## **On Being A Pagan:**

*On Being a Pagan* Alain De Benoist, 2018-04-23 What is paganism In this penetrating and tightly argued manifesto French philosopher Alain de Benoist seeks to answer this question with passionate intellectual vigor and a tremendous erudition Arising out of the monotheism vs polytheism debate that reverberated through Parisian intellectual circles in the late 1970s this is neither a survey of ancient pre Christian religions nor is it an argument on behalf of any modern neo pagan sect On Being a Pagan draws on Nietzsche Heidegger ancient philosophy and mythology and biblical hermeneutics to articulate a pagan theology based on a common Indo European foundation In keeping with the critical tradition which harkens back to the Greek philosopher Celsus Benoist contrasts the heroic pagan worldview with Christianity's attempts to hobble everything that is beautiful and strong He compares the cyclical pagan conception of time to the de mythologizing linear understanding of history favored by the prophets Most disturbingly he traces the roots of modern totalitarianism and intolerance of both the left and the right to the leveling ideology of ancient Judeo Christian monotheism with its underlying rejection of diversity and difference Originally published to wide critical acclaim in 1981 Benoist's text is as relevant today as it was when it first appeared and perhaps even more so for the English speaking world This newly revised translation now features an extensive interview with the author and includes his reflections both positive and negative on the various groups and individuals that have attempted to resurrect the pagan spirit Rather than simply dissecting the 2 000 year Christian interregnum Benoist's greater purpose is to point the way forward to a world that could have been and which may only now be in the first stages of being reborn
