The Omega Point Trilogy George Zebrowski, 2002-06 6599 A D The war between the Earth Federation and the Herculean Empire had been over for more than three centuries The planet in the Hercules Globular Cluster was a cinder the few descendants of the surviving Herculeans lived on Myraa's World half a galaxy away in what seemed to be a religious commune But on an unnamed planet deep within the Hercules Cluster two survivors father and son gather their resources and plan reign of terror against Federation worlds But the woman Myraa has a different vision one which excludes empires and warring armies Subtly she strives to shape events toward a different end Rising to one the most unusual climaxes in recent fantastic literature this novel of chase and vengeance depicts a colorful poetic future which is struggling to overcome its past Filled with striking twists and vivid ideas this is space opera at its most modern

the nature of society technology and humanity itself Zebrowski is a deep thinker who writes about the big questions in the grand tradition of Wells Stapledon and Clarke Jack M Dann award winning author of *The Silent* and *The Memory Cathedral* *High Crimes Call for High Punishment* It is the twenty first century Convicts are sentenced to asteroids that move in ever widening solar orbits timed to return when their terms run out But a few ambitious administrators discover that small errors in velocity can rid them of selected groups altogether the hardcore violent the mentally defective and especially the political dissidents Enduring the black vise of interstellar space time these human rejects men and women mixed together create their own Darwinian societies struggling to survive Back on Earth a handful of sympathetic and curious scientists have not forgotten these lost citizens When a technological breakthrough makes it possible to overtake these scattered asteroids a courageous team sets out to go where none has willingly gone before What they discover in these brute orbits is both provocative and moving a startling vision of humanity you will never forget

Empties George Zebrowski,2014-04-01 A detective discovers bodies without brains and wonders if he s losing his mind in this tale of nightmarish terror What do you tell yourself when impossible things begin to happen What can you say You re a police detective but maybe you re just not good enough and that s what you have to admit whether you like it or not You see evidence of things that can t be real but you just don t observe well enough to explain it in any natural way Can you ask

rational questions and still be crazy Does it help any that you know your mind is gone You re trapped in a black comedy with a beautiful but fatal woman right out of an old poem by Keats hoping to wake up from the nightmare even if on a cold hillside as long as you wake up sane Detective William Benek is faced with an impossible crime bodies are turning up without their brains and without any indication of how the organs were removed His only lead an attractive woman becomes more than a lead and then drives him into a world of terror where his sanity is questioned and he must stop a monster he can barely comprehend Listed as a Best Book of 2009 by Edge Boston **Garth Of Izar** Pamela Sargent,George Zebrowski,2012-10-08 Captain Garth of Izar hero of the battle of Axanar which helped secure the future of the Federation was once a legendary Starfleet Captain whose exploits were required reading at Starfleet Academy In the 2260s he suffered serious injuries in an incident on Antos IV The inhabitants of Antos repaired his body by teaching him the art of cellular metamorphosis but did not realise that his injuries had rendered him criminally insane After ordering the destruction of Antos IV Garth was committed to the Federation rehab colony on Elba II where in 2268 he overpowered his keepers escaping with the aid of the cellular metamorphosis process mastery of which enabled him to take on the appearance of any person he wished Before his eventual recapture he had proclaimed himself lord of the universe and attempted to commandeer the Starship Enterprise Now cured of his insanity by new techniques of experimental medicine Garth of Izar must rebuild his shattered life The opportunity to do so is provided on a mission to solve a diplomatic crisis a crisis that requires Garth to return to the very planet that caused his insanity so many years ago **Science Fact and Science Fiction** Brian Stableford,2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed *The Twin Towers Trilogy* Sal Umana,2011-11-30 Sal Umana is a psychotherapist and minister who directed a counseling center in New York City for the past thirty years After the attack on the World trade Center on 9 11 01 Sal imagines God coming to him and asking who was the God everyone was talking about God is very upset because He is not the God of the Al Quaeda suicide bombers nor is he

