*Down from London* Carolyn W. de la L. Oulton,2022-02-15 In the first hundred years of the UK rail network the seaside figures as a nerve centre managing and making visible the period s complex interplay between health death gender and sexuality This monograph discusses around 130 novels of the railway age to show how the seaside infiltrates a diverse range of literature subverting the boundaries between high and low literary culture The seaside holiday galvanises innovative

literary forms including early twentieth century holiday crime and romance fiction which has its origins in the sensational strategies of mid nineteenth century authors Where reading takes place is at least as important as what is read and case studies on literary Brighton and Dickensian Kent explore the occasionally fraught relationship between seaside towns and the metropolis as London visitors are represented in and are the target audience for literary accounts of the seaside holiday The act of reading by the sea is itself overdetermined and problematic a dilemma that is managed in part through the development of text free literary tourism in the late nineteenth century Deploying strategies from literary criticism histories of reading libraries and the book and literary tourism this book recovers seaside reading as both a literary sub genre and a deeply contested mode of engagement

**In Darkest London** Jamieson Ridenhour, 2013 During the 19th century London was a complex vibrant and multi faceted city the first true metropolis As such it contained within it a widely disparate array of worlds and cultures Representations of London in literature varied just as widely In the late 1830s London began appearing as a site of literary terror and by the end of the century a large proportion of the important Victorian Gothic revival novels were set in the city *The Strange Case of Dr Jekyll and Mr Hyde* *The Picture of Dorian Gray* *The Three Impostors* *The Beetle* *Dracula* and many others *In Darkest London* is a full length study of the Victorian Urban Gothic a pervasive mode that appears not only in straightforward novels of terror like those mentioned above but also in the works of mainstream authors such as Charles Dickens and in the journalism and travel literature of the time In this volume author Jamieson Ridenhour looks beyond broad considerations of the Gothic as a historical mode to explore the development of London and the concurrent rise of the Urban Gothic He also considers very specific aspects of London's representation in these works and draws upon recent and then contemporary theories close readings of relevant texts and cartography to support and expand these ideas This book examines the work of both canonical and non canonical authors including Dickens Bram Stoker Robert Louis Stevenson G W M Reynolds Richard Marsh Arthur Machen Marie Belloc Lowndes and Oscar Wilde Placing the conventions of the Gothic form in their proper historical context *In Darkest London* will appeal to scholars and students interested in an in depth survey of the Urban Gothic
