New Directions in Biocultural Anthropology Molly K. Zuckerman, Debra L. Martin, 2016-10-17 Biocultural or biosocial anthropology is a research approach that views biology and culture as dialectically and inextricably intertwined explicitly emphasizing the dynamic interaction between humans and their larger social cultural and physical environments The biocultural approach emerged in anthropology in the 1960s matured in the 1980s and is now one of the dominant paradigms in anthropology particularly within biological anthropology This volume gathers contributions from the top scholars in biocultural anthropology focusing on six of the most influential productive and important areas of research within biocultural anthropology These are critical and synthetic approaches within biocultural anthropology biocultural approaches to identity including race and racism health diet and nutrition infectious disease from antiquity to the modern era epidemiologic transitions and population dynamics and inequality and violence studies Focusing on these six major areas of burgeoning research within biocultural anthropology makes the proposed volume timely widely applicable and useful to scholars engaging in biocultural research and students interested in the biocultural approach and synthetic in its coverage of contemporary scholarship in biocultural anthropology Students will be able to grasp the history of the biocultural approach and how that history continues to impact scholarship as well as the scope of current research within the approach and the foci of biocultural research into the future Importantly contributions in the text follow a consistent format of a discussion of method and theory relative to a particular aspect of the above six topics followed by a case study applying the surveyed method and theory This structure will engage students by providing real world examples of anthropological issues and demonstrating how biocultural method and theory can be used to elucidate and resolve them Key features include Contributions which span the breadth of approaches and topics within biological anthropology from the insights granted through work with ancient human remains to those granted through collaborative research with contemporary peoples Comprehensive treatment of diverse topics within biocultural anthropology from human variation and adaptability to recent disease pandemics the embodied effects of race and racism industrialization and the rise of allergy and autoimmune diseases and the sociopolitics of slavery and torture Contributions and sections united by thematically cohesive threads Clear jargon free language in a text that is designed to be pedagogically flexible contributions are written to be both understandable and engaging to both undergraduate and graduate students Provision of synthetic theory method and data in each contribution The use of richly contextualized case studies driven by

empirical data Through case study driven contributions each chapter demonstrates how biocultural approaches can be used to better understand and resolve real world problems and anthropological issues AB Bookman's Weekly ,1994

**Prehistoric ABC. Extinct Animals Album from A to Z** Alexandra Uchytel,Roman Uchytel,2021-04-08 Any learning should not be boring And now ancient animals have come to the aid of the Young Personalities Did the Hobbits exist 100 thousand years ago Is it true that the ancient rodents were the size of a rhinoceros and the extinct rhinos led the life of giraffes and were the tallest animals in the world PREHISTORIC ABC just answers all these questions A Arctodus giant extinct bear B Barylambda one of the largest herbivorous mammals of the Paleocene C Castoroides giant extinct beaver and so on 26 photo reconstructions of prehistoric animals beyond the dinosaurs are illustrated in this Prehistoric Alphabet by famous paleoartist Roman Uchytel To view each hair or tip of the tooth the extinct creatures are drawn on a white background The diet of each animal is indicated by a special symbol Short and informative texts will not tire even the child and will give understanding of ancestors and descendants of extinct animals These are not just illustrations but rather artistic recreations from the skeletons of ancient animals that roamed the earth millions of years ago Many of these fascinating creatures are unfamiliar to the public and remain a mystery even to science So welcome to the World of Prehistoric Fauna from A to Z undiscovered and incredibly beautiful *The SAGE Handbook of Cultural Sociology* David Inglis,Anna-Mari Almila,2016-05-09 Cultural sociology or the sociology of culture has grown from a minority interest in the 1970s to become one of the largest and most vibrant areas within sociology globally In *The SAGE Handbook of Cultural Sociology* a global range of experts explore the theory methodology and innovations that make up this ever expanding field The Handbook's 40 original chapters have been organised into five thematic sections Theoretical Paradigms Major Methodological Perspectives Domains of Inquiry Cultural Sociology in Contexts Cultural Sociology and Other Analytical Approaches Both comprehensive and current *The SAGE Handbook of Cultural Sociology* will be an essential reference tool for both advanced students and scholars across sociology cultural studies and media studies **Religion, Sustainability, and Place** Steven E. Silvern,Edward H. Davis,2020-12-14 This book explores how religious groups work to create sustainable relationships between people places and environments This interdisciplinary volume deepens our understanding of this relationship revealing that the geographical imagination our sense of place is a key aspect of the sustainability ideas and practices of religious groups The book begins with a broad examination of how place shapes faith based ideas about sustainability with examples drawn from indigenous Hawaiians and the sacred texts of Judaism and Islam Empirical case studies from North America Europe Central Asia and Africa follow illustrating how a local bounded and sacred sense of place informs religious based efforts to protect people and natural resources from threatening economic and political forces Other contributors demonstrate that a cosmopolitan geographical imagination viewing place as extending from the local to the global shapes the struggles of Christian Jewish and interfaith groups to promote just and sustainable food systems and battle the climate crisis