the God of the President's Infinite Justice in whose name George Bush declares war on terrorism Sal the therapist spends four months in weekly therapy sessions in which it turns out that the God we all grew up with never really existed Instead God turns out to be the Eternal Spirit of Love and not the Tribal Imperialist God of domination and vengeance of traditional religions This became the first book of the trilogy *The Day God Died* and was published in 2002 Since God was no longer the Almighty Big Person with an Omnipotent Ego what was Sal doing with an Ego So he did another course of therapy self analysis called *The Day My Ego Died* Sal comes to the realization that we are not individual Egos but part of the Oneness of Being including God ourselves and all of reality This is Zen existential psychotherapy Christian mysticism and Buddhist Awakening all blended together Finally for the tenth anniversary of 9 11 01 Sal completes his Trilogy with *Back To Earth A Spirituality For the Age of Terrorism* In this third book Sal teaches us the difference between I and we Ego and Love life and death and time and eternity In these three volumes Sal dispenses a lifetime of learning from psychotherapy meditation and ministry that can help the reader negotiate the anxiety of the age of terrorism *Across the Universe* George

Zebrowski,Pamela Sargent,1999-10-01 The Hawking left Earth during the 21st Century on a one way mission to colonize a distant world Due to the relativistic effects of pre warp travel it's crew has aged only thirty years while two centuries have passed outside the ship When the Starship Enterprise comes to the rescue of the malfunctioning Hawking the colonists find themselves thrust into a universe and an era that has left them behind Captain Kirk intends to help the colonists adjust as best he can but the task is not a simple one The newcomers are survivors of a more violent more paranoid time and the have brought old suspicions and an ancient weapon of mass destruction into a world of unexpected challenges and dangers

Tos #88 Across The Universe P Sargent,2012-10-30 When the Enterprise discovers a colony ship launched from Earth at sublight speeds in the 22nd century Captain Kirk decides to help the settlers on their way to their intended destination But their new planet may not be the haven that they hoped for and the threat it holds may be only slightly less deadly than the menace they have unintentionally brought with them **Heart Of The Sun** George Zebrowski,Pamela Sargent,2012-10-09

When an abandoned space habitat is found within a distant asteroid belt the Starship Enterprise is sent to investigate Captain Kirk and his crew discover an artificial world full of technological marvels and unexpected dangers But wonder and curiosity give way to fear when the habitat's shifting orbit sends it on a collision course with an inhabited planet within the same solar system Now Kirk and Spock must find a way to save the planet without destroying a treasure trove of alien science and time is running out *In the Distance, and Ahead in Time* George Zebrowski,2015-05-19 The ten stories of this collection present glimpses of our near middle and far futures Heathen God the author's first Nebula Award finalist reveals the consequences of learning that our solar system may have been engineered by an alien race In the Distance and Ahead in Time and Wayside World depict the rediscovery of a ruined Earth's interstellar colonies by a new culture of mobile habitats In Transfigured Night and Between the Winds we enter two possible destinies as we tamper with human reality and

humankind mutates into vastly different offshoots *The Campus Trilogy* David Lodge, 2011-10-04 A trio of dazzling novels in a comic mode that the author has now made completely his own a cause for celebration The New York Times Book Review David Lodge's three delightfully sophisticated campus novels now gathered together in one volume expose the world of academia at its best and its worst In *Changing Places* we meet Philip Swallow British lecturer in English at the University of Rumbridge and the flamboyant American Morris Zapp of Euphoric State University who participate in a professorial exchange program at the close of the tumultuous sixties Ten years later in *Small World* older but not noticeably wiser they are let loose on the international conference circuit along with a memorable and somewhat oversexed cast of dozens And in *Nice Work* the leftist feminist Dr Robyn Penrose at Rumbridge University is assigned to shadow the director of a local engineering firm sparking a collision of ideologies and lifestyles that seems unlikely to foster anything other than mutual antipathy *Talks with the Masters: Conversations with Isaac Asimov, Ray Bradbury, Arthur C. Clarke, and James Gunn* George Zebrowski, Isaac Asimov, Ray Bradbury, Arthur C. Clarke, James Gunn, 2018-08-06 Acclaimed science fiction author George Zebrowski conducts interviews with four Grand Masters of Science Fiction Isaac Asimov Ray Bradbury Arthur C.
