical artistic practices Today it seems impossible to depict the event in any way other than by accentuating or eschewing the formal attributes rhetorical artifices and ideological precepts of the mass media These approaches to addressing historical moments have been examined in this article both because they epitomize contemporary historical writing and for the most part they constitute critical responses to stereotyped depictions of events Above all they represent a paradigm shift the mass media s prerogatives for depicting historical moments has shifted towards the field of art Contemporary depictions of catastrophe crimes sensationalist news items terrorist attacks humanitarian disasters genocides common themes in many of the artistic projects represented in the 8th edition of the Mois de la Photo a Montreal have been especially striking in this respect For of all contemporary events catastrophes are the most likely to be spontaneously propelled to the top of the news roster and the most susceptible to the various inflections of contemporary art photography
